

PEAK POWER PACKS ⚡ 100

PRODUCT DESCRIPTION:

PeakPowerPacks, has designed the PPP-100, to be a light weight, portable GPU, for use on Ramp, Hangar, or Off-Airport Operations. The pack is designed to use the NATO AN2551 3-pin Power Plug, compatible with aircraft requiring 24-28 V, and up to 200 A starting power, with a short 400 A burst. The pack is designed to provide start-assist or emergency start power to the aircraft.

SPECIFICATIONS:

Weight	11 lbs
Length	12.3 in
Width	12.1 in
Height	5.2 in
Capacity	8 Ah
Max. Charge Voltage	29.20 V
Nominal Voltage	25.60 V
Minimum Voltage	18.00 V
Max. Current (Continuous)	200 A
Max. Current (10 sec. Pulse)	400 A
Max. Current (Protection)	1000 A
Operating Temp Range	-30°C - 60°C
AC Charger Operating Voltage	110/240 V
Charge Rates	5 A - 20A
Number of Starts per Charge	2 - 4 Starts (aircraft dependent)
Product Life Span	1500 cycles
Warranty	Yes, see website for more information
