

THE STORY BEHIND THE NAME

The name Emendl draws its inspiration from Lady Mendl (Elsie de Wolfe); celebrated as the world's first professional female interior designer and a visionary who transformed interiors into an art form.

Just as Lady Mendl infused spaces with light, grace, and sophistication, Emendl carries that same spirit into the digital realm; curating a world where design, elegance, and technology converge.

To embody its contemporary and online essence, the prefix "E" was introduced as a symbol of evolution, electronic innovation, and ever evolving. A subtle nod to the platform's digital presence and forward-thinking essence.

"e" + mendl = **emendl**

Prefix "e" - representing the
electronic/digital era.

Honoring the first woman
of interior design.
