

CELINE ZARB

DIGITAL MULTIMEDIA
DESIGNER

ABOUT ME

Curiosity is my driving force; an intrinsic need to learn everything I can. Well-versed in a variety of design fields, I find myself leaning more towards the medium of moving picture, as it allows me to connect better with my audience. A solid understanding of the Adobe Suite was honed through scholastic, clientele, and personal practice. Notably so in Photoshop, Illustrator, & After Effects. I prioritise a high quality of work, and value creating strong connections with clients.
