

The ExploreMore! program invites you to join us for... Explorations!

January 11, 18, and 25 from 6-9pm

Join us in January 2019

Whether your child is interested in Minecraft, singing, or making slime, they are sure to find something to love at any of our three theme nights. Our first weekend will be an introduction to STEM with two classes for each age group focusing on engineering and chemistry. The next weekend will focus on the Arts including a Performing Arts class and Mandala creation. We finish up the January program with a Technology night focusing on Minecraft programming and robotics! The switch to Friday evenings allows parents to have a night without the kids while the kids learn about the world around them! Each session is \$50, and a discount is available for those who sign up for all three sessions!
