

PEAK POWER PACKS ⚡ 300

PRODUCT DESCRIPTION:

PeakPowerPacks, has designed the PPP-300, to be a light weight, portable GPU, for use on Ramp, Hangar, or Off-Airport Operations. The pack is designed to use the NATO AN2551 3-pin Power Plug, compatible with aircraft requiring 24-28 V, and up to 600 A starting power, with a short 1200 A burst. The pack is designed to provide start-assist or emergency start power to the aircraft.

SPECIFICATIONS:

Weight	31 lbs
Length	17.5 in
Width	14.3 in
Height	7.2 in
Capacity	24 Ah
Max. Charge Voltage	29.20 V
Nominal Voltage	25.60 V
Minimum Voltage	18.00 V
Max. Current (Continuous)	600 A
Max. Current (10 sec. Pulse)	1200 A
Max. Current (Protection)	5000 A
Operating Temp Range	-30°C - 60°C
AC Charger Operating Voltage	110/240 V
Charge Rates	5 A - 50A
Number of Starts per Charge	10 - 20 Starts (aircraft dependent)
Product Life Span	1500 cycles
Warranty	Yes, see website for more information
