

*Welcome*

Through The Looking Glass Cabin

# Hello

Welcome to Through the Looking Glass Cabin!

We're glad you've decided to come to visit! After over ten years of visiting Broken Bow with our family, we decided to purchase a cabin of our own. We love that we can share our "happy place" with so many other families! We hope you, your friends, and your family have a wonderful time.

We've created this guidebook to help you find everything you need to know about our place and the surrounding area, from check-in time to the WiFi code, from great coffee to the best local restaurants. It's all here.

If you take pictures during your stay, we would love to see them! Tag us on Instagram and Facebook @throughthelookingglasscabin or use the hashtag #throughthelookingglasscabin

Most importantly, we hope you enjoy your stay!

*Natalie & Corey*

# Check-In

Check in by 4:00

Check out by 11:00

## Directions

The cabin does not have a U.S. Postal Address. You can try to use your mobile device to navigate to our cabin. However, the route is not updated on Google maps and may take you to a non-existent road. Directions will be provided to guest in their Welcome email the day before they arrive.

**214 Oak Stone Lane Broken Bow, OK**

## Security + Keys

Personal lock codes will be provided to guests in their Welcome email the day before they arrive.

## Parking

The cabin has a circle drive with ample parking for guests. The drive also makes it easy to pull and park your boat in the front.

# House Guide

## Temperature

The heating and cooling system is made up of individual room units. Each unit has its own remote control. All systems will need to be set to either heat or air. You can not have one room on heat and the other on air. Set each room one at a time. The system will put the first room into the queue, and when that reaches its temperature, the next room will begin. Every time you adjust the temperature, it goes into the central system's queue. If you need to reset, turn all systems off, leave for a few minutes, and then begin to turn on one at a time. You will want to point the correct remote (they, are labeled on the back) at the system to change the temperature.

## Trash

There are two trash bins at the front of the property. Trash is collected on Monday, Wednesday, and Friday. Additional trash bags are located under the kitchen sink

## Large Amenities (Hot Tub)

The hot tub is emptied and cleaned in between each guests' stay. We ask that you use plastic glasses in and around the hot tub, which are provided for you. Please no food in the hot tub. To freshen up the hot tub during a long stay, there are tablets under the kitchen sink. Only one tablet is needed.

## Laundry

A full size washer and dryer is located in the front bedroom of the second cabin. Guests are provided a starter amount of detergent and dryer sheets.

## Indoor Gas Fireplace

There is an indoor gas fireplace in the main cabin. A timer is on the left side of the fireplace. Turn the timer, and the fireplace will light. When the fireplace is off, you will still notice a small light/flame at the bottom of the logs. This is the pilot light. Please do not turn off the pilot light! If it goes out and you need help lighting it, please let us know. Do not add outside logs to the fireplace. These are special logs. We also ask that you do not cook s'mores in the fireplace. It will make a mess and cost you extra money for cleaning and repair.

## Disposal

Due to the cabin's septic system, we cannot have a garbage disposal in the cabin. We do provide mesh strainers for the sink to help collect food. It is helpful to scrape plates in the garbage before washing them.

## Patio + Grill

The cabin has an outdoor grill for your use. Grill tools are located in the middle drawer in the kitchen. Make sure all knobs are turned off before lighting the grill. There is a timer located next to the grill. If the timer goes off and you need more grilling time, simply turn it on again.

## Refrigerator + Dishwasher

The cabin has a full-size refrigerator and a full-size dishwasher. The fridge has a water filter, which we recommend using for drinking water. There is also an ice maker in the fridge.. Dishwashing detergent is located under the sink for your use.

## Coffee Maker

A coffee maker and K-cup maker are located in the kitchen for your use. A single pot of coffee grind is available for guests. Guests may also find sugar packages in the cabinet for coffee use. You will want to bring your favorite creamer and coffee grounds or K-cups for extended stays. If you forget your coffee, visit our friends at Hochatime Coffee Central.
