

4Oaks Testing program is an all-inclusive, door-to-door service that is helping governments, corporations and individuals safely and quickly receive the most accurate Covid-19 test results available anywhere.

As the pandemic continues, reliable, accurate, and timely testing has become not only a priority but an *absolute necessity*.

4Oaks has taken the hard work out of assembling an end-to-end solution. By bringing together two nationally recognized partners focused on quality, compassion, and swift results this solution can be deployed rapidly to meet any testing need anywhere in the country. With one discussion scheduling of specimen collection (on-premise or at a common collection point), transport of specimen to the lab, laboratory execution, electronic transmission of results, compassionate customer care, and billing, will all be arranged.
