**Rafael Vela**

has successfully completed the online, non-credit Specialization

## Future Ready Company

For a company to stay relevant, the capacity to change inside has to match the rate of change outside. And that's a tall order in today's volatile and unpredictable business environment. This specialization from London Business School is designed to help you future-proof your company – to make sense of the biggest external changes underway and to provide you with practical advice on what you should do differently. In four complementary courses, we provide you with a wealth of up-to-date examples of what leading companies are doing, and we show how you can move forward with your own adaptation plans, whatever your level of seniority.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
