Complete Design and Engineering

Do you have a complex project design idea but are unsure on how to execute it? There is no need to worry. We offer a complete design and engineering option to make your custom metal fabrication dream come to life.

Our manufacturing capabilities include:

- 1 Mitsubishi fiber laser
- 2 CO2 lasers (1 Mitsubishi and 1 Trumpf)
- 8 Trumpf CNC brake presses
- 2 Trumpf CNC punching machines
- 1 CNC automatic saw cutting machine
- 2 3-axis milling machines
- 2 rolling machines
- 3 Pem insert machines
- 2 tapping machines

CERTIFIED ISO 9001:2015 COMPANY

We provide complete assembly services, along with:

- MIG welding
- TIG welding
- Laser welding
- Spot welding
- Stud Welding

CWB™ CERTIFIED CSA W47.1

Our material capabilities include:

- Steel
- Aluminum
- Stainless steel
- Galvanized steel
- Copper
- Plastic
- Additional grinding and polishing services available.
- Painting services are outsourced to trusted partner.
