WEST PALM BEACH DIVISION**

Case No.: 9:25-cv-81554 EA

**Patricia Testa,
Et al.,**

Petitioners,

v.

Jason A. Reding Quinones

in his official capacity as United States Attorney for the Southern District of
Florida,

Respondent.

EXHIBITS THAT ACCOMPANY RESPONSE TO THE ORDER TO SHOW CAUSE

EXHIBITS

These exhibits are proof of efforts to communicate with local, state and federal officials (highlighted in red) to develop a plan to restore Grand Jury rights back to the people. In United States v. Williams | 504 U.S. 36 (1992) | Justia U.S. Supreme Court Center, Justice Scalia made clear that the Grand Jury is not an arm of the prosecution or judiciary, but an independent constitutional body whose purpose is to serve as a protector and shield of the People against tyranny. The officials and entities, as gatekeepers, are barring evidence from reaching the Grand Jury.

Because requests were ignored for months and years, by all levels of Government, Petitioners filed an Open Petition for a Writ of Mandamus to Restore Grand Jury Rights, asking the United States Attorney for the Southern District of Florida in his official capacity to hold all officials, sworn by oath, accountable to the People and to empanel a Grand Jury to review the evidence that they denied.

The Petitioners believe the task is two-fold and separate. (1) The actual hard evidence collected and (2) the inaction of elected government officials upon receiving the evidence collected.

These sample exhibits are NOT proof of the “election anomalies” that were actually communicated to election /“entities” in the State of Florida from the Supervisor of Elections to the Governor and beyond. The proof of “election anomalies” is prepared and reserved for the Grand Jury to review and to determine outcomes. The Grand Jury exhibits are not included.

On 6/21/2022 at 10:30 AM we met with Deputy Carlos Dorta and Shannon West at the Palm Beach Sheriff Office Substation, 700 6th St. Lake Park, FL 33403.

Erin Aktas, her two sons, ages 8 and 11, and I, Patty Testa, explained why the Sheriff's office should anticipate a large crowd of Candidates, Political Action Committees, Political Parties supporters and representatives at:

Supervisor of Elections Machine Service Center (Tabulation Center)
7835 Central Industrial Dr., West Palm Beach, FL 33404
on the first day of Public Inspections of Vote-By-Mail Ballot signatures.

The first day for this opportunity is scheduled for 7/28/2022 at 1 PM. There will be several other days this activity can occur based on the final schedule of the Canvassing Board decided by the Supervisor of Elections and the County Commissioners.

Deputy Dorta reassured us that he would be able to disseminate the information to alert the surrounding Substations of an increase in activity
Shannon was very helpful. She collected and supplied contact information and pointed us in the right direction. We made several attempts to contact Sheriff Bradshaw first and didn't know to whom we should speak. Thank you, Shannon

Carlos asked if we anticipated violence. We most certainly and absolutely DO NOT anticipate violence or unruliness. We explained this is an Election Day Celebration of Candidates, Political Action Committees and Political Parties exercising their right, supported by law, to examine signatures of vote-by-mail ballots (potentially 100 inspectors). By this single action we are deterring would-be traitors and felons from forging signatures on ballots.

We know the Sheriff and Deputies are there to protect and serve the citizens of Palm Beach County. On behalf of all the good people we know, we thank you, Deputy Carlos Dorta and Ms Shannon West for your dedication during these challenging times, for your service and your kindness during our encounter.

On this same day at 12:48, I called Battalion Chief, Adam Piasecki, at the Riviera Beach Fire Department 561-845-4110 to discuss the information above. I spoke of citizen's concerns as to whether health emergencies with a large crowd, such as expected, could be managed in the expert manner to which our citizens are accustomed. Battalion Chief Piasecki assured me the FD could respond to any potential health or environmental emergency. He would alert surrounding Fire Substations of the Election Day Celebration of Candidates, Political Action Committees and Political Parties and Citizens exercising their right, supported by law, to examine signatures of vote-by-mail ballots. This will be a great day in history.

Battalion Chief Piasecki, thank you for quickly verbalizing an understanding of the citizens' concerns and for reassuring all participants you will spread the word. We thank you and your entire Station for the preparation.

At 4 PM, still, on 6/21/2022 a group of citizens, Patty Testa (me), Erin Aktas and 2 sons ages 8 and 11, Candace Rojas and Shari Perryman met with Supervisor of Elections, Wendy Sartory Link and several of her staff including Sean Williams, Nicole, Layla, Alison Novoa, and Wendy Sartory Link.

In preparation for the first day of Public Inspection and because of the anticipation of the Candidates, Political Action Committees and Political Parties to exercise their right, supported by law, to examine signatures of vote-by-mail ballots, Ms Link and her team were informed of the above.

In the March Special, Run-Off and Municipal Elections Signature Inspection was done one-on-one with each Candidate, PAC and Party representative that participated. That is the expectation of all involved, but the plan proposed by the SOE WILL exclude many listed from exercising their right, supported by law, to examine signatures of vote-by-mail ballots. We must determine a solution that neither breaks the law nor infringes on the rights of the people. There is chatter that the SOE plan is not that solution. By email, we have requested another meeting with the SOE and staff to discuss the flaws in logistics and fairness. We are waiting for a response.

We recognize the importance of preplanning and that is why we have contacted all of you. I appreciate a coordinated effort among all of us. As more join to deter fraudulent VBM ballots, the number of participants will grow. We are 5 weeks out from July 28th. We also ask Ms Link, please do not change the date, as many are planning their campaigns around for this historic Election Integrity Event hands-on opportunity based on your preliminary schedule.

We thank you all once again! God Bless America
Patty Testa

Shari, **PBC-ElectionIntegrityProject2022**, **erinrdhsmile**, **Candace**

All,

Thank you for your email. To be clear, it is our position that what our Elections Office is doing is absolutely in compliance with the law, and is reasonable. It has been discussed at our SOE conferences, and it is, as an aside, also a very similar (if not exact) process that will be followed in most large counties in the State, and is more accommodating to the voters than will be provided in some counties.

We welcome all of the eligible candidates, political committees, political parties, or their designees, to come to the Voting Equipment Center on the day we begin opening ballots. As has been explained, we will not be able to do that (pursuant to the Statute) until after the Canvassing Board has met and accepted the results of the Logic and Accuracy Test. We also explained to the group who came to our office that the Canvassing Board has not yet met to approve the tentative/proposed schedule, so we cannot assure those dates. These are the dates that our office has proposed, but the 3 member canvassing board, of which I am only one member, will make the final decision. If any change is necessary based on the meeting of the Canvassing Board it will be publicly noticed. It is our hope and our goal that we will be able to perform the L&A test on July 28th as proposed.

Respectfully,
Wendy Sartory Link

In Palm Beach County, I am in discussion with Wendy Sartory Link about Signature Inspection for a very large group of Candidates, PACs and Parties and their designees for the first day examination of VBM signatures. I will copy you on further communication, but will forward the first two exchanges. Wendy said her plan has been discussed in SOE Conferences. I believe it will be attempted statewide. I have a right to participate, but I fear for my safety with her plan.

Secretaryofstate,**

Ms. Link,

Thank you for your response. I am so happy you tried to clarify. Please confirm we may be able to meet with you, again. I proposed Tuesday, June 28, 2022 at 4 PM, with your team, but will accommodate any time you can offer.

Meeting is necessary for you to communicate an understanding of your position and the logistics of your plan, as discussed in "the SOE conference", to prevent confusion and chaos.

Because time is of the essence and we cannot allow the clock to run out, I will convey, concerns, now, and we can discuss solutions at our next meeting.

As a private citizen planning to be designated as a Signature Inspector, I have concerns for my safety based on your plan. I will invite Deputy Carlos Dorta and Battalion Chief Piasecki to our meeting.

You state the Elections Office is "absolutely in compliance". This absolute compliance must be explained to the voters. We MUST convey the details of your position to the restless candidates, PACs and parties who wish to participate, but are being denied, one-on-one Public Inspection (renamed Enhanced Viewing) of Mail-In-Ballot signatures.

You must know that without a clear understanding of the details and working parts of your plan, I CANNOT and WILL NOT help you, as I promised, to manage the size and activity of the crowd that will arrive at the July 28th, 1 PM session to exercise their ABSOLUTE RIGHT, supported by LAW.

You mentioned that this has been discussed at "our SOE conferences". This is ABSOLUTELY impossible. The plan, initiated by grassroot, citizen-driven, election integrity focused patriots has NEVER been done and was just invented and developed by some grassroot citizens.

You did not have our information before your conferences. What you discussed at your conference is not what is about to unfold in PalmBeachCounty. It is imperative that your team at the state level knows their plan will not work.

Our EIP is unique, NEVER done and cannot be compared against other counties in Florida. We are creating the template for every election moving forward. Others will look at our success and duplicate it. Palm Beach County does not have to mimic the failures of others to get to a solution that works for us, for all.

Clearly, this is an historic opportunity. I hope the nation is watching every one of us. Wendy, you will be a national figure one way or another. Join our EIP. Everyone wins, except the cheaters.

You , Wendy, as PBC SOE can lead the entire nation by working with us. I cannot see the down side for you to accommodate candidates, PACs and PP and VOTES to ensure equity of access, input and participation.

You MUST explain what the downside is to EVERYONE. The PBC SOE office set a precedent for signature inspection in March for the one-on-one Signature Inspection. That is what is expected. The most important outcome everyone with whom I am involved is to deter nefarious actors by our actions and to allow for an honest election.

Unfortunately, your proposal to put 100 Candidates of all Parties, PACs for all candidates and Parties for all in one room side by side, with two large screen monitors side-by-side (as described by you and your team) will create chaos and potential safety concerns.

These are just a few, but please answer the following questions:

Will the group of 50 and another 50 next to them side by side, have to be completely silent?

Will they be escorted out if they make a peep? They need to know.

Will they have to have a majority vote cast to accept or reject a ballot?

Is the first yelled out response accepted or does it have to be the loudest?

Are they allowed to use megaphones?

Do they have to have a spokesperson?

Do they have to submit a silent vote and wait for a count?

What happens if opposing parties disagree?

Will you have to HIRE staff to manage the crowd (you said funding was not an issue and our group will not be able to help)?

How many signatures do you expect to have reviewed during your proposed plan?

We have invited Governor Ron DeSantis and all candidates at the highest level of Florida government to join this historic PBC EIP Celebration.

If he accepts, will he receive the same treatment as every other candidate and incumbent?

Or will every candidate and incumbent receive the same treatment as he?

Will he have to be in the front row or the middle row? Orr if he is late, in the back?
Does his vote have more weight than a local candidate so he can reject them?

These are just a sampling of the questions that must be answered.

With the plan created in "the SOE conferences", there is potential for NO ballot signature to be inspected before the 15 or 30 minute clock runs out. Please, then convey what your intended end-goal is when this plan for PBC is repeated in every county across the State of Florida.

Also, please explain how "the SOE conference" plan has ANYTHING to do with Election Integrity.

With our proposal, 100's of signatures will be examined in 30 minutes. Nefarious actors will think twice about sending in forged signatures because the Candidates, PACS and Parties are helping you secure our election. Our plan, our right as supported by law has EVERYTHING TO DO WITH ELECTION INTEGRITY.

Since, I am telling you this, you can see your plan is problematic. We need to meet to work this out especially, if you still want our help to support this EIP.

Clearly, early contact with the Deputy Carlos Dorta and Battalia Chief Piasecki was wise so they can adjust their ability to respond to all situations as they learn of your plan and the concerns we convey.

I have cc'd Cory Byrd, Secretary of State and the Division of Elections in this correspondence so you would not have to try to communicate my concerns with the State of Florida's plan, as determined in your "SOE conferences".

Safety of everyone involved is right up there with secure, fair, honest elections. We can do both.

Thank you, Wendy, for your continued efforts and willingness to maintain dialogue until well after election day, August 23, 2022 when we will regroup with the SOE office in a cooperative effort to discuss what we have to do to have a PERFECT ELECTION each time, nothing more, nothing less.

Thank you again, Wendy.
We will do this!

Board of County Commissioners,

Good day to each of you. I tried to meet with Ms. Marino, who was elected in my District 1, but she is quite busy and I was asked to provide information to her here. I do not mean to blindsides you. Our concerns are time-sensitive.

I am involved with a grassroots citizens-driven Election Integrity Project educating our future Political Leaders, Incumbents and the GREAT citizens of Palm Beach County about their DUTY in an all-hands-on-deck EIP intended to deter mail-in-ballot signature fraud. We have a plan.

On 6/21/2022 several of us met with Supervisor of Elections (SOE) Wendy Satory Link and her staff to prepare them for an unexpected large group participating in the July 28, 2022, 1 PM Public Inspection of Vote-By-Mail Ballot signature matches. We anticipate participation from the highest levels of state government. We know it will be a very large group. It cannot be compared to what any other county is doing, because they are not.

You and we are in an historic EIP in PBC.

Chapter 101 Section 572 - 2020 Florida Statutes - The Florida Senate (flsenate.gov)

It is important, on so many levels, for us to enlighten the SOE and to have an ongoing dialogue of the potential crowd size and the process we have in place to ensure a spectacular, safe, orderly, historic event.

The SOE office MUST plan logistics to allow the people to exercise their right, supported by law. Instead, she laid out a plan to obstruct and invite fraud from treasonous felons who forge signatures.

Prior to meeting with SOE Link we contacted Deputy Carlos Dorta and Shannon West at the Palm Beach Sheriff Office Substation, 700 6th St. Lake Park, FL 33403 and Battalion Chief, Adam Piasecki, at the Riviera Beach Fire Department 561-845-4110 to discuss safety and response preparedness. They will be included in all correspondence with the SOE. So many Patriots will count on their readiness and appreciate the peace of mind they

bring. We will remain in contact as they prepare and present a written safety plan. Every contingency must be considered. We see this as a Joyful, Peaceful, Patriotic Celebration.

During the March 2022 Special, Run-off and Municipal Elections for Candidate Guarina Torres and Palm Beach Patriots PAC, we were designated to inspect and compare ballot envelope signatures to a voter signature on file

Each Inspector sat one-on-one with a clerk to exercise their right, supported by law. Each Public Inspection session (renamed Enhanced Viewing) over the entire "election period" that lasted several weeks, accommodated one-on-one viewing. That is a precedent that the Candidates, Pacs and Parties expect. That is the reasonable access they want and that I want.

The rights of citizens are supported by the law.

The law is not written to allow intentional infringement upon my rights, it is written to protect and support my rights

At the last meeting you each said your involvement with the SOE is limited to "funding". One accountant can do that, right? Your involvement with the SOE is much more than that, professionally and personally, and the people call upon you now.

"Reasonable access".....that's IN the law.

How can it be included in the law, if, to deny Reasonable Access would actually break the law.

The SOE is planning to deny Reasonable Access to those given access by their right, supported by the law.

Reasonable access cannot be redefined to fit any situation at whim especially since one method (March) deters fraud and SOE method encourages fraud.

I formally reject her way. I will not support fraud! The plan of the SOE FORCES anyone who wishes to participate, to accept supporting her plan that allows fraud.

Forcing us to break the law in order to Inspect Signatures. Allowing fraudulent signatures that can be stopped by a better plan. I'm not a lawyer but then do I go to prison? The voters are being forced to comply like they had to with masks. The people call upon you now.

With the SOE Proposed Plan, there is inequality of treatment of all voters of Palm Beach County and candidates across the state in two races in only six months..... planned by "the SOE Conference" per Palm Beach County, Supervisor of Elections, Mrs Wendy S. Link's own admission.

All was done at the whim of the SOE without consulting ALL Candidates, PACs, Parties.....How is that OK?

Denying access, denies the rights of every citizen of Palm Beach County who expects Candidates, PACS and Parties, as our leaders, to follow the law, exercise their DUTY and OATH of office and to in full-throttle fashion uphold our right to deter Vote-By-Mail fraud. The SOE way infringes on my right to deter known signature fraud.

With only 50% participation our trained inspectors can examine 100's to 1000's of signatures in a 30 min session with one-on-one oversight and assistance from an SOE trained clerk.

Per Ms.Link, she has funding available, but she does not have enough clerks. She stated to our group that she is not willing to hire more trained clerks because the six she has are plenty. Not an answer to a problem. Creation of a problem.

I don't believe anyone would intentionally break the law to deny my rights, especially an official that was elected by the people. Lack of "reasonable access" can ONLY mean a lack of resources needed to achieve reasonable access such as trained personnel, computers, computer stations, space, etc. But it's not lack of money that is the barrier. Funding is NOT the reason.

I explained to the SOE my plan to meet with you, the Board of County Commissioners of Palm Beach County on July 12, 2022 to make a formal public request of you to provide as much funding as the SOE thought she might need to remove any obstacle to the rights of the people, supported by law to have Reasonable Access.

The SOE said she has plenty of money, she does not need money. She has money because she didn't spend it on the new building because of the cost of goods and service. Instead, they made smaller plans. I think she was offering these funds toward Election Integrity. I may be wrong.

Her plan, as she described to our group, is to split all candidates, political parties and political action committees into two groups, in one room, side by side, possibly touching, for inspection of VBM ballot signatures using two giant screens set up side-by-side in the same room with all the participants.

Half of the herd will look at one screen and the other half of the herd will look at the other screen. This is instead of one-on-one signature examinations for 30 minutes with an SOE trained clerk, plus the ballots randomly chosen by the Inspector for the Inspection . March set a precedent for Reasonable Access that is now expected.

The SOE has already created chaos.

Perhaps SOE Lind is getting bad advice in uncharted territory and you can guide and counsel her decisions.

SOE states there is not a problem with funding, money is available.

She just doesn't have enough monitors, computer cages or staff to accommodate the voters.

These are the THINGS that intentionally limit reasonable access and infringe on many rights of the people, supported by law.

Ms. Link intends to put a plan in place to create chaos. When you were running, could you see yourself in that room of even 10 of your opponents, yelling out to accept or reject a ballot while your competitor was yelling the opposite? Republicans, Democrats, PACS, Citizens and Parties with a history. We expect a large turnout. The room will sound like an auction hall. This is disrespectful and condescending to everyone, especially EVERYONE.

Our group has invited Governor Ron DeSantis to be here on July 28, 2022 at 1 PM to participate. We hope he comes so he can rub elbows with everyone and help to evaluate the SOE methods. The SOE method is NOT acceptable. It is not a solution. It is a new problem. No one wins. Her method limits the entire group to doing the same amount of work as only two people in the same amount of time.

This doesn't sound like reasonable access. It sounds like denial of reasonable access. In my opinion, with no law experience, I believe her actions may actually be unlawful.

The information in our plan that we brought before SOE Links requires her to hire staff, buy some monitors, buy some chairs, buy some tables, buy some computers, move the cages, make more room and stock up on coffee and cannot be ignored. Lack of these resources will create UNREASONABLE ACCESS.

If you support her efforts, please be ready to explain to the Public during July 12, 2022 how withholding computers, tables, space, cages, trained personnel and porta potties supersedes and wins over the voters rights, supported by law.

Do you realize that when the SOE speaks first, to defend complaints the voters have not yet been given the chance to verbalize, she is using a tactic to run out the clock. For instance on 6/21/2022.

Your constituents, who are bringing serious concerns forward, are forced to listen to an unrelated SOE promo commercial and become confused. Her commercial was directly unrelated to the concerns they brought forward on 6/21/2022 related to live streaming until she ran the clock out and concluded "no live streaming". Each Citizen was limited to 1 min of comments and reprimanded for going over.

There was just no time for rebuttal because she met with 53 Candidates, Political Parties and PACs at Central Industrial Drive Riviera Beach and totally gas-lighted them. about their rights. They were not given all the information they needed. She told an untruth by omission. Do you see this big picture?

Did SOE suggest to you that she present to the public first so as to answer all our questions? That did not work. We have questions and the format should be revised to help the people speak for 3 minutes and SOE can send a written response.

Unfortunately, my rights **have** to be supported by the law for reasons just like this.

I have included Cord Byrd, Secretary of State, the Divisions of Elections, SOE Link, all the people in her team and our team who met with the SOE.

I have no intention of wasting time playing telephone.

Copy whomever needs to know this, as I am sure our members will.

At our first meeting,,, we had 5 weeks...now we have 4 1/2...

We started early to beat the clock.

We asked twice to meet again with the SOE office, before we meet with the BCC, July 12, 2022. We plan to share updates with you on progress made with this historic cooperative effort. My last communication with the SOE included a list of obvious flaws in the process proposed by the SOE. I can share that if you request it. We are all waiting for her response to the correspondence and the request to meet.

Thank you for doing your DUTY for the people of Palm Beach County.

I'm glad I'm able to get this information to you long before July 12, 2022 when I will address you, again. I look forward to our encounter where we can share progress in pre-planning for the safety of ALL. It will also ask if Emergency Services can provide an update.

Dear Mr. Peter Antonacci, Office of Election Crimes and Security,

I represent a group of grassroots citizens in Palm Beach County who initiated an Election Integrity Project related to VoteByMail Signature Inspection. Since June 21, 2022 we have communicated in person to both SOE Wendy Sartory Link and with the County Commissioners of Palm Beach County. We were instructed to take this concern to a higher level as neither is willing to make necessary and simple changes to accommodate the Candidates, PACS and Parties or the great Citizens of PBC regarding:

Chapter 101 Section 572 - 2021 Florida Statutes - The Florida Senate (flsenate.gov)

I am including the most recent comments to our Board of County Commissioners, followed by questions I posed to the SOE office at 1:30 PM in a scheduled virtual meeting 7/22/2022.

Dear Mr. Cord Byrd, Secretary of State, Florida

I represent a group of grassroots citizens in Palm Beach County who initiated an Election Integrity Project related to VoteByMail Signature Inspection. Since June 21, 2022 we have communicated in person to both SOE Wendy Sartory Link and with the County Commissioners of Palm Beach County. We were instructed to take this concern to a higher level as neither is willing to make necessary and simple changes to accommodate the Candidates, PACS, Parties or the great Citizens of PBC regarding:

I am including the most recent comments to our Board of County Commissioners, followed by questions I posed to the SOE at 1:30 PM in a scheduled virtual meeting on 7/22/2022.

Read to the Palm Beach County Board of County Commissioners 7/12/2022

I thank God I am alive today. I pray that I serve HIM well.

I come to report on an Election Integrity Project for Vote-By-Mail Signature Inspection.

On June 21, the local Sheriff Substation, Fire Station and Supervisor of Election team were informed that on July 28 at 1 PM a large crowd may arrive at the SOE Riviera site for a joyful, patriotic celebration. Any insinuation that we are "creating a problem that doesn't exist" or stirring up trouble is simply untrue.

"A candidate, a political party official, or a political committee official, or an authorized designee thereof, shall be granted reasonable access upon request to review or inspect ballot materials...."

SOE is changing SB101.572 (2) from "A candidate" to "A Group of Candidates."

This room is full of political rivals, parties, pacs and supporters, each better than the next.

If qualified you can inspect ballots. TWO PLANs

Election Integrity Project:

- **One-on-one with SOE clerk matching VBM signature to a signature on file**
- **50 Inspectors**
- **1-2 ballots/min**
- **30 min**
- **1500-3000 ballots inspected in 30 min. Puts the crooks on notice**

SOE Plan:

- ALL qualified officials, one room, two groups side by side, two large monitors, yelling out to accept or reject.
- 2 Groups of Inspectors
- 1-2 ballots/min
- 30 min
- 60-120 ballots inspected, reassures crooks no one is watching, no one is inspecting.

SOE is in "full election mode" and will not meet in person again to discuss this VERY IMPORTANT issue. Alison Novoa sent two separate emails repeating:

"While we appreciate you notifying us of your Election Integrity Project, we would like to be clear that the Palm Beach County Supervisor of Elections Office is in no way responsible for, associated with, or affiliated with this project." She also adds: "That means that we recognize that **you** have instigated an Election Integrity project – **your** project is not **our** project."

"Reasonable access" is being debated and defined at the highest level of government.

The SOE office, per Alison Novoa, defines reasonable access as an adjective that was added because "the Supervisors of Elections were charged with creating procedures that would not **unduly hinder the administration of a successful election** or the timely reporting of results".....

Silly me, it has NOTHING to do with the voters, or election integrity.... TICK-TOCK...

I'm not an attorney, but I think that denying access that is reasonable breaks the law.

100's of temporary staff, qualified to handle ballots, literally, sit and wait during the Public Inspection.

Other resources, monitors, computers, desks, cages rearranged could have happened since the June meeting and better yet, since SB101.572 was signed.

But instead, the clock just keeps running out, and statewide the SOE are shutting it down.

Not until every obstacle is removed and there is STILL no path forward, will I accept that access is unreasonable.

Questions posed to the Supervisor of Elections, Wendy Sartory Link 7/22/2022 in 15 min Virtual Meeting:

According to the SOE Wendy Sartory Link, Public Inspection is about a "review of the process". The citizens were informed by an SOE staff member, highly involved in the process, that we are not Inspecting Signatures to "look for fraud". It is simply about **watching the process**.

1. When the "machine" rejects a ballot, this is done **outside of the public view**.
2. When rejected ballots are picked over by SOE clerical staff, this is done **outside of the public view**.
3. When the Canvassing Board rejects ballots and they are cured in an SOE clerical staff cubicle, this is done **outside of the public view**.

****How does the SOE Office allow Public Inspection, or a "review of the process", when so much election activity occurs **outside of the public view**? Please explain how you are providing reasonable access when parts of the process occur **outside of the public view**. What is the plan and how does this jive with the spirit of the law?**

A second question we posed to the Office of the Supervisor of Elections, Wendy Sartory Link is:

****What changes can be made now, to ensure a VBM signature inspection sample size of at least 10% to satisfy a good faith effort for reasonable access?**

I will send the results of this meeting separately.

Mr. Byrd,

We, as citizens, are doing what we can in Palm Beach County to promote public awareness and participation. However, unfortunately, instead of cooperation and coordination, we are met with resistance from the Supervisor of Elections in our efforts to deter and prevent vote-by-mail signature fraud.

We request your assistance as VBM Signature Inspection begins on 7/28/2022 and Candidates, PACs and Parties and PALM BEACH COUNTY CITIZENS are being denied their right to participate.

A question that NO ONE has answered:

If we do participate, as the SOE suggests, and it allows and promotes fraud, and we know this, but it is our only allowable action by the SOE, does that place us in legal jeopardy to participate?

Mr. Byrd, please address this concern as well.

Most Sincerely,

Patricia M. Testa

Ms. Link,

Thank you for the carpool phone call Friday, 7/22/2022 and for taking our questions.

I stated the following:

1. When the "machine" rejects a ballot, this is done **outside of the public view**.
2. When rejected ballots are picked over by SOE clerical staff, this is done **outside of the public view**.
3. When the Canvassing Board rejects ballots and they are cured in an SOE clerical staff cubicle, this is done **outside of the public view**.

My questions were:

How does the SOE Office allow Public Inspection, or a "review of the process", when so much election activity occurs **outside of the public view**? Please explain how you are providing reasonable access when parts of the process occur **outside of the public view**. What is the plan and how does this jive with the spirit of the law?

Your answers:

"The procedural steps happen in 5 different locations in our county. Different people at different terminals in secure areas, under a memorandum of agreement with the state, for security purposes, WE CANNOT JUST HAVE MEMBERS OF THE PUBLIC in our secure areas. Our offices are considered secure areas. We do the process, but not only in Palm Beach County. All county's staff are reviewing signatures. The new law permits Candidates, PACS, Parties and Designees to verify if they agree with the sampling."

"Machines do not reject. The staff compares signatures on file, making the determination to accept or reject. If not accepted, it goes to the canvassing board. If it is accepted, we can designate from this group, there are steel cages, with trays separated into whatever separation scheme they are doing."

"Curing is part of the "enhanced", but prepared by what was requested to review, permitted under statute, that's what we will do."

A second question we posed:

What changes can be made now, to ensure a VBM signature inspection sample size of at least 10% to satisfy a good faith effort for reasonable access?

Your Answer:

“We have the largest tent that we are able to have. We are committed to 4 screens and are looking to see if a fifth is feasible. We have to see how many we can safely accommodate.

Ms. Link,

Your responses to the questions above regarding activities that occur **outside of the public view** was not answered but fluffed over with more words.

Thinking all activity occurred in the machine tabulation center. We did not know “The procedural steps happen in 5 different locations in our county”. Please disclose those locations and the activities that occur in each of those locations to our EIP. Moving activities to different locations in our county seems to be obstructive to the Citizens if this occurs without their knowledge. Full disclosure is lacking. These activities occur **outside of the public view**.

You insisted “machines do not reject the ballots”. More word play. The machine chooses ballots that don’t match for your staff to determine the fate of that vote. Reject is not the word...what is the word that the machines do to the signature match that is acceptable to carry on an educated conversation? Regardless of what it is named, it is done **outside of the public view**.

Your areas are secure. That is the whole purpose of us completing all the paperwork that the SOE office is making more and more difficult to complete. YOUR office allows us to participate based on info that your staff “verifies”. How could you insinuate that we would act irresponsibly or threaten security by watching your staff pick over ballots SELECTED for mismatch by the machine? Again, words to confuse while this all occurs **outside of the public view**.

Clearly, **all that is outside of the public view will remain outside of the public view**. We will share this information with the Candidates, PACS, Parties and Citizens.

We asked for consideration of a 10% sampling of VBM ballots. Your proposed plan is to increase the number of screens by 100% from 2-4, BUT increase the number of inspected ballots by **only 120 votes**, when 773,093 ballots were cast in the 2020 election.

2 groups of inspectors -original

1-2 ballots/min

30 min

60-120 ballots inspected in 30 minutes

4 groups of inspectors - revised

1-2 ballots/min

30 min

120-240 ballots inspected in 30 minutes

One-on-one with SOE clerk- proposed

50 Inspectors

1-2 ballots/min

30 min

1500-3000 ballots inspected in 30 min

Choosing 4 screens with 4 groups provides a sampling size of 0.0031%. Not even a 0.5%. We came to you June 21, 2022. Your office would not entertain our suggestions even though; despite your objections ALL resources were REASONABLY available. As the clock runs out, you are dug in and continue to deny our opportunity to participate to deter and prevent fraud. The circus tent venue? I am embarrassed for PBC. Maybe we need a warehouse!

The SOE plan is a process that encourages fraudulent signatures and it seems you are in acceptance and taking on the responsibility for that fraud. Bad actors will be encouraged and embraced. Who will be held personally accountable for the volume of fraud permitted since steps in place will not facilitate or encourage fair, clean, honest election results nor show a good faith effort of prevention and deterrence?

As instructed by you and the BCC, I am taking this to a higher authority for resolution as we only have 3 days left until VBM ballot signatures can be inspected.

With Fortitude,
Patty Testa

Dear Secretary Byrd,

We are in immediate need of assistance to continue our Public Participation in the PALM BEACH COUNTY VOTE-By-Mail Election Integrity Project.

Our group of PBC Citizens have encountered obstacles that are insurmountable in a timely manner.

On 8/05/2022 at 4:07 PM Public Challenges were reviewed by the Canvassing Board. We noted envelope signatures were scanned through "machine" and SOE staff review and accepted. Signatures challenged during Public Inspection (PI), were nonchalantly "accepted" by the CB. Obvious mismatches that were flagged by the PUBLIC were disregarded until The Public, who inspected the signatures, spoke up and protested. The CB then decided these selections required "more research". At 4:25 PM on 8/5/2022, the CB sent the remaining Public Inspection Challenges for "further research" to be addressed on 8/8/2022.

In the Canvassing Board, at the end of the Public Inspection review, on 8/8/22, SOE staff reported, "That's it, we have no more. We are all caught up." A Citizen questioned mismatched signatures that her Party had challenged. The same SOE Staff recalled that there "MAY" be something, he would check. Within a few minutes, he arrived with a bin that contained her 7 VBM challenges plus several others.

On 8/8/2022 at the PALM BEACH COUNTY Canvassing Board (CB) session with Wendy Sartory Link, David Kerner, BCC, Judge, April Bristow, they addressed ballot envelopes with missing signatures that were challenged.

After they were accepted by CB, the Public objected to all ballot envelopes without a signature in the Red Signature Attestation Box. Because of our objections, the Canvassing Board, led by Judge Bristow, made a ruling that the public's objections to ALL envelopes with missing signatures in the RED box is noted and would appear in the record as such. We did not have to make individual objections to each missing signature. We were in agreement.

Then, on 8/10/22 when the CB came to order, SOE Link proposed a ruling that NO objections will be accepted from the public nor noted in the minutes. To our objections of this drastic change, SOE Link stated there was a determination by "the state" that clarifies that signatures are acceptable and may be considered for a match anywhere on the envelope.

We were told that if the Public objected to individual envelopes, objections would not go into the record and there would be no follow-up of those ballots, no curing. The reason presented to the Public was that it 'took too long for the staff to note all the objections'. SOE and the Judge agreed on this and reported to Commissioner Kerner, who did not object to this decision.

Again, the Public is DENIED PARTICIPATION to prevent and deter fraud on a whim of time management.

On 8/10/2022, 474 records of **Missing Signatures** were up for review. The CB could not complete these and more than half remain (held over for 8/12/2022). Public Inspection Challenges levied on 8/10/2022 were not addressed as time ran out. In addition to the need to review all of the Public Inspection Challenges from 8/10/2022, plus the hundreds of missing signatures, we are already backlogged in PBC. More Candidates are recognizing the value of this EIP effort and are joining.

The pace of the CB is picking up, to catch up, and the results are concerning. As the hours wane, the staff and CB are tiring, sometimes requiring nourishment. We are remaining very vigilant but we are not able to impact the decisions by the SOE and the CB that we consider questionable, in real time, to impact Election Integrity now.

I have attached a copy of the Ballot that creates such obvious confusion for persons of all ages, that nearly 500 ballots are up for review regarding "MISSING SIGNATURES"! The Public is confused on where to sign, where to print and where to finally place their signature. If they script their email that contains part of their name..is it acceptable?

Of note, there is no statement "DO NOT FORWARD" on the front or back of the return envelope. SOE's comment to this concern was that it "doesn't matter", because "It is the LAW" NOT to forward the ballot materials.

Please, in your review of Chapter 101 Section 572 - 2019 Florida Statutes - The Florida Senate (flsenate.gov) (2) and Chapter 101 Section 68 - 2019 Florida Statutes - The Florida Senate (flsenate.gov) can you tell the Candidate, Pac and Party or their Designee that they are restricted to one designee, to choose which important activity listed in paragraph 2 that they will impact? The Citizens and the Candidates, PACs and Parties, believe they would impact Election Integrity when all activities can be inspected simultaneously.

For instance: Candidates Jane Justice, District 87, Melissa Martz, District 18 and Darlene Swaffer District 23 are interested in BOTH Signature Inspection AND Cure Affidavit review of Signatures specifically selected from their own districts. They cannot. AND these activities occur at the same time. Their Designees are trained and ready. The SOE interprets the Statute with "either/or" inserted. Jane, Melissa and Darlene can **EITHER** have their Designees Inspect Signatures **OR** Cure Affidavits. We see "including" plus "and originals" in the statute. **Please, respond ASAP.**

Also, while reviewing, can you tell our Candidates, PACs, Parties and Citizens if you interpret that "**a**" Candidate, PAC, Party or their Designee can Inspect Signatures? SOE has determined that "**a group**" of Candidates, PACs, Parties or their designees, up to 4 groups maximum, can inspect signatures. The math is simple, the SOE "group" method stifles Signature Inspection. **Please, respond ASAP.**

Also, while reviewing, can you tell our Candidates, PACs, Parties and Citizens if they can be denied the corresponding originals when reviewing the cure affidavits? This newly acquired signature will replace old signatures that were not available for our review. The SOE and staff could not tell if Tier1 or Tier2 ID were accepted. We were denied the "corresponding original" documents that the SOE staff had available in order to "cure" the signature. **Please, respond ASAP.**

Also, while reviewing, can you tell our Candidates, PACs, Parties and Citizens if they are permitted to be a silent, non-participating observer of the Signature Inspection process? The statute does not prohibit their presence under "Public Inspection of Ballots". These same signatures may come before the same Public participating in the Canvassing Board. There was no logical reason or rationale for this decision given by SOE Link. Citizens were removed, including myself from observing to learn. **Please, respond ASAP.**

Secretary Byrd, thank you very much for your rapid attention to these concerns. If you help us to understand the answers to these questions, our remaining 12 days should go much smoother. Thank you.

GOD BLESS AMERICA!!

Patty Testa

Secretary of State Byrd:

While I keep you informed of the complaints that Palm Beach County Citizens perceive as a violation of their Rights related to participation in Election Integrity and the VoteByMail process, it is important to also keep you informed of the personal dynamics occurring within the SOE Tabulation Center and contributing to the discontent of Citizens in the VoteByMail participation process.

Supervisor Link was not present on this day. She is learning of this **time sensitive** information with you that occurred on 08/12/2022.

Daily, new barriers are erected inch by inch and "new rulings" are written. There is no discussion with the Candidates, PACs, Parties or Designees when they arrive each morning to understand the rationale or importance of these "new rulings". They are all expected to simply comply.

The Citizens have requested and have yet to see the "rulings" that impede. We are waiting for two rulings in writing, both written on this day. One is related to Public Inspection seating, flag waving, stop-watch rushing of participants, and expulsion of the Citizens, into the hot parking lot, who are only interested in observing the VBM election process, because it is their right. The other ruling is related to the purpose of this letter.

With each ruling STRESS among everyone impacts the dynamics among the adult employees of the SOE Tabulation Center and the adults of the PBC-ElectionIntegrityProject2022@protonmail.com.

I will discuss only **one of many** issues that negatively impact human interaction dynamics. This one is important and **requires immediate attention**.

The SOE office hired a very large staff of Temporary Agency employees. Some will only be employed through the November election. They have been absolutely respectful, kind and helpful. We greet each other with a joyful "good morning". We ask their names and what their roles are. We try to understand their job. We speak to all with respect. We introduce ourselves. We talk about our grandchildren. We talk about what they had for lunch and where they like to eat.

If we ask a question and they do not know the answer, they refer us to their supervisor. Their mothers and fathers would be so proud to know they raised good people. One of our Citizens is bringing clothes that her children outgrew too quickly to a young mother who is happy to have them. One of our Citizens is giving a gift card for a pedicure to one of the Temps that talked about shoes.

The Citizens explained we are present because it is The Citizen's Right, The Candidate's Right, The Political Action Committee's Right and The Right of every Political Party to be present during the VBM Election Process. Most of them had no real understanding. So, our Citizens helped them to see that someone cares about the process that has consumed every one of our lives since November 2020. Their parents, friends, and family have been invited to participate. I am happy my tax dollars went to hire these great Americans!

All of these young and use-to-be young Americans are happy to be employed. This may be their only encounter, ever, with the election process and with elected officials whose salary they pay. They are doing everything any person would do in a new job. Great customer service and do the work you were hired to do. Impress your boss. They have never been inappropriate.

If we bent the law in anyway with any of the above, please let me know.

After the Canvassing Board adjourned on 8/12/2022, a new "ruling" was decided by the SOE office. Sean Williams told the Citizens they were prohibited from speaking to the Temp staff while they worked. He instructed the Temp staff NOT to answer questions or speak to us. He told me that if I continued to ask a question or asked for more time watching a ballot being duplicated, he would have me removed. I protested. He did not produce the "don't talk ruling".

The fact is that the only communications the Citizens have with the Temp staff while they are working are related to errors discovered, challenges levied, and VBM outcome related, relevant and pertinent interjections.

Here is the problem:

There were NO other election activities occurring for this day. No machines were running. This new ruling as intended remains untested. But the authority and power to silence the Temp staff was tested.

A small group of Temp staff were gathered. I walked over to offer a goodbye, "I hope you have a great weekend, see you on Monday." As the staff member said thank you, he looked up and recoiled slightly, enough that I turned and saw Alison Novoa smirking at me from afar. I quietly asked "Did she get mad that you were talking to me?" His answer was, "Kinda". I told him, "I'll leave so you won't get fired". He softly said, "I don't want to get fired."

We only remained at the Tabulation Center waiting to learn if the scheduled 4PM Duplication would begin. I saw a lovely young Temp staff sitting alone on a stool in the area of the Duplication process. I walked over and asked if they were going to run Duplication. She tightly squeezed her lips together, as if she was afraid her words would escape and she used her finger to point to Alison Novoa and Ashley D Houlihan who were walking toward us. Both were smirking.

This behavior by the SOE employees to our young patriots and our Citizens is immature and totally unacceptable. No one who hasn't been there day after day would notice the subtle changes since June 21, 2022 that erode a positive experience for ALL involved. The Candidates, PACS, Parties and Citizens are here to help prevent and deter election fraud. This is good for ALL.

But the SOE staff are making HR rules on the fly leaving an authoritarian impression of the Election Process. In an attempt to intimidate, humiliate and demoralize the Citizens who are trying to help them through these most important election integrity challenges, it is the Temp staff who are with us every day that are caught in the cross-hairs without recourse. All managers are monitoring them.

The Palm Beach County Supervisor of Election Office must not be perceived as bullies to anyone.

Secretary Byrd, as mentioned, this issue is time-sensitive. We will meet again at 7:45 8/15/2022.

I request a review of all "rulings" to date in the Palm Beach County SOE office that impact this Citizen driven Election Integrity Project.

If no rulings exist or are written as the result of this letter, I would like your opinion on this upside-down world.

Also, Secretary Byrd, I would like an assurance that the Temp Agency staff will not be reprimanded and that they will be treated with the respect they deserve beginning immediately.

I would like the SOE office to provide notice to Candidates, PACs, Parties and Designees when a new ruling is proposed so their opinion of the ruling and how it impacts their participation in this most historic event may be included in the record.

GOD BLESS AMERICA

Dear Ms. Testa,

Although your letter was written to Secretary Byrd, since it involves my staff, I will respond. I will also be responding to Ms. Scott's earlier letter separately.

We agree with you that our temporary staff members are well-trained, polite, helpful, and follow our 3 guiding principles of Integrity, Accountability, and Service. This is not by accident. This is what we stress when we prepare them for the jobs they will hold during their temporary work with us. We have spent an incredible amount of time and energy over the last 3 years changing the way our elections office operates. If you had been participating at that time, you would certainly see the positive change that has occurred. Outside of your group, almost everyone we encounter is very happy with the changes we have made and they appreciate the great lengths we go to be open, accessible, and transparent - while conducting accurate and timely elections.

Our staff - permanent, seasonal, and temporary - work very hard and long hours. As you are well aware, members of the public have strong opinions regarding the political climate, candidates, processes, etc. Some are more forceful in sharing that opinion with staff members than others. All members of our staff are directed to act in a completely NON PARTISAN manner at all times, and are not to discuss politics during work hours. Some of our staff members have noted that they are uncomfortable with the conversations some in your group are having with them when they are conducting the signature verification process. It is critical that our staff pay full attention to their tasks at hand, and not engage in conversations. We are not required by statute to allow you to sit at a table to engage directly with the operator, as I understand that some members of your group were demanding on Friday. These are staff practices that our office puts in place and adjusts as necessary in order to have the most accurate election possible. I am not required to share them with you in advance.

As to your claim of "expulsion" of citizens, that is not the case. We are open to the public during all published hours when we are conducting any publicly viewable activity, such as opening, tabulation, duplication, canvassing, etc. Those hours are published in advance, and we are not able to have people in the warehouse during hours that we are not open to the public, as we do not have staff available to monitor the public during that time, as is

required by our security protocols. During the time period from when the enhanced inspection ends until we open to the public, we are making sure that we have pulled the appropriate ballot envelopes that have been objected to, filling out our control sheets, and getting ready for the day's activities. We have been lenient this time because it is a primary and we are able to, and have allowed extra time for viewing, as well as for your group to turn in their paperwork. That means that we have less time to complete our required work before we open to the public, but we have accommodated you the best we can.

We have treated you with the utmost respect, in spite of your yelling at our staff, but will not continue to tolerate your unruly behavior. My staff chooses to speak with you and your group with at least one other staff person present whenever possible, as some in your group have continuously misstated and twisted their words, and they don't wish to engage. Our primary job is to run this election in a fair, transparent, open manner. We are doing that. We have welcomed you during the hours we are open, even providing coffee and water to make you more comfortable during your long days here. We have added many large screens and monitors so that you can see what we are doing better. I have been available to answer your questions as often as possible.

We look forward to your continued involvement in the process, to the extent that you act appropriately - not yelling at our staff or stopping them from getting their work done. We will continue to operate at the same high level of transparency as we have been, and will continue to follow all applicable laws. We are busy running an election. While we are happy to answer questions for you, but we can not take unlimited time out of everyone's day to explain the same things over and over again. There are aspects of the legislation that you don't like. We understand that and have suggested that you take that up with the legislature.

As I stated earlier, we will have to agree to disagree on our interpretation of the laws. I will not be able to continue to refute every misstatement of fact that you continue to write, so please do not interpret my lack of response in the future as an agreement with your position. It is simply that we have a lot of work to do in this election and I may not be able to stop what I am doing each time you and your group send a long message, no matter how inaccurate it may be.

Respectfully,
Wendy Sartory Link

Ms. Link,

The four **Time Sensitive** requests I have ask of Secretary Byrd and will await his assistance as you forgot to address any of them are these:

1. I request a review of all "rulings" to date in the Palm Beach County SOE office that impact this Citizen driven Election Integrity Project.
2. If no rulings exist or are written as the result of this letter, I would like your opinion on this upside-down world.
3. Also, Secretary Byrd, I would like an assurance that the Temp Agency staff will not be reprimanded and that they will be treated with the respect they deserve beginning immediately.
4. I would like the SOE office to provide notice to Candidates, PACs, Parties and Designees when a new ruling is proposed so their opinion of the ruling and how it impacts their participation in this most historic event may be included in the record.

Ms. Link, your run around answer reminds me of the BCC meeting when the Citizens were quieted by you taking up all the time. It also reminded me that when we asked Ashley and Alison on Friday why our Citizens could not sit in an unoccupied, air-conditioned room prepared for the Public, they complained that they spent \$20,000.00 on setting up a tent and where are 100 people? So please can you also answer:

5. Why can't the public gather and talk in an empty air conditioned tent?

Ms Link,

This **delay** is the exact reason I told you I will continue to take my concerns to a higher level. With respect to this new process, that we discussed with you on June 21, 2022 to iron-out any issues or obstacles anticipated long before today, you did not want our input. We chose to limit the amount of participants until we had a clearer understanding.

I asked Secretary of State Cord Byrd to respond to your complaints about the SOE in Palm Beach County.

Here is his response:

“Last week, Secretary of State Cord Byrd received a facilities tour from Supervisor of Elections Wendy Link where he saw, firsthand, the accommodations Supervisor Link has put into place to ensure voters have access to view elections activities in person including:

- Signature verification,
- Duplication of ballots for damaged vote-by-mail ballots,
- Processing of vote-by-mail ballots, and
- Canvassing Board Procedures.

Supervisor Link has made numerous accommodations as required by law to provide reasonable access to voters to view canvassing board activities in her facilities”

That is from his press officer. Looks like a vote of confidence. Can you please respond?

What a great name!

I'm making a presumption that you are a great guy, with a great name.

To date, all my communications with "a higher level" include SOE Link. We have no secrets.

You asked for a response to an outdated quote from Secretary Byrd's Press Officer.

Volunteers and I will be at the Palm Beach County SOE Tabulation Center, 7835 Central Industrial Dr., Riviera Beach tomorrow, Friday 8/19/2022 7:45 AM to 6 PM, with breaks, when the Public are banned from the air conditioned tent into the parking lot and/or we go for lunch.

You can walk in as Citizen and observe the VoteByMail process. Ask for me. We will help prepare you on-the-go. Be aware that if you disclose that you are a reporter, dynamics will be different, but the truth will not.

I am not comfortable being quoted at this time. I am a source of background facts. Off the record, please confirm with Secretary Byrd's Press Officer the following:

1. Secretary Cord Byrd's field trip was prior to my letter listing concerns voiced by the Candidates, Political Action Committees, Parties and their Designees. It was a field trip to and tour of a facility closed to the public. It was not during the VBM process that includes Public Viewing, Public Inspection, Duplication of Damaged Ballots, Duplication of Military Ballots, Quality Control, Opening Envelopes, Tabulation, Canvassing Board and much more. There are 1000's of moving parts that we cannot see. Access is denied in the Cure Affidavit Review process. Secretary Byrd and his Press Officer missed all of these activities because they were invited to an empty building with nothing going on, perhaps by design.
2. Secretary Cord Byrd never responded to our concerns. The field trip to an empty building with no people or ballots in the building was and is irrelevant to the Integrity of the

Vote-By-Mail process. The vote of confidence, if any, was in a building. Elections are about people not buildings. That is why I am anxious to receive my own personal response from Secretary Cord Byrd to my letter.

In addition to the invitation for tomorrow, I contacted a Campaign that is willing to give you their Public Inspection spot on Election Day. That is the soonest we can schedule you because of a SOE rule requiring 48-hour notice to make a name badge. Mike, you will see how the public is treated, and the obstacles and "rulings" we encounter.

Hopefully, long before Election Day, I will have an updated statement from Secretary Byrd's Press Officer to my letter once they both read it. Then, I may be able to respond.

Mike, since we are out of time, this information and offer to participate will be shared with any reporter that contacts me.

Thank You,

GOD BLESS AMERICA!!

Dear Mr. Antonacci,

I am happy and welcome the opportunity to discuss with you any and all of the claims below, many of which are inaccurate. I have explained the law and our processes in detail to Ms. Testa numerous times. She doesn't like/agree with the law or how we follow it. We are very transparent and provide as much or more access as other counties. I have talked with several other counties about their processes and am confident that not only have we complied with the law, but that Ms. Testa and the others have been provided at least as much access or more as those in other counties have been provided. Our office prides itself on our transparency and the great work our staff does, and we welcome the involvement of the public within the bounds of the law and in line with the important security protocols we have in place.

While I am used to being misquoted by this group, I do want to set the record straight for Commissioner Kerner with respect to the following statement: "Commissioner Kerner ... had his lawyer friend review them and they agree with the SOE." In fact, Commissioner Kerner responded to a comment read by Ms. Testa and stated that he had reviewed the statute in question and had asked the County Attorney's office to review the statute, and that they agreed that we were complying with the law.

Secretary Byrd and some of his colleagues have visited and saw how we are set up and the process we follow. Likewise, two staff members from the Division of Elections have done the same, as well as visited Early Voting sites. Recently we had 3 members of the Defend Our Union-Florida group here to see our processes. We received an email thanking us for our time, which said, "There is a story, and lessons, worth telling to the grass roots about Mrs Link's diligent operations and commitment to public service."

As always, I welcome any questions you may have.

Respectfully,
Wendy Sartory Link

IMMEDIATE ATTENTION: CURE BALLOT PROCESS Palm Beach County

to **pete.antonacci, peter.antonacci, cad-divisiondvtd, DivElections, DKerner, Wendy, PBC-ElectionIntegrityProject2022, Mary-Allen, Jane, Melissa, Jr., governorron.desantis,**

Mr. Antonacci,

The Cure Affidavit process in Palm Beach County requires immediate attention. We tried to address this with Ms. Link with significant push back and without results.

The SOE has instituted a flawed process for curing ballots. It is done in a back office out of sight of the Candidates, PACs, Parties and the public in Palm Beach County. They are being denied meaningful participation in the process

As expected with VoteByMail, there is a significant number of signature mismatches.

On Friday 8/19/2022 there were 1337 rejected signatures. Two Candidates assigned designees to review the Cure Affidavits. They were given only 90 cure affidavits to review.

Chapter 101 Section 572 - 2021 Florida Statutes - The Florida Senate (flsenate.gov)

Chapter 101 Section 68 - 2019 Florida Statutes - The Florida Senate (flsenate.gov)

Of the 90 Cure Affidavits, The Candidates are not satisfied that 78 signatures meet the statutory requirements of proof of identity because the Candidate's designees were denied:

1. "corresponding comparisons signatures"
2. "corresponding originals" (which would include all signatures on file)
3. Tier1 or Tier2 proof of identification (or any communication on the level of proof provided to clear the signature).

None of the signatures to date, cleared by the SOE and her staff, have come before the Canvassing Board.

The SOE is a member of the Canvassing Board which suggests a serious conflict of interest given her resistance for transparency and refusal to provide necessary support materials, or to engage the Canvassing Board.

1. SOE Signature Cure process is done in secrecy
2. SOE denies Candidates actual access or participation, but creates an obligatory activity that does not pacify.
3. SOE refuses to provide necessary materials for inspection
4. SOE has nearly 2000 rejected signatures requiring a cure. Candidates requested to review cure signatures on 8/8, 8/10 and 8/19. They have seen only 90.
5. SOE directed her staff to open envelopes and add the ballots to the count BEFORE the Candidates inspection of cured signatures.
6. SOE is replacing ALL signatures with the Cure Affidavit signature, again, without providing Inspectors with necessary documents to confirm identity.

On Friday 8/19/2022 the Canvassing Board of Palm Beach County was addressed with a blanket objection to 78 of 90 VBM signatures completed by the SOE Staff Cure Affidavit Process.

The Jane Justice Campaign objected to a total of 20 signatures for 8/19/2022. The Melissa Martz Campaign objected to 4 signatures on 8/08, 25 signatures on 8/10 and 29 signatures on 8/19/2022 for her total of 58 objections.

The objections were brought because access to materials listed in Florida Statute 101.572(2) and 101.68 were denied to their designees.

SOE Link answered these concerns in the Canvassing Board with another very long circular answer and without an explanation, then ended with "you are wrong". Commissioner Kerner said he also reviewed the statutes and had his lawyer friend review them and they agree with the SOE. Judge John Parnofiello (first time there) acknowledged their comments.

Mr. Antonacci, the Candidates, PACs and Parties of PBC have a large pool of Designees ready to help. We have been denied access to multiple activities.

1. SOE put measures in place that are designed to obstruct.
2. The SOE schedules Public Inspection of Signatures AND Review of Cure Affidavits at the same time.
3. SOE will not allow both activities by one candidate at the same time.

4. SOE disrespectfully herds the Inspectors into the SAME Public Inspection, ALL looking at the SAME signatures.

5. SOE is intentionally **limiting the number of signatures inspected** by the Candidates, PACs and Parties or their designees

On June 21, 2022, we met in person with SOE Link to inform her that Palm Beach County had a very large volunteer pool that would participate to prevent and eliminate fraud.

SOE had her own plan and stated more than once that she did not need our help. At that time, we told her that her plan would be problematic.

SOE refused to hear our concerns or develop a plan.

SOE is now having difficulty she did not anticipate.

SOE berates the public and is quoted by reporters blaming the People for slowing her down.

Clearly it is VBM that is slowing her down.

Mr. Antonacci, forgive me, I cannot stop telling you of all the problems we are having. There are many. There are many vulnerabilities exposed and documented by the Public.

But most important and for immediate attention please assist the Candidates in obtaining access to Cure Affidavit Review today 8/22/2022 at 8:30 AM PLUS

1. **Cure affidavit**
2. **Corresponding comparisons signatures**
3. **Corresponding originals (which would include all signatures on file)**
4. **Tier1 or Tier2 proof of identification (or any communication on the level of proof provided to clear the signature).**

Ms. Link,

I am submitting this blanket protest to log all remaining thirteen (13) complaints "as necessary". The first signed complaint was hand delivered to you on August 08, 2022, the second on August 12, 2022. The requirement to participate with signature inspection AND cure affidavit review of VoteByMail Ballots according to the "rules" set forth by the PBC SOE office, in my opinion, places me in legal jeopardy.

By being forced to participate in a **group** activity, your office is forcing me to comply with **your** rules. **Your** rules, different from, and therefore not those, designated in the statute 101.572(2), allow possible illegal activities by forcing a "group" instead of "a" Candidate, Party or PAC to participate and therefore the chance to observe a double or triple amount of signatures.

By denying the Candidate the opportunity to participate in simultaneous activities and bring a FREE Citizen workforce to help stop and deter fraud, the SOE is limiting reasonable access. The Candidates can only do a fraction of what they hoped to do in order to detect, prevent and deter fraud.

Participation in a flawed and non-TRANSPARENT Cure Affidavit Review is comical and obligatory. The Candidates are not satisfied. By pretending to participate in this fake review, I am having a moral and an ethical conflict attaching a Candidate's name to the Review that I was charged to do.

As an unwilling participant in the 8:30-9:00 group activity encounters with the SOE staff, I am under intense emotional distress. I have no choice but to again share my concerns at a higher level, as you told me a while ago, when you wanted me to "Agree to Disagree" and how your Executive Staff answered all the participants with that same disregard.

This activity encourages and supports return of fraudulent signatures and illegal ballots, I am participating **UNDER PROTEST**. If the nefarious actors are aware of our lack of access to VBM signatures for inspection, they will be encouraged and fraud will increase.

I will forward this information as I continue to keep Mr. Cord Byrd, Peter Antonacci and the Division of Elections informed.

Oh Ms. Link,

I just can't keep up with your violations of my rights. But, because you insist, I must speak up. I have so many more to follow up with you on... I will get to them.

You cannot silence most of us who pay your salary. Not like you silence your permanent and temporary agency staff.

Your staff fears your leaders and even making eye contact with us because "there are cameras everywhere". Not our cameras...because of Wendy's Rules... There are many rules that pop up whenever SOE needs them that we have yet to see in writing.

Ms Link you allowed someone from the outside with a powerful zoom lens, not signed up with a Candidate and not vetted, not trained, to film ballot opening while you did your photo op in your current campaign headquarters

You don't have cameras where they are needed... not in the facility bay where YOU accept insecure ballots....zoom in on the picture below and you will see Rashard and your "secure" system?

Where is the chain of custody? But you deny the public seeing this and slam the roller door closed.

Yesterday, you and your staff rudely (as always) ushered us to the parking lot. About 12:45 you and your whole leadership left EXCEPT Rashard. Rashard did Public Viewing ,(corrected -duplication) all alone while he ate lunch, with no one around. Public Viewing with no public or viewing.

We watched you and staff leave to take Zane, Senior Management Analyst II, from Tallahassee, to lunch to fill his head with poison against the people as you do with our Sheriff's Deputies.

Did you tell him that your plan was in play??

Rashard completed an activity covered by Statute, under your leadership, SOE with all attempts to conceal, obstruct and deny. You knew Erin and I were in the parking lot. We watched you and you saw us. You are sneaky and deceitful.

TODAY, you DENIED ALL Candidates, PACs and Parties FROM PUBLIC INSPECTION. You did not come to speak to us. How can you NOT do Public Inspection? I cannot even understand how you changed the definition on this one.

Alison Novoa lunged at me trying to get me not to speak up. She lunged and threatened me until I reminded everyone around, it was she who lunged at me. The Designees were very upset because you DENIED the candidates!

A couple more things SOE ...

My last letter to Peter Antonacci, included you because you need to know. You responded to him on a secure channel, so I cannot comment.

I do have a follow up, I will find a way.

Next time DM him in your own thread, thank you

Your "endorsement" from Defend Our Union- FL is unimportant to anyone that knows because it is of little value. We have been at the SOE Tabulation Center EVERY day and Defend Florida has not. DF has no clue what's going on here. So, glad to clear that up.

Nearly 2pM... what will be denied?

GOD BLESS AMERICA

Candidates and reps were waiting very long while in the Canvassing Board room. We knew nothing would start without the lady in pink so we were still watching from afar. It seems the Canvassing Board was in session in the back of the tabulation caged area without us, then "convened" in the CB room with all of us. The SOE staff always banned us from the CB Room until the CB members and staff assembled, but not just after 1:00 AM on 8/27/2022..... Video footage would find them all gathered at the computer area with the SOE staff.

Do you believe this is a violation of the Florida Sunshine Law? ...I'm not an attorney.

Supervisor Link, Secretary Byrd and Director Matthews,

Yesterday, September 19, 2023 was a great day for us to be able to discuss our high-level, bird's eye view of vulnerabilities and risks that threaten the Florida absentee voting process.

We remain nonpartisan in our work. Since election integrity activities occurred in Palm Beach County, Wendy was foremost in our minds. However, during preparation, counties from across the state joined in offering data, observations and testimonials based solely on **risk**.

I am extremely delighted, Wendy, that you saw value in Cord and Maria's attendance. Thank you all for your attention to our concerns regarding trends and solutions across all jurisdictions, state wide.

Thank you for your willingness to review future modules. We will let you know when they are ready to preview and hope you will provide interactive feedback on the following:

1. Strengthen Chain of Custody and Physical Security with statewide standards, CoC application, & work ticket system (simple fixes)
2. Enhance Signature Verification (simple fixes)
3. Increase Voter Roll Accuracy (coordinated effort)

We are moving as quickly as we can to get this information to you. Our recommendations for process improvements will increase security of elections statewide before March 2024.

Please assign a staff member to your emails for updates on the module readiness so you can provide validation or corrections.

Together Florida Election Integrity Team making history first in the nation. Thank you, once again!

I requested, through a PRR to the SOE of Palm Beach County, TWO NUMBERS on February 17, 2024 and I was quoted \$258.72 on 3/26/24

I believe the two numbers I requested should be on hand and in a spreadsheet and because of the massive volume of duplications in PBC, this is another tactic SOE Link uses to delay and perhaps disenfranchise people and therefore prevent releasing the information that she chooses to keep in the dark. This is a deliberate attempt to withhold information. It is cost prohibitive to most if not all people in Palm Beach County.

I sent this to the Office of Election Crimes and Security and to the Attorney General Ashley Moody, but then received a double down by the SOE. I again included them in this report. I also include Ms. Link in nearly every communication of my complaints....IT NEVER MATTERS.

I clarified the request for simply two numbers and was given the invoice again as a slap in the face.

I cannot explain to you how the people of Palm Beach County have been disrespected by the supervisor of elections, Wendy Link, first and foremost by her attempt to silence the grassroots through sponsoring and pushing an harassment bill in Tallahassee and weaponizing PBC law enforcement against those who speak up, Members of the community have been physically accosted by her own staff.

We have gotten no response from her bosses or election officials.

Please respond to whether this is a reasonable response from the SOE.

Thank you.

A better response would be to direct me to the correct person or entity, besides those copied on this correspondence, who WOULD have authority to address this or any ethics issue or statute violation related to the Palm Beach County Supervisor of Elections.

Thank you! Your response will be noted that the Ethics Committee of PBC has been informed, is now knowledgeable and is unable and unwilling to provide relief or direction to the people of Palm Beach County regarding even a tiny fraction of the reported improprieties uncovered in PBC.

Apparently the Palm Beach County Supervisor of Elections is untouchable, unaccountable and rules at will in secrecy. Sounds like a lovely job but such a serious and sad situation!

I must read your ordinance and jurisdiction in order to understand your role.

Thank you, Gina, for the quick response! I will continue looking for the proper authority.

God Bless America

Have a Glorious and Very Blessed Easter

Dear Patty Testa,

This is to acknowledge your most recent correspondence to the Florida Attorney General's Office regarding the Palm Beach County Supervisor of Elections.

In regard to public records concerns, while the Attorney General's Office is not authorized to issue legal opinions or statutory interpretations to private citizens, the Government in the Sunshine Manual provides general information relating to public records and sunshine law. You may review the Sunshine Manual in a searchable format and find frequently asked questions on this subject on the Attorney General's website:

<https://www.myfloridalegal.com/open-government>
<https://www.myfloridalegal.com/open-government/frequently-asked-questions>

In addition, please note the exclusive jurisdiction to determine whether to investigate or prosecute criminal allegations that Sunshine Law may have been violated rests with the local state attorney and not the Attorney General's Office. The elected state attorneys operate independently and are not a part of the Attorney General's Office. Subject: Palm Beach County Commission 6/4/24

Below is the speech that I was not permitted to speak due to your censorship of my first amendment rights. I would also like to mention the harm that you may have caused to those two young children that wanted to speak. I have been to your prior meetings and saw how you allowed boy scouts to get up and speak to your commission in the past. This will be forever branded on their minds as to how you shamed their mother for allowing them to ask to speak the Pledge to the flag and how you tried to silence them.

Mayor you also invited us to reach out to you and other members with requests which I have done. I personally can speak for myself and say that you did not reply to my request when I did. So for you to publicly invite us vs how you respond are very different actions than what you let the public know at the meeting.

I am outraged at the way you are treating the public and think this is against both our organic 1838 Florida State and US Constitution.

Please see below the speech I was not allowed to speak.

My name is Mikki 60sackson I live in Boynton beach

I am here today to alert our elected officials that our country is faced with a serious constitutional crisis that must be remedied prior to the certification of the next election.

It is common knowledge that new voter registrants are not required to provide proof of citizenship and in some cases not required to provide residency when registering to vote.

This common practice is repugnant to the Florida State Constitution, Article 6 Section 2,

"Electors-every citizen of the United States who is at least 18 years of age and who is a permanent resident of the state if registered as provided by law shall be an elector of the county where registered. "

This common practice is also repugnant to Florida Statute 97.041

I quote from the statute:

1. A) A person may become a registered Voter only if that person:

1) Is At least 18 years of Age

2) Is a citizen of the United States

3) Is a legal resident of the state of Florida

4) Is a legal resident of the county in which that person seeks to be registered... End quote."

Furthermore, weakened Federal Statutes regarding Voting by Aliens are repugnant to our state constitution, Article 6 Section 2, and Florida statute 97.041.

Pursuant to Florida Statute 104.42 and 104.43 I demand that a Grand Jury is immediately convened to investigate every aspect of voter registrations, extreme scrutiny must be applied to the 1.2 million Help America Verify Voters transactions, where it is not necessary to produce a photo ID in order to register.

I demand the Governor issues an Executive Order requiring the deletion of all voter registration databases, and all ensuing voter registration be done anew.

I demand our Attorney General take legal action.

As our Palm Beach County Commission leaders who pay the salary for the SOE Wendy Sartory Link I plead you support the Grand Jury and sign the petition for the Grand Jury convene.

I plead you empower the municipalities to take back running their own elections by

counting only paper ballots,
verify their own voter rolls are valid,
certifying their own elections and
storing their own paper ballots.

How can any official or elector certify our elections if they can't certify the person is a legal citizen of the United States?

Wendy was tapped in by the governor and then she changed her party and ran in an election that is run with usb so was she selected or elected?

How many officials are tapped in?

Palm beach County belongs to a Charter

All 39 of the palm Beach municipalities belong to the Florida League of Cities

The league of cities belongs to the National League of Cities.

Why do all of our 39 municipalities pay into

The commission and Ethics agency and yet no one is looking into the election integrity concerns from the people that we keep bringing to your attention.

All of these agencies are illegal. They are tied to the Crown, which is a one-party rule from the top-level down to the states.

I have left statements and photos for you to see from the Elections in 2022. I have never received anything back from you with regards to my observations. I have also left these same documents with the 15th Circuit court Judge, the Florida Senate, the FDLE, Ashley Moody, Governor DeSantis, Maria Mathews, and many other Florida House and Senate members. I also personally experienced a hostile environment when I was observing at the SOE in 2022, 2023, and 2024. While I do not have an official police report I can recount these experiences to you should you chose to be on the right side of history.

It is your duty to support and ask the 15th Judicial Judge Kelly to convene a Grand Jury to investigate these observations that have been shared with you from myself and many others.

See the attached request.

Kind regards,
Mikki Isackson

Dear Mikki Isackson,

Florida Attorney General Ashley Moody received your correspondence regarding Palm Beach County Commission. Attorney General Moody asked that I respond.

We appreciate that you consider the Attorney General's Office as a source of assistance, and I have reviewed your correspondence. I hope the following information proves helpful.

If you wish to seek a criminal investigation, please contact the local police or sheriff's office and elected state attorney. In Florida, those authorities investigate and prosecute criminal violations, and their investigative and prosecuting decisions are not subject to the Attorney General's purview. The contact information for the Honorable Dave Aronberg is:

The Honorable Dave Aronberg
State Attorney, Fifteenth Judicial Circuit
Telephone: (561) 355-7100

The Attorney General's Frequently Asked Questions web page (<https://www.myfloridalegal.com/overview/frequently-asked-questions>) includes the following information in regard to concerns involving local public officials:

10. I believe that my local public officials are breaking the law or engaging in unethical behavior. What should I do?

You may take your concerns to your region's State Attorney for alleged illegal behavior. These officials have the authority to prosecute criminal wrongdoing. A list of the State Attorneys can be found at <http://www.myfpaa.org/?form=stateattorneys>. Ethical complaints about public officials are the responsibility of The Florida Commission on Ethics. The Commission can be reached at 850-488-7864 or on the web at <http://www.ethics.state.fl.us/>

Finally, if you need legal guidance, please consult a private attorney. An attorney can give you the legal advice which our office is not at liberty to give to private individuals. The Florida Bar offers a Lawyer Referral Service toll-free at (800) 342-8011 or online at <https://www.floridabar.org/public/lrs/>.

I hope you will understand the Attorney General's duties are prescribed by law. We appreciate your time and effort in contacting this office.

We are seeking redress of our multiple grievances pursuant to FL Election Code

Subject: Objection and Formal Protest to the Certification of 2022 – 2024 Elections in Palm Beach County

Palm Beach County Elections Canvassing Board:

On April 4, 2024 I was present at the Canvassing Board meeting to certify the March 19, 2024 Presidential Preference Primary and Municipal elections.

I presented to you a notarized statement listing only 17 of the many statute violations observed and documented and requested that you DID NOT certify the election until an investigation was conducted based on multiple blatant violations and suspicious activity.

You dismissed my request stating that: "This was not a proper protest. Nothing for the board to do with this" per Judge Bristow and acknowledged by Commissioner Weiss and Supervisor Link.

After many dismissals and egregious violations of my rights encountered since 2022 and your refusal to pause the certification, I reported to SA Aronberg, the Office of Election Crimes and Security and more.

On August 22, 2024 at 4 PM the canvassing board will meet to certify the August 20, 2024 Primary Election.

Due to multiple, blatant, unaddressed violations of statutes since 2022 that have created an enormity of opportunity for illegal insertion of unlawful ballots AND illegal deletion of valid ballots, while you were always informed in real time and chose NOT to remedy and reverse

egregious practices: I formally protest and object to the certification of the August 20, 2024 primary election and to all other elections conducted during 2022 and 2024 in Palm Beach County, FL.

Ms. Link,

I, Patty Testa, issue this notice on October 18, 2024 to demand that the PALM BEACH COUNTY Supervisor of Elections DOES NOT USE the Clear Ballot Scan on MY ballot, before or after MY ballot is tabulated.

I demand that MY ballot is NOT SCANNED, only and unless, the audit of MY ballot directly affects the audit results and, therefore, the election results in MY precinct, municipality, district or county.

This notice is given in light of the fact that the Clear Ballot Scan is certified ONLY for audits.

If scanning MY ballot is not necessary for an audit, I protest use of the Clear Ballot Scan and THE SOE of Palm Beach County must cease and desist scanning MY ballot in any way.

I do not know when, how, or where I will be voting in this election.

Thank You for your understanding, Ms Link.

Ms. Testa,

Given the amount of time you have spent with our office, I trust that you understand that the secrecy of your ballot will not permit us to know which ballot is yours.

Furthermore, as you noted, Clear Ballot is only currently certified for audit in FL, and that is all we use it for. In order to audit the ballots, they must all be scanned into the system. Holding any ballot out would assure that the audit would not match the tabulated results.

All ballots that are tabulated will be scanned into Clear Ballot and will be part of the audit pool.

Dear Ms. Link,

Clarification of my demand that PBC SOE DOES NOT manipulate my ballot, one additional time, by using the CLEAR BALLOT SCAN.

Thank you for your quick response.

You said "the secrecy of your ballot will not permit us to know which ballot is yours. **That is true and that is good.**

You said "Clear Ballot is only currently certified for audit in FL, and that is all we use it for." **THAT IS UNTRUE**

When EVERY ballot of EVERY person in Palm Beach County is run through the Clear Ballot Scam, even when NOT required in an audit, the perception of many is that this machine is data collecting and counting the votes before the election ends. Perhaps PBC is engaged in more Beta Testing of your machines. **What you say happens, is unprovable and irrelevant to ME as the voter.**

You said, " In order to audit the ballots, they must all be scanned into the system. Holding any ballot out would assure that the audit would not match the tabulated results." **That is true.**

You said, "All ballots that are tabulated will be scanned into Clear Ballot and will be part of the audit pool." This is my problem...the criteria to run this is that a ballot is tabulated?

This is a **huge potential for cheating.** I refuse to be complicit. You have no right to force me to participate in this, yet another vulnerability exposed.

This should be of grave concern to you Ms. Link, not a flippant disregard.

THIS IS PARAMOUNT TO ME to remove my ballot from this extra step until after the vote is counted and an audit is needed.

I agree to the additional (deemed necessary) manipulation of my ballot with the Clear Ballot Scan ONLY if it is necessary to do an audit and ONLY after the tabulation results in

PBC 2024 General Election have been posted to the candidates and public and ONLY after an official determination that an audit is necessary.

There is no way to justify the scanning of my ballot in an uncertified machine to collect my data..**JUST IN CASE? Please do not use "time" as your defense... the public and the candidates will wait a few hours more, for a true and fair election result.**

Thank you once again, Ms. Link. I am happy we can have this dialogue of understanding. Please consult Ashley Moody, Maria Matthews and Cord Byrd to seek an emergency Advisory Opinion. Please include all my comments, points and concerns.

I demand that my November 5, 2024 ballot for the General Election is NOT run through the Clear Ballot Scan until after the official election results on November 5, 2024 are posted and an audit is required, ordered and documented by the proper authorities.

Ms. Testa,

An audit IS required in every election. It's not a matter of determining WHETHER one is needed. Post election audits are required under the law. You may be confusing audits with recounts, which are only required in the statutorily close races. Furthermore, as you acknowledged, there is no way (and no legal basis) to segregate your ballot.

Ms. Link,

Thank you. I, again, ask you to seek an Advisory Opinion on my **demand that MY November 5, 2024 ballot for the General Election is NOT run through the Clear Ballot Scan (Audit) until after the official election results on November 5, 2024 are posted and a POST election audit is required.**

Chapter 106 Section 23 - 2024 Florida Statutes - The Florida Senate (flsenate.gov)
106.23 Powers of the Division of Elections.—

(2) The Division of Elections shall provide advisory opinions when requested by any supervisor of elections, candidate, local officer having election-related duties, political party, affiliated party committee, political committee, or other person or organization engaged in political activity, relating to any provisions or possible violations of Florida election laws with respect to actions such supervisor, candidate, local officer having election-related duties, political party, affiliated party committee, committee, person, or organization has taken or proposes to take.

You stated "Post election audits are required under the law."

Post election audits are NOT pre election audits.

I am not saying not to audit my ballot. You may use my ballot for an audit after the election results are posted.

I am very concerned with the confusion between pre and post election activities.

Ms. Link you stated "You may be confusing audits with recounts."

No confusion on this end, but I understand how busy you are.

It is scanning every ballot that is cast pre-election day, collecting and storing every election day data point not needed until post-election.

It is your compliance and that no RED flag is raised that is confusing.

ClearBallot Audit Scan is approved ONLY for POST ELECTION AUDITS, why are you running them pre-election?

Non-Voting System Technologies - Division of Elections - Florida Department of State

Also of grave concern is the interruption in chain of custody if secure polling place ballot containers are opened and resealed without public or canvassing board observation.

I demand that MY November 5, 2024 ballot for the General Election is NOT run through the Clear Ballot Scan (Audit) until after the official election results on November 5, 2024 are posted and a POST election audit is required.

Thank you **Ms. Link**,

Please do not minimize or dismiss the multiple requests to stop the Clear Ballot Scan of MY ballot BEFORE election day. You are charged to protect my vote, wherever it is, once it is cast.

For me to believe that you cannot find my ballot on any given day is insulting. Because I am an American with an ID, you know exactly when I vote and what day you will need to hold back the scan of my ballot, until after the election. Flag my day!

I do not know to whom I should turn if not you, Ms. Link.

Please seek the emergency Advisory Opinion before you begin to Clear Ballot scan the Palm Beach Voter's ballots on Monday October 21, 2024 (unknownst to them).

I am glad I included Ms. Matthews in all of these communications so she will understand our thought processes.

Ms. Link,

After years of witnessing the numerous touches, moves and scans of voter certificate envelopes and ballots before and after arriving in the tabulation center, I am concerned.

I have not received a response from you as to your intent or refusal to **seek an Advisory Opinion (AO) from the Division of Elections** regarding MY right to preserve the integrity and security of MY voted ballot by minimizing any unnecessary manipulations of MY ballot.

Clear Ballot scan is not necessary or needed until AFTER the November 5, 2024 election results.

I demand that MY November 5, 2024 ballot for the General Election is NOT run through the Clear Ballot Scan (Audit) until after the official election results on November 5, 2024 are posted and a POST election audit is required.

Please refer to my emails on Fri, Oct 18, 7:48 AM, then Sat, Oct 19, 9:21 AM, then again on Oct 20, 2024, 3:04 PM.

I am forced into an activity that I perceive as fraudulent. Running the Clear Ballot BEFORE the end of Election Day, CREATES a high risk for fraud. THIS opportunity to scan, collect, count, and plan a course of action on the results of all votes to date that arrived and were tabulated BEFORE election day would not exist if not for the CLEAR BALLOT machine. I do NOT want to participate.

This risky ballot activity, forced on MY ballot and all voter's ballots, increases the risk of fraud. THIS activity can be done on November 6, 2024.

I understand the crises the Palm Beach County SOE offices and early voting sites are managing and that you are very busy fielding the numerous voter complaints, delivering paper ballots to voters that refuse the ExpressVote machine, removing machines that

flipped voter's intended results and dealing with staff that may not fully understand their role or their jobs, but this is of major concern.

Ms. Link, my prayer is that you ask for an opinion so you are not forced to bear the burden of this very important decision. Please respond with your intent.

Thank you,
God Bless America
Patty Testa

Ms. Testa,

The Clear Ballot scans are not processed until after the election. We can not run the audit program until all ballots are scanned in to the Clear Ballot system. We do this at the same time we tabulate the VBM ballots (in the public view), and daily once early voting begins (in public view), scanning ballots from the day before. We do not scan Election Day ballots until after the election (obviously). This includes waiting for ballots that have been cured by Thursday following the election, as well as ballots that come in from our overseas voters up through the 10th day following the election. So, please rest assured that no ballots are "counted" in the audit process until after the election has been certified.

Wendy Link

Good morning, Ms. Testa. As we have explained in great detail previously, the secret ballot nature of the ballots does not allow us to know which ballot is yours. If you choose to vote on Election Day (and we are in no way suggesting when or how you should vote), your ballot will not be scanned in to the ClearBallot audit machine until after November 5th. In any event, the audit will not take place until AFTER the election has been certified, which will not occur until after the election has been certified, which will not be before November 15th.

Sincerely,

Greetings SA Dave Aronberg,

I pray you had a great weekend. I thank you for your previous consideration of my communications.

I protested the certification of all elections in Palm Beach County since March of 2022. Please see my June 10, 2024 correspondence. Protests presented to the Canvassing Board of Palm Beach County BEFORE certification of the March 2024 Municipal, the 2024 August Primary and the 2024 November General elections were ignored.

Prior to the August certification, I was not able to personally attend the Canvassing Board session and submitted a signed affidavit and protest to the certification of the August Primary.

A PDF file was sent by email to the Canvassing Board before certification. It was dismissed. I will attach that here.

I am also sending 4 additional affidavits in separate emails that were presented to the Canvassing Board on November 15, 2024.

Thank you again for your immediate attention to these correspondences that can impact the future of Palm Beach County.

Thank you for your service, SA Aronberg.

SA Aronberg,

This affidavit was presented to the Canvassing Board on Friday, November 15, 2024 prior to certification of the November 5, 2024 General Election requesting a pause to investigate the evidence in this affidavit related to failed CHAIN OF CUSTODY OF VBM BALLOTS.

This is one of four (1/4) affidavits presented to the Canvassing Board to pause to examine November 5, 2024 election results before certification based on failed election processes.

Chain of Custody of each and every ballot is imperative and the responsibility of the Supervisor of Elections. The process in place is flawed.

Since the Canvassing Board of Palm Beach County did not seem interested in this information, I ask that you please review it.

Thank you, SA Aronberg.

Kind regards,
God Bless America

SA Aronberg,

This affidavit was presented to the Canvassing Board on Friday, November 15, 2024 prior to certification of the November 5, 2024 General Election requesting a pause to investigate the evidence in this affidavit related to failed Public Inspection, transparency, access and security of vote by mail ballots.

This is two of four (2/4) affidavits presented to the Canvassing Board to pause to examine November 5, 2024 election results before certification based on failed election processes.

Observers and designees engaged the Canvassing Board of Palm Beach County from August of 2022 when the Supervisor began and then progressively blocked access to vote-by-mail materials. Candidates, PACs, Parties and PCs who designated trained inspectors were denied the vote-by-mail materials needed to participate in real inspection for signature mis-matches.

Public Inspection of signed voter certificate envelopes before separating the ballot from the envelope is the right of the designees by statutes.

Providing reasonable access is the responsibility of the Supervisor of Elections.

But, instead of access to signed voter certificate envelopes, the supervisor provided digital copies of signatures to compare to digital signatures on file.

SA Aronberg, Thank you, kindly for reviewing this affidavit.

God Bless America

SA Aronberg,

Please review this affidavit related to CURE AFFIDAVIT REVIEW.

This affidavit was presented to the Canvassing Board on Friday, November 15, 2024 prior to certification of the November 5, 2024 General Election requesting a pause to investigate the evidence in this affidavit related to failed CURE AFFIDAVIT REVIEW process, transparency, access to materials.

This is four of four (4/4) affidavits presented to the Canvassing Board to pause, to examine November 5, 2024 election results before certification based on failed election processes.

Observers and designees engaged the Canvassing Board of Palm Beach County from August of 2022 when the Supervisor always blocked access to Tier 1 or Tier 2 voter ID materials to confirm voter identity.

Progressively, other materials were denied including the original signed voter certificate, and the original affidavit, once seen, then withheld and exchanged for a copy.

Candidates, PACs, Parties and PCs who designated trained inspectors were denied the vote-by-mail materials needed to even participate in Cure Affidavit Review.

They were sent to remote locations throughout the county, far from all election materials.

Cure Affidavit Review is the right of the Candidate, PAC, Party and designees by statutes.

Providing reasonable access to the same materials used by the staff, the supervisor and the canvassing board to verify the signature match is the responsibility of the Supervisor of Elections.

SA Aronberg, Thank you, kindly for reviewing this affidavit.

- The second attachment includes multiple exhibits with detailed descriptions of issues uncovered and links to supporting documentation.

Exhibit A contains links to affidavits and a binder provided to election and county officials regarding the issues in Palm Beach County elections

Exhibit B contains numerous emails and communications to the supervisor about these issues over multiple years

Exhibit C contains Rule 1S-2.015 published by the Secretary of State in 2016 to ensure the intent of 101.015 (4) is met through county election security plans approved by the Department of State

Exhibit D contains heavily redacted Palm Beach County election security plans from 2022 and 2024 provided by the Supervisor of Elections in response to public records requests.

Exhibit E contains the Election Assistance Commission (EAC) guidelines for chain of custody procedures

Exhibit F describes how the 2024 Palm Beach security plan fails to meet the intent of statute 101.015 (4), rule 1S-2.015, or the EAC chain of custody guidelines.

Exhibit G describes deficiencies in the execution of the 2024 Palm Beach Security plan.

Exhibit H contains the Palm Beach County vote-by-mail chain of custody records obtained through public records requests

Exhibit I contains analyses of the chain of custody records demonstrating that the Palm Beach County chain of custody procedures outlined in the Palm Beach County security plan were not followed.

Exhibit J contains barriers to public observation of the vote-by-mail process that I and others faced during the 2024 election cycle that could have been exposed if the insertion, deletion, or replacement of ballots during transport or processing occurred.

Exhibit K contains statistical anomalies that indicate vote-by-mail ballot insertion, deletion, or replacement may have occurred during the 2024 election cycle

- The third attachment is my previous complaint submitted to OECS on 6/17/24. It includes my claim that the intent of statute 101.015(4) was not being met in the Presidential Primary.

Emergency Request to Let Citizen Driven Bills Be Heard in Committee

andace, Diane, Deb**

Dear Senator Don Gaetz, Chair of the Ethics and Election Committee,

My name is Patty Testa and I am the person who submitted the complaint to OECS regarding the intent of Fs.101.015 (4) not being met. I volunteered to submit it upon your request.

I was eager to submit the OECS complaint so the concerns that Palm Beach County citizens have been trying to alert everyone to since 2022 would be heard and investigated. The OECS complaint I filed was my second complaint since 2024. My first complaint to OECS was ignored without even an acknowledgement that it was received. I have sent numerous emails to Secretary Byrd and to local officials. They were all ignored.

Elections in Florida are not secure. For Secretary Byrd and his OECS team to tell the untruth that our elections are secure is quite curious since we presented, during a real time video meeting, to Secretary Byrd, Director Matthews and Supervisor Link on September 19, 2023 and visually demonstrated greater than 200 risks, vulnerabilities and violations of elections in Palm Beach County that also occurred across the state.

Experts from around Florida spent hundreds of hours observing, thousands of \$\$ obtaining public records, and endless hours analyzing and documenting findings. We have much more than we already provided. From the citizens, you are welcome for and to the information. It is our civic duty.

Two days ago, I learned that you would not let citizen-driven bills SB 396, SB 394, and SB1330 be heard in your committee. I was told, through channels, that you were told there was nothing to support complaints submitted to OECS. That could not possibly be my submissions!

I don't think someone shared enough information for you to make an educated decision on the future of SB 396, SB394, and SB1330 and the devastating failure of SB 1414 to secure elections. Who would withhold this information from you, and/or who may have misrepresented the facts?

Did you really want the citizens of Florida to file formal complaints to OECS and Secretary Byrd?

Did you not realize that all the proof, all the complaints, affidavits, PRR, and a list of vulnerabilities and violations are at the fingertips of your best election integrity constituents across the state?

Election integrity work and the results gathered since 2022 by citizens in Palm Beach County and every county across Florida may have been underestimated.

Your request to file complaints was completed at dew energy speed, and with great effort to be ready for the legislative session.

Please at least read the evidence. Non-citizens are getting onto Florida voter rolls. The manner in which vote-by-mail ballots are handled jeopardizes honest elections, and election technology is neither secure nor trustworthy.

If someone has been made aware and allows real-time sworn affidavits, exposing election failures, to go unanswered without an investigation, are they complicit in the crimes, or are they failing at their paid job?

The citizens want the Ethics and Election committee to investigate our complaints, as no authority with the duty to investigate or address the exposed and reported vulnerabilities has stepped up.

As Chair of the Ethic and Elections Committee, you are our final hope, you are directly receiving the information contained in the complaints and additional proof documents. If you refuse to facilitate an investigation, it appears that a conflict of interest exists that directly affects an unbiased evaluation by the Ethics and Election committee of the Election complaints in Palm Beach County.

I witnessed all events in the affidavits I provided and now, Senator Gaetz, I am witnessing the events that are unfolding under your watch.

By cancelling the meeting and refusing to hear SB 394, SB 396, or SB1330 in your committee, the citizens, who have provided you proof, are denied the ability to expose, to the whole Florida legislature, the details of the vulnerabilities present in our elections and the solution our bills provide.

We are denied the ability to expose how our votes can be diluted by votes from non-citizens and other illegal voters and how SB 1330 mitigates this risk. We are denied the ability to expose how election results can be compromised by deficient vote-by-mail transport and processing policies and how SB396 mitigates this risk. We are denied the ability to expose how our election results can be corrupted through the use of uncertified technologies and how these risks are mitigated in SB 394.

The public is barred from participation and dialogue that is of grave importance to their future well-being and happiness when you, Senator, deny committee review.

Please confirm that you will investigate and insist that OECS submits a report to you confirming or refuting the evidence that has been provided.

The good news is that we are learning so much about "politics".

Thank you for the opportunity to get on the record with you as we make history.

Senator Gaetz, Thank you for your service to the citizens of Florida.

God Bless America

Patty

**United States Attorney Hayden O'Byrne,
Special Agent in Charge Mark McCormick,**

Greetings,

Last week, each of you received a priority mailing with a Demand from the PBC Rule of Law People's Grand Jury Oversight Committee to the elected officials of Palm Beach County to initiate a cooperative transition to restore Rule of Law People's Grand Jury oversight.

The same mailing also included a request to you, Attorney O'Byrne for Presentment at the United States District Court for the Southern District of Florida June/July session unless our demand to begin the transition process is met.

A Public Notice is published, as of today, of the first official public meeting scheduled for May 15, 2025. Each of you is invited to attend. The Public Notice was shared with Mayor of Palm Beach County Maria Marino and all commissioners, State Attorney Alexcia Cox and all assistants, Sheriff Ric L. Bradshaw and all sheriffs, Chief Judge Glenn Kelley and all judges.

President Donald J. Trump (Washington White House and Winter White House), US Attorney Pamela Bondi, FBI Director Kash Patel received the initial priority mailing but have not received the PUBLIC NOTICE, yet.

US Attorney O'Byrne, will you please forward this communication to your superiors. I do not have their direct email needed to keep them informed in a timely manner.

Special Agent McCormick, we will schedule weekly meetings and invite the officials named and their representatives until the day of the June/July Session of the United States District Court for the Southern District of Florida. Your attendance would be important to the process of restoring the Rule of Law People's Grand Jury Oversight. You may report directly to US Attorney O'Byrne of our progress.

In the meantime, I intend to keep you up to date weekly on the attendance and good faith efforts of the PBC officials and the Oversight Committee.

Thank you for your historic participation.

Per Fs. 48.111, please distribute this email and the attached document to each of the 39 municipalities in Palm Beach County including Town Clerks & Councils.

Re: PUBLIC NOTICE Rule of Law People's Grand Jury Oversight Committee of Palm Beach County will convene its first official Public Meeting – May 15, 2025 @6pm. Details included in the Public Notice.

President Burke,

In 2024, grassroots volunteers visited each of the 39 municipal clerks and town councils in Palm Beach County via in-person council meetings and spoke during public comment, hand-delivered letters, sent emails, and USPS mail (May–July 2024). Oaths of office (Florida Statute 876.05) and surety bonds (Florida Statute 113.071) for public officials were requested.

If any have not yet responded to the 2024 public record requests for oaths, bonds, election-related voter safeguards, please provide the requested materials with an update.

The meeting will address the failure of Palm Beach County officials to provide evidence of criminal and civil wrongdoing and Florida statute violations to the Grand Jury for consideration. Each of you or your representatives may address the committee to discuss restoration of the rule of law.

Public Notice Palm Beach County FBI Follow-up May 07, 2025

Patty Testa <pmtesta34@gmail.com>

Wed, May 7, 2025
6:20 PM

to Hayden.obyrne, memccormick@fbi.gov, Candace, Peacemaker, Allison, Pamela, D f, Bernie, Jeff, Mary, Jack, Rocco, Joyce, fasttimesracing53@yahoo.com, Pam

US Attorney O'Byrne and
Special Agent in Charge McCormick,

This is Patty Testa from Jupiter, Palm Beach County, FL.
I am following up on the documents you received from Palm Beach County Rule of Law People's Grand Jury Oversight Committee by priority mail and the additional Public Notice that were sent by email yesterday.

My intent is to keep you informed of our progress until Presentment at the June/July session of the USDC for the Southern District of Florida. Our first meeting with officials of Palm Beach County is Thursday May 15, 2025.

Clearly, based on the evidence included in the attachment, pleas to present suspicious or egregious criminal activity to a Grand Jury for consideration were ignored by everyone with the power OVER the people. A power taken, not given.

SA McCormick, it is you, whom I hope will facilitate this process. Your awareness, recognition, and advice advancing a rapid resolution may be required if the officials of Palm Beach County continue to deny constitutional rights of the people of Palm Beach County. It is pretty silly to even read these words that I wrote.

Anyway, I included the public notice for review.

Special Agent in Charge McCormick, if you will not attend this meeting, but you may attend the meetings on May 22, 2025 or May 29, 2025, perhaps US Attorney O'Byrne will be able to attend or send his next best SA in Charge.to the meetings you cannot attend and keep you informed.

Thank you in advance.
God Bless America
Patty

to rodriguez, gkelley, Stateattorney, Mmarino, Candace, Joyce, Jack, Rocco, Jeff, Pamela, Ellie, Df, Bernie, Mary, Geno, fasttimesracing53, Aalison, memccormick, Hayden.obyrne

Greeting Palm Beach County Elected Officials,

**Mayor Maria Marino and all county commissioners
Sheriff Ric L Bradshaw and all deputy sheriffs
State Attorney Alexcia Cox and all assistants
Chief Judge Glenn Kelley and all judges**

This is a courtesy reminder of the meeting today, May 15, 2025 at 6 PM. The Public Notice received on May 6 (page 2) is attached with the details.

Also included in this document is a second Public Notice of a follow up meeting scheduled for May 22, 2025 also at 6PM to accommodate you, your representative and any of the individual personnel within your department who are listed to receive this communication and are given the opportunity to participate.

Thank you for distributing these Public Notices to all county commissioners, deputy sheriffs, assistants to state attorney and all judges per
Chapter 48 Section 111 – 2022 Florida Statutes – The Florida Senate

We will continue to schedule these meetings weekly until either
561.) our collective efforts to restore the grand jury rights demonstrate a constitutionally sound cooperative, progressive, legal, and transparent process satisfactory to the Oversight Committee

or

B.) the June/July session of the United States Southern District Court of the Southern District of Florida convenes for PRESENTMENT.

Presentment to the court was requested of US Attorney Hayden with the initial mailing received by all of you by Priority Mailing.

Voicemail and direct communication through the Miami FBI operators have kept Assistant Special Agent in Charge Mark McCormick informed of our meetings, Hillary Rossman, Miami Acting Chief Division Counsel was informed by direct communication of our efforts on May 1, 2025.

Thank you for your attention to this, your participation is of great importance to the future of Palm Beach County.

To : Allison Payne, Executive Director Florida Association of City Clerks

Allison,

Thank you for taking my call today. It was a very nice and helpful discussion. Allison, you and Rachel Embelton received the initial Priority Mailing sent to all officials in Palm Beach County meant for distribution to each of 39 municipalities and unfortunately, the municipal clerks were not made aware in time to attend our meeting on May 15, 2025. We will note this in the attendance log of the participating officials and hopefully, now that we spoke, each Municipal Official will be able to decide their own future.

That Priority mailing included a Demand for Rule of Law People's Grand Jury Oversight and a request for Presentment at the June/July session of the US District Court of the Southern District of Florida.

Thank you for sending all PBC Municipal Clerks the Public Notice for this upcoming May 22, 2025 meeting, attached for your convenience.

And thank you in advance for sending Patricia Burke's corrected email so I do not leave her uninformed.

The Public Notice for the May 29, 2025 opportunity to meet with Palm Beach County elected officials will be forthcoming.

Also, other counties in Florida may be in need of similar distribution requests.

Thank you, again, Allison

God Bless America

Dear Municipal Clerks of Palm Beach County;

According to Chapter 48 Section 111 – 2022 Florida Statutes – The Florida Senate distribution of the time sensitive information in this email to inform you of Public Notices meant, specifically, to you was and is a responsibility of your leadership.

The failure to communicate with you is not the intent of the Palm Beach County Rule of Law People's Grand Jury Oversight Committee.

Our intent is to establish rule of law people's grand jury oversight in Palm Beach County that begins in each of your communities. Communicating with you, a leader among the local people, is of great importance to the success of that happening.

Please review the attached Public Notice. You were not informed of the first meeting that occurred May 15, 2025. Information on the Thursday, May 22, 2025 meeting is in the attachment.

Thank you for your attention to this information.

I will continue to utilize your leaders to distribute the information because that is their responsibility and frankly, they should know what this is all about.

Thank you,

President Patricia J. Burke of the Florida Association of City Clerks

Today, I learned that most of the individuals named in the Public Notice failed to receive the document that should have been distributed according to Chapter 48 Section 111 - 022 Florida Statutes - he Florida Senate. I am learning through public records requests that the distribution of these Public Notices is not occurring.

Because the information is being withheld, these individuals may wonder why they have not been given an opportunity to PERSONALLY address the Rule of Law People's Grand Jury Oversight Committee to restore grand jury rights in Palm Beach County. The individuals may question whether their superiors are deliberately withholding the PUBLIC NOTICE and if they are denying the named individuals the RIGHT to participate. The future of these individuals is compromised if they are not given free choice to decide their involvement based on the details of the request.

Thank you for distributing these very important Public Notices, to secure and restore the Constitutional rights of the Grand Jury, to each Palm Beach County commissioner, deputy sheriff, assistant to the state attorney, judges, and all city clerks.

PLEASE NOTE: The attachment contains JUST three of thousands of pieces of factual evidence that was never brought before nor seen by the grand jury for consideration.

Who is deciding the worth of evidence if it is not the Grand Jury?

Who is entangled in the failure of elected officials to bring the evidence to the Grand Jury?

I ask because each official named in the documents has been given the proof, by scores of Palm Beach County people, and it has been ignored.

This is a courtesy reminder of the meeting on Thursday May 22, 2025 at 6 PM. This meeting is today.

Public Notice #3, for the meeting scheduled May 29, 2025 at 6 PM is attached with all public notices to date and the original Demand and Request for Presentment.

We will continue to schedule these meetings weekly until either

A.) collective efforts to restore the grand jury rights demonstrate a constitutionally sound cooperative, progressive, legal, and transparent process satisfactory to the Oversight Committee

561.) or

B.) the June/July session of the United States Southern District Court of the Southern District of Florida convenes for PRESENTMENT.

Palm Beach County Rule of Law Attempt to UPDATE

Patty Testa <pmtesta34@gmail.com>

to memccormick, Hayden.obyrne, Candace, erinrdhsmile, Pamela, Peacemaker, mike, Troy, Joyce, Jac,
, Geno, Robert, Aalison, jmcgraw11.

Agent McCormick,

I tried to call the PBC office at 561-833-7517 to provide you, specifically, with an update. The operator refused to transfer me to your voicemail, insisted this is not a federal concern and hung up on me when I insisted that I just needed to update you, by voice mail, as to the response of public officials in Palm Beach County to restoring grand jury rights. She refused to provide her name or badge number. I cannot even formally complain about her rude behaviour as the first voice of the FBI.

I am at a loss as to how the people can engage OUR local FBI agent; establish a dialogue and to determine the best course of action by the people.

The Rule of Law People's Grand Jury Oversight Committee seeks to restore GJ rights for Palm Beach County. Violation of Amendment V of the Constitution DOES make it a federal issue and the operator should NOT have hung up on me.

Redress of grievances has been ignored by all levels of government in Palm Beach County and denied to me and the people of Palm Beach County. The FBI operator refuses to allow the people to engage their very own local agent.

If the Rule of Law People's Grand Jury Oversight Committee request for Presentment at the next June/July session is not the best next step, we need your assistance and your direction on the best course of action in your own backyard.

Please advise how The Rule of Law People's Grand Jury Oversight Committee can communicate with you, Agent McCormick.

Thank you,
God Bless America

Hello,

Mr. Hayden O'Byrne US Attorney 15th Circuit Court Southern District of Florida
Mr. Joseph Abruzzo Clerk and Comptroller Palm Beach County
Ms. Veranda Baker County Administrator

This same information will be received by **Mr. Abruzzo and USA O'Byrne through Priority Mail.**

Ms. Baker, If I have located the incorrect email addresses, please forward this information to the appropriate elected and appointed officials.

With a goal to lawfully restore grand jury oversight in Palm Beach County, Public Notices were sent by Priority mailings and hand delivery as early as May 06, 2025 with weekly updates and meeting requests by the Palm Beach County Grand Jury Oversight Committee and a request to US Attorney O'Byrne for Presentment if the elected and appointed officials in Palm Beach County are unresponsive. Informed Palm Beach County officials are unresponsive, including the following who are copied.

Maria Marino, Mayor of Palm Beach County and ALL commissioners

Ric L. Bradshaw, Sheriff of Palm Beach County and ALL sheriffs

Alexcia Cox, State Attorney Palm Beach County and ALL assistants

Glenn Kelley, Chief Judge Palm Beach County and All judges

President Patricia Burke Florida Association of City Clerks and All municipal and town clerks

Allison Payne, Executive Director of Florida Association of Clerks

Mark McCormick FBI Assistant Special Agent in Charge

Included in the May 06, 2025 Priority Mailings:

Hayden O'Byrne US Attorney 15th Circuit Court Southern District of Florida

President Donald J. Trump at The White House and

President Donald J Trump at The Winter White House

US Attorney General Pamela Bondi

FBI Director Kash Patel

Included in May 27/28, 2025 Priority Mailings:

Pete Hegseth Secretary of Defense
Steven Stebbins, Acting Inspector General
Kristi Noem Secretary of the Department of Homeland Security
Tulsi Gabbard Director of National Intelligence
Joseph Abruzzo Palm Beach County Clerk of the Circuit Court and Comptroller
Veranda Baker, Palm Beach County Administrator
US Attorney Hayden O'Byrne

This communication includes Public Notices 1, 2, 3 and 4, supporting evidence, and the original request for Presentment to US Attorney Hayden O'Byrne for the June/July session of the United States District Court of the Southern District of Florida.

It also includes **a letter to both, Mr Abruzzo and Mr. O'Byrne** explaining that the named elected and appointed officials are non-responsive to FL statutes, the demands of the people of Palm Beach County or even to begin a dialogue.

USA O'Byrne, thank you for a timely response. The Palm Beach County Grand Jury Oversight Committee and citizens of Palm Beach County require your attention, welcome your direction, and take seriously your oath of office to protect our Constitutional rights.

Thank you,

US Attorney O'Byrne,

Good day, Sir.

I have an update for you.

On Thursday, May 29, 2025 the PBC GJ Oversight Committee met again to develop the process of restoring Grand Jury Oversight in Palm Beach County.

Neither elected, appointed, representatives, nor subordinates named in the Public Notices 1, 2, and 3 engaged the committee.

Unfortunately, we will be forced to proceed to develop the process of restoring Grand Jury Oversight by the people without their input. We take this task very seriously.

Given three weeks to respond, the officials; elected, appointed, representatives, and subordinates, remain unresponsive.

Today, at this 4th meeting, Thursday, June 05, 2025, should each again disregard the people, we strongly request a Presentment, by you, SA O'Byrne, as soon as the next session in the second week of June at the 15th Circuit Court of the Southern District of Florida.

Alleged constitutional violation of Amendment V is enough, is of grave concern, and shall be investigated. When the Grand Jury is denied access to the evidence, the members of the grand jury do not and cannot fulfill their obligations! They are consistently blocked by the named officials, and their hires, from the evidence, and from even knowing the power they hold as a Grand Jury, otherwise THEY, the Grand Jury, would demand access to the evidence 18 USC 3332.

I would also like to say, the failure to protect the constitutional rights of the people per Amendment V has been going on for years, long before you were appointed. It is an honor to bring it to your attention for immediate intervention. This committee and the people of Palm Beach are anxious to engage you. It is unfortunate that Special Agent McCormick was also unresponsive.

18 USC 241 and 18 USC 242 are enough to never want to be on the list of officials who failed to respond.

USA O'Byrne, we have been at this for many years and the elected, appointed, representatives, and subordinates have not and will not respond. But, **USA O'Byrne** you can and shall respond by Presentment in the most expedient manner, so that this committee may know you are fulfilling your duty and the terms of your oath.

With all due respect, **USA O'Byrne**, it is your duty.
We are here to help because it is our duty and an honor.
Please see Public Notice #5. You are invited to attend.
Thank you for your service.

Office of the Attorney General
State of Florida
PL-01, The Capitol
Tallahassee, FL 32399-1050

Dear Florida Attorney General Uthmeier,

My name is Patty Testa from Palm Beach County.

Congratulations on your appointment.

I am sending this to you from the Palm Beach County Grand Jury Oversight Committee as a courtesy for you to know what is occurring in Palm Beach County.

All officials in the state of Florida know about the problems and evidence that they each have ignored in Palm Beach County. We haven't had a response from any of them and we must have our evidence presented to a Grand Jury. The Grand Jury does Not see the evidence. A constitutional violation of Amendment V is serious and not even one....no, not ONE official who knows and has seen the evidence is fulfilling their oath of office. The Grand Jury's power is blocked and access to evidence to do their job is denied. Is that Jury tampering? Is it Jury tampering on a federal level? I am not an attorney so I don't know, but to me, it seems like it.

I am sending a copy of this communication by priority mail as well. I am also attaching the letter sent to USA O'Byrne last week (Public Notice 4 letter) to help you understand.

Through Public Notices, Palm Beach County officials were issued a demand that you will see in the attached document. The officials; elected, appointed, representatives, and subordinates, are unresponsive. Up until now every official in the state of Florida that was contacted by the people with evidence that was denied to the Grand Jury

are unresponsive. For that reason, we engaged United States Attorney Hayden O'Byrne 15th circuit court of the Southern District of Florida. We requested Presentment of named officials at the June/July session of the US 15th Circuit Court in the Southern District of Florida.

Thank you for your attention!

Any help you can provide to remedy this situation is welcome.

Also, you are welcome to attend our public meetings.

June 12, 2025 Update Palm Beach County Grand Jury Oversight Committee

Greeting US Attorney O'Byrne,

We are writing again to up-date you on the response by the elected and appointed Officials of Palm Beach County to the Public Notices that were issued by the Palm Beach County Grand Jury Oversight Committee.

Five weekly Public Notices were issued since May 06, 2025. This is a reminder that the 5th meeting will be held today at 6:00 PM at Hagen Ranch Road Library 15350 Hagen Ranch Road, Delray Beach, FL 33446. There has been NO contact by or from the officials or their representatives after 4 meetings.

The Palm Beach County Grand Jury Oversight Committee requests the presence of the county officials named in the notices or their representative to discuss a path forward to full restoration of Grand Jury rights. **18 U.S. Code § 3332 - Powers and duties**

“...Any such attorney receiving information concerning such an alleged offense from any other person shall, if requested by such other person, inform the grand jury of such alleged offense, the identity of such other person, and such attorney’s action or recommendation.”

The Palm Beach County officials failed to address, process, ensure or to follow through that the evidence brought before them was forwarded to the appropriate “other” official. The proof of that, is that the Grand Jury did not see the evidence. The proof that the Grand Jury did not see the evidence, is with the people who hold the evidence in wait.

The Palm Beach County Grand Jury Oversight Committee will continue to monitor willingness and compliance of the officials to address the concerns and the will of the people of Palm Beach County. As they smirked at the people bringing forth evidence, perhaps the officials are also smirking at and passing the buck to you, USA O’Byrne. The Oversight Committee will be of great assistance to you.

The Palm Beach County Grand Jury Oversight Committee will follow Federal Grand Jury indictments closely. A rudimentary search for indictments in Palm Beach County 15th Circuit Court of the Southern District of Florida during every week in June and July will be documented.

o On June 5, 2025 - Six People Indicted for COVID-19 Relief Fraud Scheme
Totaling Over \$34 Million

§ <https://www.justice.gov/usao-sdfl/pr/six-people-indicted-covid-19-relief-fraud-scheme-totaling-over-34-million>

USA O'Byrne, although we would like to meet with you in person, there will be **no in-person public meeting on June 19, 2025**. We are very flexible and able to quickly accommodate. We will call in the next few weeks to schedule a personal meeting.

Elected and appointed officials or their representatives may contact the committee to plan a more convenient time to meet with the information below.

Dear United States Attorney Hayden O'Byrne,

I pray that your celebration of Independence Day was as momentous as mine.

Congratulations to you, Hayden O'Byrne, United States Attorney for the 15th Circuit Court of the Southern District of Florida and to the Palm Beach County grassroots and to the Palm Beach County Grand Jury Taskforce together making history!

I must no longer convince you of the need to explore how and why all Palm Beach County and Florida State elected, selected, appointed officials and their representatives failed to provide county, state or federal Grand Juries with evidence to investigate election fraud, for the truth will now be told.

This news link is presumed to be true: "BREAKING: Trump DOJ Launches Nationwide Election Integrity Probe" <https://x.com/RealLindellTV/status/1940895143940477148?s=01>

If so, on behalf of the grassroots of Palm Beach County and the Palm Beach County Grand Jury Taskforce, we are American proud to be of service to you in exploring "voting machines, cybersecurity protocols and access to voter rolls". The information from us, available for your review, will be more than you can imagine and will save thousands of man-hours.

A cursory look at the attached documents will provide convincing evidence that multiple, manipulated, egregious election anomalies and violations of constitutional, federal and statutory laws are documented, but that every public official ignored exposure of those violations and denied access to the information by the Grand Jury.

Unrelenting communications from the grassroots of Palm Beach County to you, USA O'Byrne, to Special Agent Mark McCormick, to Mayor Maria Marino and all county

commissioners, to Sheriff Ric L Bradshaw and all sheriffs, to State Attorney Alexcia Cox and all assistants, to Chief Justice Glenn Kelley and all Judges, to all municipalities, to all election officials of the State of Florida including Governor DeSantis, Florida Congress, the Florida Senate and to all relevant committees and subcommittees were ignored.

Constitutional Amendment V: No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

- a. Perhaps all unresponsive elected, selected, appointed officials or their representatives, not “compelled in any criminal case to be a witness against himself” have no interest in restoring Grand Jury Rights.
- b. The people of Palm Beach County, Florida and the people of all nations are denied due process when the value of their grievance is determined by an “entity” (the report taker).
- c. The “entity” blocks members of the grand jury from receiving or reviewing credible evidence.
- d. Everywhere in the world “entities” deny lawful, people grand juries’ access to the truth.

The Palm Beach County officials named in weekly Public Notices 1 through 5 or their representative refused to discuss a path forward to full restoration of Grand Jury rights. **18**

U.S. Code § 3332 - Powers and duties

“...Any such attorney receiving information concerning such an alleged offense from any other person shall, if requested by such other person, inform the grand jury of such alleged offense, the identity of such other person, and such attorney’s action or recommendation.”

Persistent refusal to address these issues serves as prima facie evidence of continued obstruction and conspiracy to violate civil rights under 18 U.S.C. § 247-242. Such failures constitute willful neglect of duty, breach of oath, and may invalidate any claim of official immunity.

It is respectfully requested that a mutually convenient time and location be arranged for you to review substantial evidence of crimes that have been committed. You may text or call me at the number below. I will return your call. We must discuss your position on receiving this information and due to the lack of a response from the Palm Beach County and Florida State officials, we must understand your intentions to inform the Federal Grand Jury PURSUANT TO 18 U.S.C. § 3332(A), of the DEMAND FOR RULE OF LAW PEOPLE’S GRAND JURY OVERSIGHT originally signed April 26, 2025. (attached)

Copies, of this correspondence and all attachments, have been sent by Priority Mail to your Miami office, to FBI Director Kash Patel, to US Attorney Pamela Bondi, to CIC Donald J. Trump and to United States Congresswoman Anna Paulina Luna serving on the Committee on Oversight and Government Reform.

USA O'Byrne, thank you for your service.

God Bless America!

**to USAFLS-CitizenComplaints, Hayden.obyrne, memccormick, me,
USAFLS-CITIZEN COMPLAINTS@USADOJ.GOV**

The people of Palm Beach County received your reply with instructions to "Please seek legal counsel to assist you with this matter." Thank you very much for your response. USAFLS-CITIZEN COMPLAINTS@USADOJ.GOV is one of very few who acknowledged receiving and then, responded to our complaint. We are appreciative.

A thorough review of the evidence and supporting information, collected by the people, will clearly demonstrate that the people, who witnessed and collected evidence, HAVE reported, in real-time, to the most important officials and highest attorneys, judges, sheriffs, county commissioners, and municipality officials in Palm Beach County and the State of Florida without a response. They each failed in their power to facilitate or present facts and evidence to the Grand Jury for determination.

Since 2022, all elected, selected and appointed officials in Palm Beach County and the state of Florida, including the former and current Attorneys General of Florida, the Governor, the Office of Election Crimes and Security, the Secretary of State, Director of the Division of Elections, Ethics Committee, Senators, Representatives, and Municipalities have been informed in real-time. Since May 06, 2025, the Palm Beach County Federal Bureau of Investigation Special Agent in Charge, Mark McCormick and the United States Attorney for the 15th Circuit Court in the Southern District of Florida, Hayden O'Byrne, Kash Patel, Pamela Bondi, Donald J Trump, have been contacted by priority mailing and email, as able, without a response. Attempts to schedule phone discussions and in-person meeting requests have been ignored.

The People's Grand Jury of Palm Beach County is NOT and has NOT been provided with evidence collected by the people to determine the appropriate constitutional and statutory course of action. The people's request to present the evidence to the grand jury is blocked.

18 U.S. Code § 3332 - Powers and duties

(a) It shall be the duty of each such grand jury impaneled within any judicial district to inquire into offenses against the criminal laws of the United States alleged to have been committed within that district. Such alleged offenses may be brought to the attention of the grand jury by the court or by any attorney appearing on behalf of the United States for the presentation of evidence. **Any such attorney receiving information concerning such an alleged offense from any other person shall, if requested by such other person, inform the grand jury of such alleged offense, the identity of such other person, and such attorney's action or recommendation.**

Fifth Amendment

No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

Blocked access to the evidence of documented “capital, or otherwise infamous crime(s)” to The Grand Jury creates a Federal violation of the **5th Amendment** and requires immediate attention and intervention.

Those, who **injure** the people by **oppression** of constitutional rights of the people, and **intimidate** the people by redirecting and rejecting legitimate concerns and evidence, from the people, thereby denying recourse, may be in jeopardy.

18 U.S. Code § 241 - Conspiracy against rights

18 U.S. Code § 242 - Deprivation of rights under color of law

18 U.S. Code § 241 - Conspiracy against rights

If two or more persons conspire to **injure, oppress, threaten, or intimidate** any person in any State, Territory, Commonwealth, Possession, or District in the free exercise or enjoyment of any right or privilege secured to him by the Constitution or laws of the United States, or because of his having so exercised the same; or If two or more persons go in disguise on the highway, or on the premises of another, with intent to prevent or hinder his free exercise or enjoyment of any right or privilege so secured—

They shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse or an attempt to commit aggravated sexual abuse, or an attempt to kill, they shall be fined under this title or imprisoned for any term of years or for life, or both, or may be sentenced to death.

18 U.S. Code § 242 - Deprivation of rights under color of law

Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments, pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this

title or imprisoned not more than one year, or both; and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death.

Legal counsel, contacted to date, is not interested in taking this most important issue to task. USAFLS-CITIZEN COMPLAINTS@USADOJ.GOV direction, to seek legal counsel to assist, is cost prohibitive to the people. We appreciate your attempt to direct us. But, as legal counsel is sought, are there additional recommendations for action that the USAFLS-CITIZEN COMPLAINTS@USADOJ.GOV can or will give/do to provide recourse for the people?

**Thank you,
God Bless America**

Greetings,

This is Patty Testa from Jupiter, FL in Palm Beach County.

You last heard from me on September 2, 2025 when I replied to an email from you.

I still have been unable to locate legal counsel willing to assist the People of Palm Beach County with our complaints.

The attached letter to USA Reding Quinones was also sent directly to him, from me, by priority mail.

Please forward this to him in the event I do not have his proper email address.

I thank you for your assistance in this matter.

Mr. Jason A. Reding Quinones

United States Attorney

Southern District of Florida

99 NE 4th Street

Miami, FL 33132

**Re: Long-Unaddressed Complaints from Palm Beach County Citizens
Regarding Election Violations and Grand Jury Access**

Dear U.S. Attorney Reding Quinones:

I write on behalf of the People of Palm Beach County, protected by the Florida and United States Constitutions, who since 2022 have delivered credible evidence of election violations, statutory failures, and related offenses to appropriate authorities — including your predecessor — with no meaningful response.

Under **18 U.S.C. § 3332(a)**, any U.S. Attorney receiving information concerning alleged offenses **shall**, upon request, present such information to the federal grand jury. Multiple written requests have been submitted by the People. To date, no confirmation has been provided that these matters were ever presented.

Our constitutional rights under the **Fifth Amendment** (grand jury access) and the **Fourteenth Amendment** (due process) have been denied. As reaffirmed in *United States v. Williams*, 504 U.S. 36 (1992), the federal grand jury exists as an **independent protector of the People**, not a tool of prosecutors or judges. Blocking access to the grand jury removes this safeguard and exposes citizens to unchecked government abuse.

The continued refusal of Palm Beach County officials to address these reports constitutes prima facie evidence of obstruction, conspiracy to violate civil rights under **18 U.S.C. §§ 241-242**, and willful neglect of duty, raising serious concerns about official immunity.

An **attached Summary Record of Relevant Facts** provides a concise chronology of the People's repeated efforts to report violations and seek lawful remedy from 2022 through 2025.

Within 10 days we respectfully request:

- 1) A mutually convenient meeting to review the evidence compiled;
- 2) Clarification of your intended actions pursuant to **18 U.S.C. § 3332(a)**;
and

- 3) Confirmation that these matters will be presented to the federal grand jury as required by law.

The People are prepared to continue seeking justice and welcome your active participation to facilitate a lawful resolution and redress of grievances.

Thank you for your time and service.

Respectfully,

Patricia ("Patty") Testa
