### The Desert Southwest

February-May 2004

Discover the Southwest with award-winning landscape photographer and author Joseph K. Lange. The colorful, dramatic vistas of Bryce Canyon and Zion national parks (Feb. 14-20) feature cliff faces carved into columns, spires, cathedrals, pedestal rocks and cross-bedded buttes. In the Sonoran desert of southern Arizona (Mar. 13-19), cacti, wildflowers and other desert plants combine with the rugged landscape to make for outstanding images. Monument Valley and the Slot Canyons (Apr. 17-23) will dazzle you with spectacular landforms and brilliant colors. Arches and Canyonlands national parks (May 15-21) will be dotted with springtime flowers that will brighten the foreground.

### Springtime In Scandinavia

April-May 2004

In Offerdal, Sweden (Apr. 24-May 2), you'll photograph the spectacular spring ritual of playing capercaillie and black grouse males. Led by an expert local guide, you'll also have access to several blinds built on exceptional lek locations. In Kuhmo and Kouvola, Finland (May 2-9), you'll work closely with professional photographer/guides who know the best locations and have built several blinds for brown bear, eagle owl, whooper swan, crane and bean goose. Tours are limited to six participants.

### Bruins And Humans

July 2004

It's the last frontier, a place where wilderness dominates humankind. It's Alaska, where alpenglow lasts for hours, not minutes. Venture to a place where the bears have no fear of people and the small human population has adapted to live in harmony with them. Nature photographer Jay Goodrich leads an exclusive workshop/tour in Lake Clark National Park, where you'll photograph Alaskan brown bears, bald eagles, auks, kittiwakes, murre, puffins and cormorants, to name a few. Surrender to the landscape as you learn the nuances of nature photography taught in a truly wild atmosphere by an extremely patient and well-versed instructor. Four people per group.
