WHAT TO LOOK FOR BEFORE DOING VENETIAN PLASTER ?

January 14, 2023

Venetian plaster is a fantastic interior design technique. Using Venetian plaster, you can paint your walls in different designs and textures. It will give an aesthetic and classy look.

Before going for a Venetian plaster, there are a few things that you need to consider. Let us discuss them so that next time you are up for a Venetian plaster project, you do not miss any important things to consider.

THEME SELECTION

Do not jump in blindly. Always look for an appropriate theme first. There are multiple types of Venetian plaster finishes that you can consider. You can choose anyone from the list that suits best with your modern or classic interiors.

- Metallic finishes (Precious metallic finishes)
 - Seductive light plays
 - Opulent reflections
 - avant-garde design
- neutral color to soft pastels
- rich and intense dark tones

Once you have selected your theme and desired color patterns, the next target is to consult an expert artist who could take charge.

There are multiple artists available who offer uniqueness. Their work is a pure reflection of their unusual creativity.

You can also include iconic images or pop art on the walls at your place. But for any style of decor, you have to hire an expert artist. So select your artist wisely.

Before executing the process, the artist will evaluate your place and help you make the best choice for the theme.

Cover Me Art Venetian plaster services are one of the best options. We are available to work at your place to revive the aesthetic ambiance and give a royal touch to your home.

TEXTURES TELL A STORY ?

"The texture of materials or different surfaces is more than what you see. It is more about what you feel. Every texture has a story and reveals some hidden meanings.."

Venetian plasters are also textures portraying mystical stories. These have their roots connected with the old European culture.

You can still revive that classic European feel in this modern era with these Italian plasters. We at "Cover Me Art" use the latest marmorino tools to bring technology and tradition into close association.

We have a wide variety of options available for you. You can choose the textures of your own choice, which symbolize your taste. We will use them to redesign your wall and bring the aesthetic vibes you crave.

Choose from the different options from our collection, and let us do the rest for you. You can choose any options for modern or classic interiors, and we will give life to personally-created products that will blow your mind.

The significant part involved in this all is the process. We use historical raw materials, and the mineral finished of the highest quality that no architects and designers do in modern times. We implement modern techniques, but only to a small extent that it does not mask the traditional touch in any way.

We are solely reviving the old traditional ambiances by following traditional patterns. The final product speaks for itself. Once done, you will witness how "Textures tell a story."

If you want to get it done at your place, reach out to us and share your ideas. We will do the rest for you
