

FOR IMMEDIATE RELEASE

FIND YOUR RIMIDI™ Announces *The Late Bloomer Experience*: An Immersive Community Experience Coming to Miami Gardens on August 1

MIAMI GARDENS, Fla. — FIND YOUR RIMIDI™ is proud to announce **The Late Bloomer Experience**, the 2026 flagship experience of the FIND YOUR RIMIDI platform, taking place **Saturday, August 1, 2026**, at an **undisclosed location in Miami Gardens, Florida**. The exact location will be shared exclusively with registered attendees in the days leading up to the experience.

Inspired by RIMIDI's acclaimed project **JUNO: The Late Bloomer**, this year's flagship expression brings together music, education, wellness, conversation, creativity, technology, and community in a one-of-a-kind immersive experience designed to help participants reconnect with themselves and one another.

Unlike a traditional concert, conference, or festival, **The Late Bloomer Experience** invites participants into a thoughtfully curated journey of exploration from the moment they register. Some experiences begin when you arrive. This one begins the moment you say yes.

With an intentionally undisclosed location, thoughtfully revealed details, and immersive moments of exploration woven throughout the day, The Late Bloomer Experience invites participants to remain curious, present, engaged, and open to discovery.

"Music is the invitation," says founder and creative director **RIMIDI**. "The deeper experience is about reconnecting with who we are, finding community, and creating space to rest, reflect, learn, and grow together."

Throughout the day, attendees will experience live music, intimate performances, creative conversations, educational masterclasses, wellness experiences, guided reflection, interactive sessions, and opportunities to connect with artists, entrepreneurs, educators, and community leaders. The experience has been intentionally designed to balance inspiration with restoration, recognizing that meaningful creativity requires both expression and rest.

This year's collaborators include **RIMIDI**, **Aaron Marcus Payne**, **DJ Raver Teddy**, and **The Suited Drummer**, with special guest artists including **Gino Black**, **Passion Ward**, **Melody Renee**, and **KNZO**. Additional collaborators, community partners, and special guests will be announced in the coming weeks.

The experience is presented in permanent partnership with **GEM CULTURE**, supporting intergenerational creativity, leadership, and community, and in partnership with **Powerblast Worldwide**, alongside a growing network of community organizations, artists, educators, and creative collaborators.

As a community-centered activation, FIND YOUR RIMIDI is committed to making the experience accessible. A significant number of complimentary tickets will be distributed through participating artists, collaborators, and community partners, helping expand access across South Florida while maintaining an intentionally curated experience.

The Late Bloomer Experience represents the current flagship expression of the FIND YOUR RIMIDI platform. Future flagship experiences will continue to explore new stories, themes, collaborators, and creative expressions while remaining rooted in the platform's mission of helping people live, create, and contribute in greater alignment with who they are.

Registration opens soon.

To learn more, join the mailing list, or reserve your place when tickets become available, visit **findyourrimidi.com**.

About FIND YOUR RIMIDI™

FIND YOUR RIMIDI™ is an immersive experience platform where music, creativity, education, wellness, intentional rest, technology, and community come together to help people reconnect with themselves and live, create, and contribute with greater intention. Through flagship experiences, community gatherings, educational programming, and creative collaborations, FIND YOUR RIMIDI creates environments where people can slow down, listen deeply, and discover what they didn't know they needed.
