

## Patient Financial Responsibilities

Mainly Teeth Dental Clinic accepts Northeast Delta Dental and MaineCare insurances for dental coverage. We also offer a sliding scale for eligible patients, as well as payment plans. Your co-pay will be due at time of service.

As of January 1st, 2022 Mainly Teeth has instituted a \$10 office visit copay for all patients over the age of 21 who hold MaineCare dental policies. If MaineCare does not cover your visit, we will apply the copay to your sliding scale assessment.

## Insurance

- We are happy to work with our patients to understand their insurance policies.
- We expect our patients to comprehend their individual plans, annual maximum, deductibles and what services they apply to as well as co-pays for levels of service rendered.
- MaineCare will not cover preventative services for patients over 21.

## Consent to Financial Expectations

By signing this document I agree that all the information provided is to the best of my knowledge. I understand my financial obligation for services rendered by Mainly Teeth Dental Clinic.
