## **Your Restart and Reorganization Plan**

Here is a quick overview of how we can help you to get refocused on your current situation and achieve a doable go-forward business plan. You can choose from the following 2 options and we are happy to help you to achieve a successful restart of your business

### **OPTION 1) THE INITIAL VIEW AT YOUR SITUATION**

- a quick diagnostic of your past and current business situation
- a realistic look at your ability to weather the “storm”
- an overview of the various go-forward scenarios
- a look at how your personal finances are tied to your business

### **OPTION 2) A CONCRETE GO-FORWARD PLAN**

- a financial plan (past/original and revised current/future)
- a detailed plan of your re-start to “normal” business
- a simplified Business Plan for your discussions with your creditors and financial institution to get their “buy-in” of the viability of your business
