

COMPANY PROFILE 2025

## ABOUT US

Emerald Drainage & Civil is an Auckland based subcontractor providing reliable drainage, civil and infrastructure solutions across all sectors. Our team of dedicated and certified professionals brings extensive knowledge and years of experience in the civil construction industry.

As a **versatile subcontractor**, Emerald is a partner you can depend on. We collaborate with top-tier companies and contractors and are committed to continuous learning and innovation, always challenging ourselves to achieve the most optimal results. Our goal is to make an impact in New Zealand's construction market. Utilizing the latest technology and machinery, we excel in delivering new solutions as well as replacing or maintaining the existing ones.

We prioritize our clients' satisfaction by adhering to budget and timeframe without compromising on safety or quality of our work. Our team operates efficiently, demonstrating a high degree of diligence while respecting the environment and surrounding communities. In the current challenging construction market, we offer in-depth knowledge of industry standards from both Europe and New Zealand as well as competitive rates. You can rely on our innovative and creative thinking at all times. We take pride in the work we leave behind.
