The product represented has been tested by Michigan Institute of Toxicology using analytical instrumentation with proven and validated scientific methodologies compliant with the Cannabis Regulatory Agency guidelines. All QC samples were analyzed and met the prescribed acceptance criteria in Rule (5)(b) in the Marihuana Sampling and Testing Rule Set R 420.305b(5). Analyte limits are regulatory limits set by the CRA. This constitutes the required decision rule. The results in this COA apply only to the lot sampled, tested and described herein as tracked by METRC. Michigan Institute of Toxicology makes no claims as to the efficacy and/or safety of the product represented herein. This Certificate of Analysis may not be reproduced except in full without the express written consent of Michigan Institute of Toxicology. Sampled in accordance to OP001.
