**FLATBED TRUCKING** 

**FULL TRUCKLOAD SERVICE** - Full truckload service with the most reliable and affordable services at the best competitive rates.

**REEFER** - We provide safe and reliable reefer capacity at affordable prices to transport the temperature sensitive goods

**LTL FREIGHT** - We provide customized LTL solutions for all freight forwarding needs at optimum and affordable prices.

**FLATBED TRUCKING** - With advanced logistics technology, we keep track, share the transport ETA's, and offer the best rate possible

**DRAYAGE** - We are experts in the on-time pickup of containers from all major ports to warehouses and ensure the swift movement of cargo.

**POWER ONLY** - Our power-only loads pair your company-owned trailers with our power solution and help you stay ahead of the competition.

**INTERMODAL FREIGHT** - We are the solution for your long-distance freights, reinforcing your general logistics master plan.

**OCEAN FREIGHT** - We connect the dots between ports, vendors & trucking service providers, and keep track of all shipping

**AIR FREIGHT** - Our air freight service is integral, and trustworthy, and ensures quicker delivery with less handling of items during transit.

### WHY CHOOSE CHISEL LOGISTICS?

<u>VISIBILITY & PERFORMANCE MANAGEMENT</u> - For manufacturers, retailers and distributors, we provide a comprehensive and timely view of the product delivery process from purchase order to warehouse receipt. Improve your logistics efficiency with us by taking advantage of our single integrated view of shipments and delivery performance. We share and analyze shipment data through acknowledgments, advanced shipment notices, proof of delivery and more.

<u>LOGISTICS FLOW CONTROL</u> - With Logistics Flow Control, retailers, suppliers, carriers and brokers can use the same solution to manage the end-to-end purchase order management process. The software that we use provides the essential capabilities for retailers, suppliers, customs brokers and carriers to benefit from unprecedented levels of coordination at each stage of inbound supply chain logistics. By leveraging data across all parties involved in the inbound supply chain, we help customers simultaneously manage their commercial and logistics processes

<u>OPTIMIZED DOCK SCHEDULING</u> - Our dock scheduling solution enables shippers, carriers and consignees to schedule dock door appointments. This streamlines the dock appointment process by distributing the responsibility for scheduling warehouse deliveries or pickups between carriers and suppliers. We ensure all supply chain partners are involved in the process and have visibility into requested, scheduled and rescheduled dock appointments. This solution optimizes receiving operations for inbound shipments and helps coordinate outbound pickups.

<u>CARRIER COMPLIANCE & RATE MANAGEMENT</u> - Contracts are the core of the transportation management process. The software we use leverages the negotiated lanes established for your business by centralizing carrier contracts within an electronic database. Our database has the capability to provide access and innovative decision support tools for your transportation management.

<u>DOCUMENT MANAGEMENT SERVICES</u> - At Chisel Logistics, we offer modern document management services to help improve your operational performance, while also reducing costs.

With an extensive database of contracted carriers in the country and our unparalleled posting technologies, we are able to cover your freight quickly using the desired carriers. We know the "ins and outs" of the industry and can speak to the terminals, dispatchers, customs brokers, and anyone else in the chain. Whether you have one shipping person or an entire shipping department, Chisel Logistics can help manage your company's transportation.
