QUADS

SWIMMING POOL FILTER

QUAD TOP MOUNT SAND FILTER

Model (3/4" x 20") 100000-1000

COMMON VALVE FUNCTIONS

1. FILTER - For normal filtration and used in normal operation.

2. BACKWASH - For cleaning the filter media. Backwash water is sent to the drain. Backwash water is sent to the drain. Backwash water is sent to the drain.

3. RINSE - For rinsing the filter media after backwashing. Rinse water is sent to the drain.

4. BYPASS - For bypassing the filter. Bypass water is sent to the pool.

5. WASH - For washing the filter media. Wash water is sent to the drain.

6. CLEAN - For cleaning the filter media. Clean water is sent to the drain.

Flow Rate (GPM)	Filter Area (sq. ft.)	Filter Depth (in.)	Filter Volume (cu. ft.)	Filter Capacity (cu. ft.)	Filter Efficiency (%)	Filter Life (hrs.)	Filter Cost (\$)
100	10	12	120	120	95	1000	100
200	20	12	240	240	95	1000	100
300	30	12	360	360	95	1000	100

THE FEATURES

advanced features, superior filtration capabilities, and efficient performance.

Boasting advanced features, is at the forefront of innovation in water filtration technology. It integrates intelligent automation, allowing for precise control and optimization of filtration settings. The superior filtration capabilities of our system extend beyond conventional filters, capturing and eliminating microscopic particles, bacteria, and impurities, ensuring the purest water quality.

What sets us apart is not just our advanced features but also the efficiency of our performance. The filter operates seamlessly, achieving thorough water purification without compromising on energy efficiency. Its design maximizes flow rates, minimizing the time required for complete water turnover.

In essence, our pool filter is a synergy of technological sophistication and practical efficiency, providing an unparalleled combination of advanced features, superior filtration, and efficient performance for a swimming experience marked by clarity, purity, and ease of maintenance.

PURE FIBERGLASS- REINFORCED PLASTIC THROUGHOUT THE BODY

A 100% fiberglass body indicates that the entire structure is composed solely of fiberglass without any mixture of other materials, offers durability, strength, resistance to corrosion and a lightweight quality.

QUADS

6-way Multiport Valve

This valve enhances pool maintenance efficiency by offering various functions through a single control point, ensuring optimal water quality and system performance.

P SERIES SAND FILTER

HIGHLIGHT FEATURES:

MAX OPERATING PRESSURE 36PSI/2.5BAR

MAX TEMPERATURE OF 43° C (109° F)

UNIVERSAL STANDARD OF UNION CONNECTION PROVIDED

SUGGESTED SIZE OF MEDIA: 1-2MM

Technical Characteristics

Model	Filter Area(m ²)	Valve Connection		Max Flow Rate	Gravel(kg)	A mm	B mm
P400	0.13	1.5 inch	50mm	8 m ³ /h	35	760	400
P450	0.16	1.5 inch	50mm	10 m ³ /h	45	815	450

Affordable Price

Indulge in the remarkable combination of outstanding quality and an unexpectedly affordable price point. Our commitment to excellence ensures that you not only receive a product of superior craftsmanship but also enjoy the added advantage of budget-friendly affordability. Unveil the perfect blend of value and quality, making your investment both prudent and satisfying.

QUADS

*What makes us the leader?
The number of years that
we committed to ensuring
top-notch quality.*

Our products prioritize safety at every level, adhering to rigorous standards and regulations. From the selection of materials to the manufacturing process, we employ measures that ensure the utmost safety for users.

Our commitment extends to creating products free from harmful substances, durable in manufacturing, and designed with features that mitigate potential risks. Trust in our dedication to providing safe products that prioritize the well-being of users, offering peace of mind and confidence in every use.
