## SELECTED PROJECT EXPERIENCE

Chris has worked on many complex, high profile projects including the British Museum, the South Bank Centre, Westminster Abbey, the Former Commonwealth Institute for Design Museum and several large central London masterplans.

**Olympia** - for YOO Capital, working with Thomas Heatherwick and SPARCC, on applications for up to a million square feet of new commercial development and significant alterations to the Grade II and II\* exhibition halls, enabling their better functioning. We worked constructively with Hammersmith and Fulham and Historic England on this major scheme of transformation and repair.

**Colechurch House** - LB of Southwark, working for CIT, who developed More London on the commercial redevelopment of this important site beside London Bridge. Foster + Partners scheme involves the creation of a new park under a state of the art, tall office building. This is widely visible including from sensitive positions.

**BT House 81 Newgate St** - City of London. We helped achieve consent for the extension and enhancement of this large 1980s office building close to St Paul's Cathedral, working closely with architects KPF and our client Orion Capital. Proposals grappled with several strategic views of the Cathedral, and the St Paul's Heights policy.

**Smallbrook Queensway** - Birmingham. We are currently instructed on the second application we have been advising owners CEG on, seeking the redevelopment of this iconic 1960s building, one of the last remnants of the city's infamous concrete collar. The present proposals replace the curving low block with three towers, linking the Bull Ring to the roundabout, and involving us in a wide ranging visual impact assessment. Architects: Corstorphine and Wright.

**Gilston Park urban extension** - East Herts, a 10,000 dwelling extension in 7 villages, advising our client Places for People on heritage and related landscape matters, assisting with the site allocation and then worked closely with the Grimshaw-led design team on design and heritage briefs, successfully negotiating the approach with Historic England, who were closely involved in the allocation. We then contributed to the Environmental statement for the outline application now being determined by the Council.
