

Casa Tango Proudly Presents

Argentine Tango Workshop in Edmonton with

World Renowned Teachers and Performers

Luciano Brigante and Alejandra Orozco

October 1st - 7th, 2025

Luciano Brigante and Alejandra Orozco are internationally acclaimed tango maestros and performers, celebrated for their mastery of the Villa Urquiza style and their deep commitment to tango tradition. With over 20 years of international teaching and performing experience, they are the founders of Tango Brigante and proud ambassadors of Argentine Tango worldwide. Luciano is a World Tango Salon Sub-Champion and a Metropolitan Tango Championship medalist, recognized for his elegance, musicality, and refined embrace. Together, Luciano and Alejandra have represented Argentina at prestigious events, including performing and choreographing for the 2008 Beijing

Olympic Games, and have been invited to perform for royalty and heads of state across four continents. Their teaching is rooted in the authentic Villa Urquiza tradition, emphasizing connection, musical interpretation, and the codes of the golden age milongueros. Their Tango Brigante method is renowned for its clarity and effectiveness, inspiring dancers from complete beginners to professionals. Luciano and Alejandra have taught and performed throughout Europe, the Americas, Asia, and the Middle East, and are known for their warmth, generosity, and passion for sharing tango culture. Whether on the dance floor or in the classroom, Luciano and Alejandra embody the elegance, tradition, and spirit of Argentine Tango. They are organizers of the prestigious Tango Maya Festival.

Tango Brigante method is focused on useful and effective techniques from old and new school of Argentine Tango. Exercises and Technique are important to improve tango level and to develop style and movements for social environment. They will teach concepts applicable to the feeling of being a real dancer in the milonga in order to maximize enjoyment—respecting codes of behaviour, searching for more unity and musicality within the couple, and the clean execution of steps.

Each class builds on what is learned in the previous; it is recommended to take the entire sequence
