If you used your own tracking timing device (Garmin, Fitbit, SmartPhone, etc.), what was the distance you got for our course? I am curious to see what the range of data shows. 15 responses

Any comments or advice (good or bad) you would like to share about anything? 15 responses

Garrett, I have been unable to do this race the past few years due to the Caseville Triathlon being held the day after. This far surpassed what I remember several years ago. I love the course. I also think it's great utilizing the pavilion vs. being in the grass from a few years ago. Refreshments were awesome and the atmosphere was upbeat. Thanks again, I give you 5 stars!!!!!!

Whatever sponsor donated the Fairlife chocolate milk needs an extra round of applause.

Very nicely done as always!

I liked the location of the start.

Thanks to all involved in making this a great event!

Thanks for putting this race on! It motivates me to workout during the summer.

My favorite 5k

It truly doesn't matter to me if we have the professional timing. However, I do think it may help alleviate the need to have people at the finish line trying to put stickers and times down. Some years may be harder than others to get enough volunteers so this is a great alternative.

I am so happy to have this again this year. Everything was perfect. You consistently do an amazing job and I appreciate everyone's hard work and dedication.

I think your next step would be to have starting and finishing mats to get the times more accurate. Keep up the good work. I appreciate being able to run this with my family.

It was great!

the two mile mark seem short?

You do a great job every year Garrett. This year was no different.

Those fruit snacks saved my life

Thank you for putting this together. Well done!!!
