

# Temporary Placement Service Perks

Career Connections can find you temporary employees to help you cover peak workloads, complete special projects, and provide coverage between new hires or for employees on vacation or leave.

Hiring temporary employees through Career Connections has many advantages, and we will bill you only upon satisfactory placement.

Some of our **cost saving benefits** include:

## Pay One, All-Inclusive Hourly Rate

We bill at an hourly rate for temporary personnel, and our rates are flexible. And, unlike with traditional employees, you will have no additional expenses or fringe benefits like payroll taxes, insurance, or benefits to pay for or administer.

## Save Time and Money

Find qualified and available employees without the time and expense of advertising and screening applicants – Career Connections will put our multiple recruiting tools to work for you for free, and we will also submit all applicants to our rigorous screening process.

## Avoid Costs of Employee Claims

Because we officially hire the temporary employees, you are able to keep your workers' compensation and unemployment rates down by not having to hire or layoff employees for temporary needs.

In addition to saving you money, using Career Connections for your temporary staffing needs is also **convenient**. Our services help you:

Avoid administrative hassles of hiring and payroll.

Get qualified employees in place quickly.

Try out potential direct-hire employees before making a commitment to hire.

**Career Connections also offers an unconditional four-hour guarantee on all temporary employees.**
