# CALL/ EMAIL

Hello Representative Melo (or Chair Melo),

My name is \_\_\_\_, and I'm a disability advocate calling to respectfully ask that HB 411 be added to the Human Services Subcommittee agenda.

HB 411 is important because it helps strengthen Florida's health and human services systems in ways that directly affect people with disabilities and their ability to receive appropriate, timely support.

Many families are relying on this bill to move forward this session, and a committee hearing would allow stakeholders and experts to share why this legislation matters.

We appreciate your leadership on health and human services issues and respectfully ask for your consideration in placing HB 411 on an upcoming agenda.

Thank you for your time and for your service to disabled Floridians.
