Pulaski County, MO Sets New Standard for Safety: Enhancing Boating and Floating Experience

Pulaski County, MO – July 25th, 2024 – The Pulaski County MO NG911 River Mile Marker Project is set to revolutionize the safety and efficiency of boating and floating activities along the Gasconade River and Big Piney Rivers. This groundbreaking initiative, led by Pulaski County MO NG911, aims to enhance navigation and emergency response by placing highly reflective signs every 1 mile along the river banks. These signs will serve as visual markers, providing vital location information for boaters and emergency services.

Pulaski County is proud to be the first county in Missouri to implement river mile markers, solidifying its position as an industry leader in public safety. The project, managed by Pulaski County MO NG911, has already garnered significant support from the local community.

With the initial funding goal of \$5000.00 successfully achieved through sponsorships, the Pulaski County Mo NG911 River Mile Marker Project is poised to make a substantial impact on the safety and well-being of the community. The funds will cover the production and installation of the mile markers and mounting hardware involved in the project.

"The Pulaski County Mo NG911 River Mile Marker Project is an incredible opportunity to create a safer future for Pulaski County's waterways," said Michelle Graves. "With accurate mile markers in place, boaters will have a clear visual representation

Creating a Safer Boating and Floating Experience in Pulaski County, MO

of their location, minimizing the risk of accidents and improving navigation. Additionally, emergency services will be able to respond faster and more effectively, ultimately saving lives."

The project's key features include the installation of 18x18 highly reflective signs at every 1-mile interval, generous support from local fire departments for sign placement, and the completion of digital mile markers within Pulaski County NG911's mapping system.

Pulaski County Tourism Bureau is actively engaged in raising public awareness about the River Mile Marker Project, ensuring the community understands the project's objectives, benefits, and importance for a safer boating experience.

The Pulaski County Mo NG911 River Mile Marker Project is a testament to Pulaski County's commitment to public safety and its dedication to creating a thriving tourism sector. By achieving its goals of enhancing safety, improving emergency response, and promoting river safety awareness, Pulaski County aims to establish itself as a premier destination for boating and floating activities.
