T30415020	BL-BR-LB-LT-RB-RT-TL-TR	56	4" NPT	1.125"	185

UNIVERSAL RAI®-J air blowers incorporate the patented Whispair(TM) feature in addition to the same design features as the original URAI blowers. The URAI®-J include detachable mounting feet which permit vertical or horizontal installation.

The units are center timed for rotation in either direction, However, to receive the benefits from the Whispair feature the jet must be in the discharge side of the product.

The URAI-DSL is splash lubricated on BOTH ends.
