

# SAVE TOWN PARK at TONGORE, PROTECT COTTEKILL

**Vote for our endorsed Democratic candidates,  
Doug Adams, Susan Sprachman, and Daisy Foote**  
whose beliefs are supportive to environmental preservation,  
protecting our forests, farmland, waterways and historic homes.

## PROTECT COTTEKILL

## SAVE TONGORE

We, of The Cottekill Coalition which includes Concerned Residents of Marbletown and ProtectMarbletown.com do not feel this community needs or wants a second Town Park.

Marbletown already has a Town Park at Tongore Rd that is of surpassing beauty and has deep significance for our families for many years. What is needed is improving Marbletown Park at Tongore and adding a swimming area, either pool or pond, to replace the closed swim beach. The current Town Park lists on its website: volleyball, ballfields, playgrounds, picnic area, basketball court and a pavilion available for private and public events and a summer camp for children.

- There is no rationale for hacking into Cottekill area's natural 52 acres of wild land and offer ballfields and toilets.
- Why a new municipal park to create more ballfields? We already have 9 in town and 1 underused actually on campus.
- There is NO adjoining land at the site to SUNY—only private families and farmland adjoin the parcel.
- This parcel has been unused by SUNY for over 50 years. There are good reasons it has never and should never be developed.
- Brutal deforestation of this 52 acre parcel would seriously destroy the delicate ecology here. We feel this is brutal deforestation.
- This is the exact parcel eliminated by the Legislature for building for the fire training center in 2017 because of “significant development challenges—high water table and federal designated wetlands.”
