ABOUT US

WINKS – With INTentional Kindness and Support is a volunteer-led 501(c)(3) nonprofit and the only local organization in Hampton Roads focused exclusively on supporting brain tumor patients and their families.

At WINKS, we are dedicated to lifting burdens and empowering those facing a brain tumor journey by providing essential resources and compassionate support.

Empathy in Action Grants: WINKS awards need-based grants to help alleviate the financial strain caused by a brain tumor diagnosis.

Brain Tumor Power Packs: Distributed at local medical facilities, these packs equip newly diagnosed patients with the information and resources they need to make informed decisions about their care.

Encouraging Nods Brain Tumor Support: Our program provides emotional, practical, and peer support to patients and caregivers, helping them navigate the challenges of a brain tumor diagnosis.

Other ways WINKS serves patients and families:

- Facilitate support groups
- Directly support through phone calls and emails
- Connect with resources
- Provide information through our website and social media

TEE UP THE FACTS

BRAIN TUMORS FACTS & FIGURES

DIAGNOSIS

An estimated 700,000 people are living with a primary brain tumor; roughly 3,600 live in Hampton Roads with another 120 diagnosed annually.

LIFE-ALTERING IMPACT

More than any other cancer, brain tumors can have lasting and life-altering physical, cognitive, and psychological impacts on a patient's life.

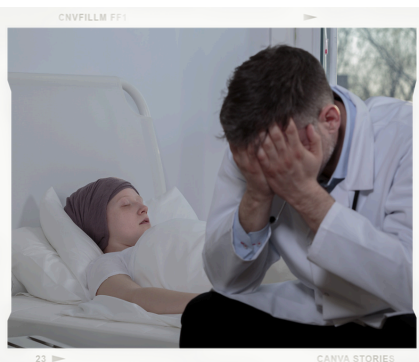

FINANCIAL IMPACT

Brain tumors represent the highest per-patient initial cost of care for any cancer group, and the highest annualized mean net costs for last-year-of-life.

METASTATIC BRAIN TUMORS

Each year, approximately 70,000-170,000 cancer patients are diagnosed with metastatic brain tumors/secondary brain tumors, while ~100,000 will die every year as the result of brain metastases.

LOSS OF LIFE

More than 18,990 people are estimated to lose their life because of a malignant brain tumor/brain cancer in 2023. Pediatric brain tumors are the leading cause of cancer-related death among children and adolescents ages 0-19 years.

SURVIVAL RATE

For patients with a malignant brain tumor, the five-year relative survival rate is 35.6%. For the most common form of primary malignant brain tumors, glioblastoma, it is only 6.8% and median survival is only 8 months.
