

College and Career Readiness Indicators (CCI)

Background

[CDE Work-Based Learning Measures](#)

The California Department of Education (CDE) has been continuing its efforts to meet the State Board of Education's (SBE's) directive to expand the College/Career Indicator (CCI) with more career measures. This page provides definitions and details on current work-based learning measures in the CCI that have been approved by the SBE. It also reviews new measures that are currently being considered for potential inclusion in the CCI.

Potential New Measures

Before new measures are included in the CCI, the CDE conducts an in-depth review and analysis with stakeholder groups, such as the CCI Work Group, Alternative Schools Task Force, California Practitioners Advisory Group, Technical Design Group, and other broad range of groups. These groups make recommendations on the inclusion or exclusion of each measure for the CCI and the placement criteria for Prepared versus Approaching Prepared. These recommendations are then presented to the SBE. The SBE approves whether a measure is included in the CCI.

Data on the following new measures are being collected for the first time at the end of the 2020–21 school year:

- Internships
- Student-Led Enterprise
- Simulated Work-Based Learning
- Armed Services Vocational Aptitude Battery (ASVAB) Armed Forces Qualification Test (AFQT) Score

CCI Indicator Alignment

	Develop Identity	Expand Experiences	Map Opportunities	Reflect and Dream
Student-Led Enterprise	✓	✓	✓	
Simulated Work-Based Learning	✓	✓	✓	✓
Internships	✓	✓	✓	✓
ASVAB, AFQT			✓	✓
