DELIVERY & WAREHOUSING

Do you have spare motors sitting somewhere at your facility? Are you sure they are ready to be placed in service when needed? Redmond Waltz offers warehousing services and will make sure your spares are operational and ready to be delivered within hours. When you call for service, we bring you the right spare and pick up your unit in need of repair. This dramatically reduces down time and lowers overall repair costs. When the repair is complete, we return it to the warehouse and it is ready for your next call.

Charges are customized for your needs - contact us for rates and availability. After all, It's Downtime or Redmond Waltz.
