

Slide show of Artist

The following images are chosen because I think these artists have:

- An excellent sense of composition.
- Understand the power of a simplified palette to create the right atmosphere and mood.
- Use value patterns that clearly guide the eye throughout the piece and direct the viewer to the focal point.
- Paint their subjects using simplified shapes and don't overpower the viewer with too much detail.
- Are skilled in their use of colour.
- They understand light.
