ZUMA® Cantilever Chairs

The organic curves of the ZUMA® cantilever chair mimic nature's non-linear flow, providing an elegant alternative to the hard-edged institutional look that afflicts so many classrooms. The intrinsic flex of the cantilever chair provides surprising comfort - lean forward for typing or note taking and the frame firms up; lean back and it relaxes. Three seat heights let you bring cool, supportive ZUMA cantilever seating to elementary schools, college campuses or anywhere in between.

10 YEAR LIMITED WARRANTY

Prima Seating warrants its products to be free from defects in material or workmanship and will repair or replace any defective product or component.

Limitations: Seating controls and other steel components are warranted for a period of five years. Pneumatic cylinders, casters and polymer-based components are warranted against structural failure for three years. Upholstery is warranted against unusual wear or deterioration for two years.

This limited warranty is the only express warranty given, applies only to the product, and does not cover damage, breakage or loss after manufacture arising from accident, misuse, excessive loading or failure to assemble or maintain the product properly. The manufacturer and distributor are not responsible in any way for any loss, or consequential damage caused by any product defect.

This warranty is effective only to the original retail purchaser together with the sales invoice, from purchase date, for normal commercial use (single shift, 40 hour work-week). This warranty does not apply for loads exceeding 120% of normal weight as defined by the American Medical Association.

Warranties implied by state law, including the implied warranties of merchantability and fitness are expressly limited as set forth above, except warranties implied by state law. The foregoing limited warranty is exclusive and in lieu of all other warranties concerning the repair or replacement of any products or components. This limited warranty gives you specific legal rights. You may also have other rights, which vary by state.

Flip-Top Technology Tables – Features

Security

Each flip-top compartment locks for security.

Connectivity

A generous port at each end of the flip-top compartment enables the networking of tables with power and data lines.

Spacious

With 5 1/2" of top-to-bottom storage capacity, 6" deep flip-top compartments provide lots of space for wires, cables and surge protectors.

Clean Design

A subtly contoured cut-out at the rear of the work surface enables wires and cables to be routed into the flip-top compartment.

Locking Mechanism for Wishbone and C-Leg Designs

Virco's patented locking mechanism adds strength, security and convenience to our wishbone and C-leg designs. When setting up tables, simply unfold each leg with an outward motion to extend the hinges and engage the gravity-lock pin. To return legs to a folded position, set the table on its side and push the gravity-lock pin toward the table top, disengaging the pin from its locked position and allowing you to easily complete the folding process.

Round Table Leg Features

Round Core-a-Gator tables have a convenient spring clip mechanism that securely locks unfolded legs in position (left). Folded legs are held in place by injection-molded retention clamps for safe transport and storage (right).

The Core-a-Gator® Advantage

Shock Absorbent ABS Plastic Corner Bumper

Sturdy, reinforced corner construction resists denting, splintering and related damage.

Edge Mold Bumper

An inner ABS edge mold bumper gives the table added protection.

Durable ABS Plastic Top

Strong, lightweight ABS plastic provides a long-lasting, colorfast top surface.

Unique Corrugated Center

A patented core design combines first-rate strength with convenient, lightweight utility.

Apron Stacking Bumper

An ABS bumper on each corner helps protect the tops of stacked Core-a-Gators.

Durable ABS Plastic Bottom

Like its top, the Core-a-Gator bottom is made for rugged, reliable performance.

Strong Adhesive Bond

Extensive bonding areas between top and bottom surfaces deliver superior durability.

Aluminum Leg Attachment Plates

Legs are anchored to the underside of the table top through multiple aluminum plates.

Decorative Edge Banding

An ABS bumper on each corner helps protect the tops of stacked Core-a-Gators.

Aluminum Frame

A lightweight, extruded aluminum frame adds strength and support to the table.

Core-a-Gator® Leg Features

All 24", 30" and 36" deep Core-a-Gator® models are equipped with Virco's heavy-duty wishbone-style legs. Narrower 18" tables come with strong, high-performance C-legs. Round models feature a sturdy straight leg design. Adjustable height legs are featured on half-round models. Each of these leg styles gives you more room to comfortably stretch your own legs beneath Core-a-Gator tables.

Parameter® Series – Administrative & Teacher Desks

The Parameter Series desk collection, developed in collaboration with award-winning designers Peter Glass and Bob Mills, includes a variety of stylish furniture for the classroom or office; all offering a fixed-height of 29½" and high-pressure laminate work surface. Whether you need single or double-pedestal desks, L-configuration workstations, or desk/credenza combinations, Parameter® offers lots of exciting furniture choices for teachers, principals and administrators.

TOPS
A 1½" thick high-pressure laminate top with color-coordinated edge banding rests on ribbed riser blocks for a "floating" appearance.

LOCK
All drawers in each pedestal are controlled by a centrally positioned core-removable lock.

GROMMET
Parameter grommets let you readily route multiple wires and cables beneath the work surface.

RISER BLOCK
Riser blocks direct cables from the desktop into the Parameter modesty panel's wire management trough.

WIRING
Parameter manages cords and cables with a hinged grommet above each riser block. By then moving neatly through the riser block's internal chute and into the modesty panel's generous wire trough, cords and cables don't dangle behind or beneath the work surface.

MODESTY PANEL
Parameter's perforated steel modesty panel includes a wire management trough for organizing wires and cables.

PEDESTAL
With heavy-gauge steel construction, elegant designer drawer pulls, and full-extension ball-bearing slides, Parameter pedestals combine good looks and reliable performance.

FILE STOPPER
File drawers come with a sliding backstop to help organize files.

ADJUSTABLE FOOT
Sturdy Parameter feet have a 1" adjustment range; selected models are standard with twin-wheel locking casters for mobility.

STAND-ALONE DESKS

Available with a variety of top sizes and pedestal drawer configurations, Parameter stand-alone desks are great for teachers, administrators and support staff. Caster options allow for mobile classroom workstations while help desks with a rounded top on one end are ideal for helping students one-on-one with their work.

24" Deep Desks

NOTE: "C" at the end of the model number designates a model with casters. Files can be assembled on the left or right side.

30" Deep Desks

NOTE: Pedestals can be assembled on the left or right side.

Help Desks

NOTE: "C" at the end of the model number designates a model with casters. Pedestals can be assembled on the left or right side.

L-Configuration Help Desks with Standard Returns & Peninsula Returns

NOTE: Desks can be assembled with L-configuration facing left or right. Box/box/file and file/file desks are interchangeable on models with standard returns.

L-Configuration Desks with Standard Returns & Peninsula Returns

NOTE: Desks can be assembled with L-configuration facing left or right. Box/box/file and file/file desks are interchangeable on models with standard returns.

Credenzas

Parameter gives you a choice of stationary credenzas with adjustable feet, or mobile models with casters. Maximize the storage capacity in your workspace with solutions that offer functionality and style.

NOTE: "C" at the end of the model number designates a model with casters.

FIREKING® TURTLE® FILE CABINET

Not too big, not too small. It's just the right size.

Protect your important documents and computer media from unforeseen disasters. With its compact 22" depth and offered in 2- and 4-drawer vertical models the Turtle® files are a perfect fit for your home office or small business. Turtle® files are fire and impact rated for paper and computer media. Both letter- and legal-sized documents can be filed in a Turtle® and a 4-pin key lock is standard. Turtle® files are available in Arctic White (AW), Black Stone (BS), and Parchment (PA) colors.

FIRE PROTECTION FOR PAPER DOCUMENTS AND COMPUTER MEDIA

The shell-hard, Turtle® line of products underwent grueling testing procedures to ensure that it passed intense fire and impact ratings. With ratings of UL 1-hour Class 350 for paper, a 30 minute ETL verification for computer media and a 30 foot impact rating; each and every highly durable fire rated file cabinet has been meticulously designed and tested to offer the highest quality asset protection. Coupled with compact and flexible filing, the Turtle® vertical file cabinets are perfectly designed to meet your unique home, personal office, and/or small business needs. Whether you are safeguarding everything from your birth certificate and passport to your valuable business records, you will find the protection you need from FireKing®.

- Letter- and legal-sized filing
- Recessed handles
- Replaceable panels

Model No.	Description	Exterior (H x W x D)	Approx. Shipping Wt.

Accepts both legal- and letter-sized documents using a front-to-back or side-to-side filing system.

SPECIFICATIONS

RECOMMENDED FILING ARRANGEMENTS FOR 2- AND 4-DRAWER VERTICAL FILES

FIRE AND IMPACT RATING

The FireKing® Turtle® carries the Underwriters Laboratories® "Insulated Records Container" classification, which includes a one-hour fire test of 1700°F, an explosion hazard test and a 30-foot impact test.

ETL RATED FOR COMPUTER MEDIA

The FireKing® Turtle® is verified for digital media protection. Intertek ETL verified to protect hard drives, CD's, DVD's and flash drives from heat exposures up to 1550°F for 30 minutes.

INSULATION

The FireKing® Turtle's casting is of 100% gypsum insulation, and insulation between all drawers makes each drawer a separate insulated container.

STEEL PANELS

All exterior FireKing® Turtle® steel panels are replaceable in the field in the event of minor damage.

FINISH

An electrostatically applied powder coating makes for the FireKing® Turtle's superior scratch, scuff and stain resistance. Plus, a five-stage pre-finishing treatment is provided for unmatched adhesion and rust resistance.

DRAWERS

Suspension: A precision ball bearing telescoping suspension, bayonet-mounted to each drawer body, is securely mounted with screws to metal posts in the FireKing® Turtle's file body.

DRAWER BODIES

Each FireKing® Turtle® drawer body is built with high sides for use with hanging folders – no additional frames are required. Drawers are suitable for both letter- and legal-sized filing. For letter-sized documents, use a front-to-back filing method; for legal-sized documents, use a side-to-side system.

DRAWER HEADS

FireKing Turtle drawer heads are formed of welded steel and filled with gypsum insulation. The drawer heads are designed for a tight interlock with the cabinet frame – making the drawers extra-resistant to heat transfer.

DRAWER LOCK

A four-pin key lock provides general locking of all FireKing® Turtle® drawers.

DRAWER BYPASS

In its "up" position, a two-position drawer catch allows that drawer to stay unlocked while all others remain locked.

DRAWER PULLS

Recessed for better space utilization.

FREE REPLACEMENT GUARANTEE

If your FireKing® Turtle® is ever required to protect your information in a fire, we will replace your FireKing® Turtle® free of charge and ship it freight collect to the original owner.

MimioBoard 781T, 781TW, & 871T touch board

Enhance classroom collaboration with an interactive touch board that's also a conventional dry erase board. Up to ten single-point touch users or five dual-touch and gestures users can work simultaneously at this easy-to-install board.

Enjoy touch technology designed for real classrooms with an interactive board that offers collaborative learning and an unprecedented touch experience. With Touch 360° interactivity, up to ten students can work together simultaneously at this easy-to-install interactive whiteboard. Their control and touch experience will be fast and precise no matter where they are working on the board. Whether you choose the 78 in. (available as 4:3 or 16:10) or the 87 in. (16:10) model, you'll get a projection-optimized touch board with an erasable surface.

- Part of a complete interactive solution that includes MimioStudio™ classroom software, which allows you to create lessons and collaborative activities, as well as perform formative assessment.
- Up to ten single-point users or five dual-touch and gestures users can work together interactively at the same time with the class, increasing student engagement and driving collaborative learning.
- Erasable surface allows teachers to use the classroom-rugged touch board for their normal whiteboard activities.
- Lessons come to life on this projection-optimized nano-coated surface.
- The lightweight touch board typically installs in less than 10 minutes with included mounting brackets.

"Knowing that multiple students can work collaboratively on this board is incredible! The learning potential exceeds any other technology I've had the opportunity to work with."

Jen Maher, Computer Teacher
St. Patrick's Elkhorn

WHOLE-CLASS LEARNING

MimioStudio software—so easy to use and engaging, your teachers will use it every day.

The MimioBoard touch board includes the dynamic MimioStudio classroom software. It connects the Boxlight Mimio products, so using other tools—from the document camera to the pen tablet—is quick and easy. MimioStudio software allows educators to create interactive lessons and collaborative activities, and perform real-time formative assessment. The software also opens other IWB activities, enabling educators to use the interactive content they already have. **Take learning even further with our MimioMobile™ app, which brings group learning and collaboration to almost any device.**

Classroom Projectors

Deliver engaging instruction and have multiple students work together on large projected lessons—without breaking your budget. Backed by 24/7 support, classroom software, and our online educator community, our projectors are designed for the classroom!

Our P9 and Cambridge projector lines bring standard- or short-throw projected images and collaborative areas to your classroom. We offer both interactive and non-interactive projectors, making interactivity and brilliant images a reality—including the only standard-throw interactive projector available.

- Complete education solution—our P9 interactive projectors come with easy-to-learn and easy-to-use MimioStudio™ classroom software.
- Our classroom software and MimioMobile™ app enable collaboration and assessment either at the front of the room or on almost any student device.
- Our solution makes it easy to gauge and personalize student learning.
- Replace your outdated or failing projectors with a Cambridge projector and get up to 3,700 lumens of brightness!
- Add on our low-cost bulb replacement program and never worry about blown bulbs for the life of your projector.
- Analog and digital audio/video connections ensure compatibility with virtually any PC.
- Ethernet LAN connectivity enables central management and control.

"The interactive tool and MimioStudio are a huge time-saver, making [me] not only more efficient in my classroom, but also much more effective.

Bench and Table Features

Virco's unique straight outer-cantilever-leg extension design helps prevent table rocking that can occur on typical tables with a radiused outer leg design.

All tables come with a center hole, making it easy to install a patio umbrella. (umbrellas are sold separately)

Bench seats feature an innovative bracket design with additional mounting holes, allowing for customizable seat adjustments.

All frames include a welded tab with predrilled holes for surface mounting.
