

A Network of Career-Curious Schools

Studies across 3 states (N= 89,000) show measurable gains in student engagement, self-efficacy, and career clarity.

60+ schools in 35 districts, career conversations for all students

Five Benchmarks Get Results

- Teaching strategies for all teachers to embed career conversations
- Family-friendly prompts and events
- Teacher-friendly posters and teaching tools
- A shared framework connects CTE, counselors, teachers, and programs.
- Meets priorities of Ready to Learn (RTL) Block Grant and Title IV-A
- Fits in with existing programs and initiatives: Well-rounded education, Safe and healthy students, and Effective use of technology

Ongoing Support for Sustainable Results

Earn recognition as a Career Connected School using RIASEC as a common career language

Increase student engagement with RIASEC and (Dialogic Process) as part of instruction

Align programs and instruction through five evidence-based practices (benchmarks)

Measure impact and career readiness with student surveys and a web-based dashboard

Increase family participation in career conversations and events

Increase community partnerships and connect programs, pathways, and career explorations

Showcase student work through career conversations

Increase work-based learning (WBL) opportunities

Host or attend regional or national events to connect with other schools in the network

Career Connected Learning...

“Working with Educators Cooperative helped our district move from isolated initiatives to a coherent strategy for career connected learning.”
