

## MESQUITE WORKS

### Food or Drink around Equipment

#### Policy 7-2024

**General Policy:** To ensure the safety and proper functioning of the equipment at our STEAM Center, we have implemented a strict No Food or Drink policy in the vicinity of the equipment. This policy is in place to prevent damage to the equipment, maintain a clean and sanitary environment, and minimize the risk of accidents or injuries. By participating in activities at our STEAM Center, you agree to adhere to the following guidelines:

**No Food Consumption:** Please refrain from consuming any food or snacks while in the area where the equipment is located. Food particles or spills can damage the sensitive components of the equipment and compromise its performance.

**No Drinks Allowed:** Do not bring any beverages, including water bottles, cups, or any other liquid containers near the equipment. Accidental spills or leaks can cause electrical hazards, damage sensitive circuitry, or create slip and fall risks.

**Designated Areas:** We have designated specific areas within the facility where you can consume food and beverages. Please utilize these designated areas, such as break rooms or designated eating areas, for any snacking or drinking needs.

**Prompt Cleanup:** If you accidentally spill any food or drink in the vicinity of the equipment, please notify our staff immediately so that we can address the situation promptly. Prompt cleanup is essential to prevent damage and maintain a safe environment for everyone.

**Hydration Breaks:** We understand the importance of staying hydrated, especially during engaging activities. However, we request that you take breaks away from the equipment and designated areas to consume beverages. This will help ensure the safety and longevity of the equipment.

By adhering to this No Food or Drink policy, you contribute to the preservation of our equipment and maintain a safe environment for all participants. We appreciate your cooperation in helping us create an optimal experience for everyone.
