

# Technology that Yields while saving you time and money!

Todd Kennedy: Tallulah, LA

Todd's 100% Liquid Activated Carbon program saved him about \$14 per acre while yielding him 46 bu. per acre more!

This resulted in an additional **\$197.08** per acre in his pocket.

These programs were run across over 1800 acres and 18 fields showing consistant results.

## 100% Liquid:

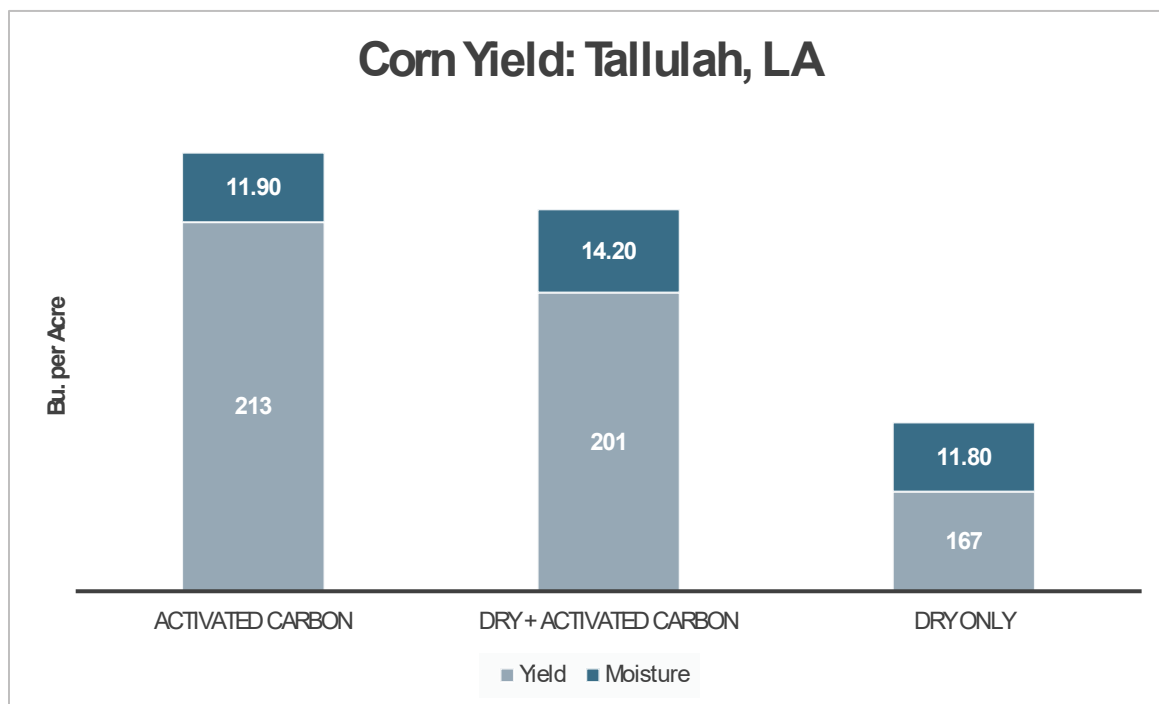

- 3 gal CP/CZnS surface banded @ planting + 7 gal UAN
- 1.5 gal CK with 110 # N knifed @ V5-V6
- 1.5 gal CK with 110 # N y-dropped @ V10
- 240 # N total

## Liquid + Dry:

- 0-46-0 VR in fall
- 1.5 gal CK with 33 gal UAN @ V5-V6
- 240 # N total (3 apps)
- 75# 0-0-60 + 75 # AMS pre-tassel

## 100% dry:

- 0-46-0 variable rate in fall (125 # avg)
- 100 # 0-0-60 + 100 # AMS @ planting
- 240 # N total (3 applications)
- 75 # 0-0-60 + 75 # AMS pre-tassel
