

Spex•Lite® 2511 Sand Alternative for GFRC

Spex•Lite® 2511 is an excellent sand replacement for GFRC applications for the following reasons:

- ~25% Lighter Than Sand
- Provides Weight Reduction of Finished Parts
- No Free Silica Hazard Warnings!
- Very Tight Particle Packing
- Consistent and Fine Grain Size
- Smooth Surface Profiles
- Pumpable and Easy to Finish
- Low Dust
- Binder Compatibility
- Covered by Issued and Pending Patents

2511 vs Sand
