The Complete Accounting & Inventory Management Software
(Offline / Online Versions available)

Help Line : +91- 85 93 01 01 02

In Today's Scenario, No doubt, there are different type's software users i.e. Stand-alone Users, Integrated System Users and Highly Unique Users. These have their different aspects regarding software at the time of purchase. Stand-alone Software Users demands for software which is highly customizable as well as flexible. Integrated System Software Users, these are the Users who have to do large amount of accounting in which they have to do lesser amount of manual work. Highly Unique Software Users are the Users which need software which will meet up the requirements of their business.

Hash understands the demands of all different users, so Hash decided to design GST software for Billing & Accounting which is capable of fulfilling the requirements of users. Hash GST Software for Billing & Accounting can be customized as per the business you are doing without any hassle. In Hash GST Software you can convert your bill in any format you need as well as send the bills through email, which will save your plenty of time. This will ensures that invoices will be distributes with higher degree of automation. Even there is a provision of sending bill through SMS if one is out of reach of his mail. You can also switch over anywhere from bill to bill which saves consumption of time. There is a provision of checking the back date stock position at the time of billing. There are many such small -2 provisions which help you in maintaining & managing larger amount of billing in much lesser sort of time. The best part of the software is its reporting. There are so many multiple types of reports which will help in comparing your sales and purchase, profit and loss through which you can think of the betterment of the sales.
