

Enrichment plan Rev 01

As a business we deal in quality over quantity, every dog will be treated as part of our family during its stay, the dog is also on holiday whilst it stays with us. Every attempt will be made to make the stay the best it can be. Any feedback from the dog's owner will be taken into account and acted upon only to improve our services.

- All dogs will receive the amount of one-on-one time stated by the dogs' owners that it needs.
- As a company we will endeavour to research any breed of dog we are not used to dealing with to provide all the comforts the dog requires. Also, to learn the ways in which the dog interacts and plays.
- Play time, walk times and lengths will be set to benefit the dog and the owner's requests.
- All dogs staying will receive the attention they require, any dog with special needs will be catered for, ie: need to sleep in the same room as people.
- We use play with toys, treats as a reward if agreed by the owners.
- Any dog needing alone time will have this set aside for their use. A quiet Area is always available.
- If a dog is under training, we will carry on this during the dog's stay to the owners' requirements.
- Dog grooming is available in the form of baths and brushing if requested.
- Interactive play is always used and introduction to other dogs at play and general socialising be it at home or out and about.
- In warm weather a dog pool is available to play in and keep cool.
- Dogs will be monitored constantly, checked after every walk, for ticks, parasites, any form of injury and general cleanliness.
- The dogs entering our home are part of our home and treat like part of the family for the duration of the stay.

- To enable the owners to feel at ease we will if permission is given take photos and send them to them by social media either privately or on public forums so they can see how their dog is progressing during their stay.
- All walks will be fun and varied destinations so the dogs will be seeing new places and keep their enthusiasm rather than the same walk every time.
- Any dog that cannot be walked due to medical reasons will have special measures put in place to the owners and vets stipulations.
