2023 QFT Community Coop©

## **Welcome to the Quantum Era!**

In this QFT Community Guidebook, we will go over the different types of Quantum Future Technologies that can and will change our planet for the better. We will show you what it takes for it to happen and how to get involved.

So, how does humanity save the earth? Simple, we have to clean it up. Our QFT goal we set is to reduce the world's garbage & waste by 80% over the next 10 years while improving the quality of life for all. Let's dive in!

# WELCOME

# QUANTUM TECH

---

## **Regeneration & Replication**

The processes of macro material breakdown through crushing and dehydration then the replication of Regen into new useful items.

With these technologies we can Regenerate mixed plastics and dry waste materials into new products and useful items to help humanity while reducing waste in and going to landfills.

## **Atomization**

The process of micro breakdown of any type of waste wet or dry into simple usable atomic structures such as  $H_2O$ , H, C and fuels.

With this technology we can transform all landfills, waste water, and toxic waste dumping sites to atomize all waste into usable atomic structures.

## **Scalarization**

The process of creating and converting energy from the unlimited Quantum field to power homes, vehicles, power plants and much more.

This type of energy is well known as Tesla's "free energy" that should have already been implemented decades ago. Due to the greed of powerful people humanity has been stuck with pollutant archaic tech, we say not anymore! For more details see our [Quantum Tech page here](#).

# GET INVOLVED

The only way we can accomplish bringing forth of the **Quantum Tech Revolution** is with people like you! We need your help and frankly all of humanity's help to pull this off.

**Why?** It's a MASSIVE undertaking that requires a grassroots style implementation. By working with individuals, their communities and local businesses we can transform our planet from over polluted garbage heaps to a cleaner healthier place where humanity and nature thrive.

---

## **Join QFT & Register Your Community**

01

Simply go to our website and sign up. We will send you updates as our organization develops. It's free and there's no obligations, we kindly ask you to share our website, social posts and to create your own posts to spread our mission to save our planet. [Register your community here.](#)

## **Become a QFT Ambassador**

02

A QFT Ambassador is an individual that is an official promoter and will have the opportunity to become an early stage tester of QFT Quantum tech projects. It's free to sign up by filling out the [QFT Ambassador application.](#)

## **Become a QFT Donor & Sponsor**

03

You can help further our mission by donating, buying QFT Swag and by becoming a sponsor. [Full details are listed on our website.](#)

---

# NEXT STEPS

*Thank you!*

Join us at our website below by **registering today**. Thank you for helping us create positive change in the world together through communities.
