INFORMATION FOR FAMILIES

FAQ

How does fluoride application help our teeth?

Fluoride helps prevent tooth decay by making the tooth more resistant to acid attacks from plaque bacteria and sugar in mouth.

What are Pit and Fissure sealants?

Fissure sealant prevents dental decay in the grooves of back chewing teeth (molars) where decay occurs most often. The process is simple that involves etching, rinsing and drying the tooth and then brushing the sealant on the chewing surface of the teeth hence shielding the tooth from growing bacteria in the grooves.

Why x-rays are taken?

X-rays are taken to help diagnose hidden cavities in between the teeth that can sometime be missed or not visible by the eyes.

How can my child participate in the program?

Your child can participate in the program after you have filled out the relevant forms you received with the HSI Information.

What does it cost?

Eligible students: For children of eligible families the total benefit is capped at \$1000.00 over a two-calendar year period. We confirm the eligibility of the child with Medicare before the visit with our dentist/dental therapist. There is no out of pocket cost to be paid by parents. Parents will be well informed of child's treatment plan.

Ineligible students: For students not covered under the CDBS, a complimentary check-up and treatment plan will be offered.

ELIGIBLE BULK BILLED STUDENT OPTION

Child eligible under Medicare CBDS scheme will be **bulk billed with no out of pocket expense** and will be billed on Medicare schedule fee set by Department of Health and not by us. Some of the common billed items are: -

ITEM	SERVICE	BENEFIT
88011	Comprehensive oral examination	\$57.65
88012	Periodic oral examination	\$47.90
88013	Limited oral examination	\$30.10
88111	Removal of plaque	\$58.90
88114	Removal of calculus initial visit	\$98.20
88121	Fluoride topical application	\$37.85
88022	Periapical/Bitewing Xray	\$33.35
88161	Fissure Sealants	\$50.45
88162	Subsequent sealant application	\$25.25

****Please note the practitioner may take Xray in order to get more detailed diagnosis of teeth.**

If you wish you can check your eligibility by calling Medicare on 132 011

Healthy Smiles Australia is proud participant of CHILD BENEFIT DENTAL SCHEME provided by federal government through Medicare and dedicated to improve children oral health.

Oral health is most important in development of complete human health. Oral disease-free human is one step forward to achieve overall disease-free life. Oral disease is the most prevalent as well as most preventive disease if taken care in early ages. CDBS scheme sponsored by Australian federal government is the most important steps towards the healthy national oral health. CDBS scheme is designed to address this problem at early age and provide preventive dental care for eligible students from age 2-17 years.

This is bulk billed scheme and you can check your eligibility on typing this link below or calling Medicare on 132011 <https://www.humanservices.gov.au/individuals/services/medicare/child-dental-benefits-schedule/who-can-get-it/eligibility-checks>

What services are offered?

Healthy Smiles Australia is assigned to provide much awaited dental treatment at your child's school during school hours under Child Dental Benefits Schedule (CDBS), funded by the Australian Federal Government. Our service for eligible students comes at no cost to the school or the parents. Students of families not eligible under CDBS will also receive a discounted oral examination.

What services are provided by Healthy Smiles Australia?

After a written consent from the parent/guardian, your child will be provided with an oral health education, comprehensive examination, scale clean, fluoride application, fissure sealants (if applicable) and a complete treatment plan. Further treatment of teeth if applicable e.g. fillings, orthodontic referral etc. is performed only with further parental discussion, consent and presence.
