LIVESTOCK FEEDERS, TUBS, UTE-CHUTES

Outback Poly Products is a new, local business in Mitchell. We manufacture rotomoulded polyethylene products for agricultural needs.

What we do?

We manufacture a range of durable and sustainable polyethylene tubs and feeders:

- Feeders
- Tubs
- Ute-Chutes

Why us?

Outback Poly Products is owned by the Jones family in Mitchell Qld. Owing both Samios Trading Post and Nutri-Lick, they supply rural products across QLD and the NT. Vicki and Bruce Jones moved to Mitchell 20 years ago with the aim of being a part of the community long term. They have since benefitted the Maranoa region in many concrete and quantifiable ways bolstering the town's economy and filling a need. Both of their sons returned to Mitchell shortly after gaining experience in both rural and industrial industries and have since taken on vital roles in the family businesses. Outback Poly Products is committed to providing useful and quality Australian made products. Call Will on 0457 099 970 to order our products today.

7 reasons you need our products?

Affordable
