Africa

Rivestimento decorativo per interni ad effetto metallizzato

Applicare AFRICA in due strati, con rullo di pelo corto o spatola inox. Ripassare l'ultimo strato ancora umido con spatola inox, per ottenere una soffice damascatura.

Resa: 8-10 m²/l in due strati. Per maggiori informazioni consultare la scheda tecnica.

Decorative architectural trowel-on coating with stunning metallic patterns

Apply AFRICA in two layers with a short hair mohair roller or a stainless steel trowel. Compress the second layer while still wet with a stainless steel trowel.

Yield: 8-10 m²/l in two layers. For more information please check the technical data sheet.

Revêtement décoratif pour intérieurs à effet métallisé

Appliquer AFRICA en deux couches avec rouleau de poil court ou truelle inox. Travailler la dernière couche encore humide avec truelle inox, pour obtenir un souple effet damassé.

Rendement: 8-10 m²/l en deux couches. Pour plus d'informations contrôler la fiche technique.

Dekorative Innenwandbeschichtung mit metallisiertem Effekt

Zwei Schichten AFRICA mit eine Roller oder einem Edelstahlspachtel auftragen.

Mit einem Edelstahlspachtel über die noch feuchte Oberfläche streichen, und diese so bearbeiten, dass ein weicher Damast-Effekt erhalten wird.

Ergiebigkeit: 8-10 m²/l in zwei beiden Schichten. Für weitere Info bitte siehe technisches Merkblatt.

Le tonalità qui riprodotte, pur avvicinandosi a quelle di fornitura, sono indicative.

Per una corretta lettura dei colori si raccomanda di consultare questa cartella alla luce solare.

NEW COLORS: Green approach

Africa sorprende con texture morbide e vellutate, per interni eleganti e trend-setter. È un rivestimento decorativo per interni a base di cariche metallizzate che permette di creare giochi di luce e trame tattili e di forte impatto estetico.

Africa è la migliore espressione dell'impegno di Novacolor verso il "green approach": per salvaguardare le risorse fossili questi 5 nuovi colori contengono un legante speciale derivato da biomassa, grazie all'innovativo "mass balance approach". Africa contribuisce alla riduzione della formaldeide in ambienti interni.

Africa surprises with velvet visual sensations and elegant and trend-setting textures. Africa, the decorative coating for metallic effects, is capable of creating light and reflection games.

It is the best expression of Novacolor's commitment to the "green approach": to save fossil resources, these 5 new colors contain a special binder derived from biomass using the "mass balance approach".

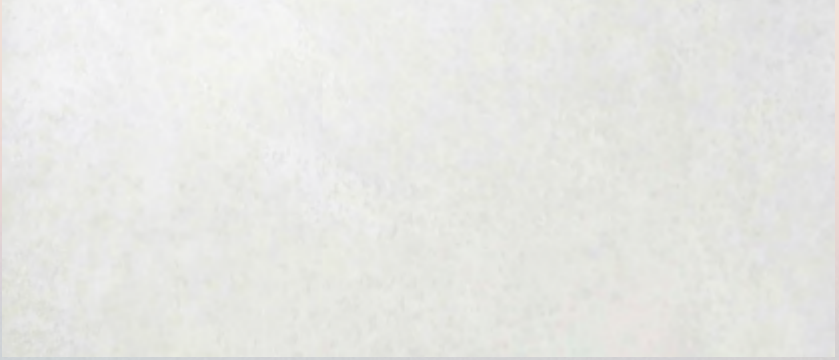

Africa reduces the concentration of formaldehyde that may be present in a closed environment.
