

Drill one. Plug one.

**NATIVE STATE
ENVIRONMENTAL**

A landmark program for the Texas oil and gas industry.

1

ORPHAN WELLS

- Non-compliant
- Inactive > than 12 months
- Operator's P-5 is delinquent > than 12 months
- **THE RESPONSIBILITY OF THE STATE**

2

WHY ARE ORPHAN WELLS A PROBLEM?

- Methane Emissions
- Groundwater Pollution
- Surface Contamination
- **THE STATE CAN'T AFFORD TO PLUG THEM**

3

WHY DO WE NEED TO WORRY ABOUT ORPHAN WELLS NOW?

"We have 440,000 wells in the state of Texas today and we have about 130,000 that aren't producing, you have a lot of old vertical wells that will get abandoned...They're going to be coming in greater and greater numbers."

Ryan Sitton
RRC Commissioner

4

NATIVE STATE ENVIRONMENTAL, INC.

is the only nonprofit organization specifically created to meet this lingering threat to Texas and its oil and gas industry partners.

5
