

SPEX•LITE®

Spex•Lite® Ultra Light Filler Beads for Roofing Compounds

PRODUCT: Spex•Lite® 6724 are small EPS beads proudly made in the USA. They are nontoxic, ultra lightweight, and absorb essentially no liquid, making them an ideal low-cost resin extender for roofing compounds.

+ Adding only **20%** of the **Spex•Lite® 6724**
by volume to a roofing compound results in approximately:
(That's only 0.03# per gallon)

= **20% improvement in**

Material cost

Freight cost

Product weight

Improved material flow
