

Child & Family Consultants

Important Update: We Are Leaving Facebook

At Child & Family Consultants, our goal has always been to provide the most helpful, accessible support for the families in our community. To ensure we are reaching you with the highest quality content and most timely updates, we have decided to transition away from our Facebook page.

Starting today, we will no longer be posting regular updates to Facebook. Instead, we are focusing our digital efforts on platforms that allow us to share more engaging resources and direct community news.

How to Stay Connected

To make sure you don't miss any announcements, social group updates, or parenting tips, please find us here:

- Our Official Website: childandfamilyconsultants.com
 - This is your primary hub for all services, staff information, and our latest [blog_posts_and_community_news](#).
- Instagram: [@childandfamilyconsultants](#)
 - Follow us on the Child & Family Consultants Instagram for visual updates, quick tips, and a behind-the-scenes look at our programs.

Why the Change?

Moving our primary updates to our website and Instagram allows us to:

- Provide Better Resources: Our website serves as a stable, ad-free environment for detailed service information.
- Engage More Effectively: Instagram's visual format is perfect for sharing the snapshots and stories that matter most to our families.
- Ensure You See Our Posts: Social media algorithms can often hide important news. By visiting our site directly, you'll always have the most current information.

Thank you for being part of our community. We look forward to seeing you over on Instagram and our website!
