

PEAK POWER PACKS ⚡ 200

PRODUCT DESCRIPTION:

PeakPowerPacks, has designed the PPP-200, to be a light weight, portable GPU, for use on Ramp, Hangar, or Off-Airport Operations. The pack is designed to use the NATO AN2551 3-pin Power Plug, compatible with aircraft requiring 24-28 V, and up to 400 A starting power, with a short 800 A burst. The pack is designed to provide start-assist or emergency start power to the aircraft.

SPECIFICATIONS:

Weight	21 lbs
Length	15.5 in
Width	13.1 in
Height	6.2 in
Capacity	16 Ah
Max. Charge Voltage	29.20 V
Nominal Voltage	25.60 V
Minimum Voltage	18.00 V
Max. Current (Continuous)	400 A
Max. Current (10 sec. Pulse)	800 A
Max. Current (Protection)	2500 A
Operating Temp Range	-30°C - 60°C
AC Charger Operating Voltage	110/240 V
Charge Rates	5 A - 50A
Number of Starts per Charge	6 - 10 Starts (aircraft dependent)
Product Life Span	1500 cycles
Warranty	Yes, see website for more information
