Summer 2024 Classes

K-3rd Grade:

- **The Artist Studio**

Get ready to create art like some of the most famous artists! In this class we will be exploring the techniques used by some of the most amazing artists in history. We will work just like the artists using a variety of mediums. Join as a student and leave as an ARTIST!

- **Dino-Mite!**

Paleontology is not just the study of our prehistoric predecessors, but it is also about the environment in which they lived. How did the dinosaurs eat, travel, and survive? Do you think that you have what it takes to solve the mystery of the extinction of the dinosaurs?

- **Ooey Gooley Science**

Learn the scientific method through hands-on activities. Create and explore a variety of substances. Use your imagination to think like a scientist. Develop your thinking and investigative skills through this fun exploration and get messy!

- **Act It Out!**

There is no such thing as being overdramatic in this class! Students will learn different acting exercises to help them grow as actors. Our stars will practice their improvisation skills and how to have a strong stage presence. By the end of our rehearsals, students will have new skills in improving and stage acting!

- **Lego Engineering**

Jump into the world of Legos to design works of art, architectural structures, and test the laws of physics.

All disciplines will be covered in this class from fine art to physics.

4th-6th Grade:

- **Chess 101**

You will learn all about the world of chess and strategies you can use to impress your family and friends. Explore the history of chess and master the opening, middle, and moves for the end of the game. Thinking skills learned in chess can be applied to many aspects of life. Hone your skills and see how you fare in our end-of-session tournament.

- **Brain Boosters 101: Unleashing Executive Superpowers**

This dynamic course is designed to empower students with essential executive functioning skills. In this engaging program, young learners will embark on an exciting journey to enhance their abilities in organization, time management, self-control, problem-solving, and goal-setting. Through interactive activities, games, and real-world scenarios, students will develop the tools and strategies needed to navigate challenges with confidence. Join us on this adventure as we nurture the growth of resilient, resourceful, and successful young minds, laying the foundation for a lifetime of academic and personal achievement.

- **The Artist Studio**

Get ready to create art like some of the most famous artists! In this class we will be exploring the techniques used by some of the most amazing artists in history. We will work just like the artists using a variety of mediums. Join as a student and leave as an ARTIST!

- **Act It Out!**

There is no such thing as being overdramatic in this class! Students will learn different acting exercises to help them grow as actors. Our stars will practice their improvisation skills and how to have a strong stage presence. By the end of our rehearsals, students will have new skills in improvising and stage acting!

- **Mythical Adventures with Percy Jackson: Unveiling Greek Legends for Young Heroes**

If you love ancient history (or think you might), go back to Ancient Greece to explore Greek mythology. Why were these myths told? What are some of the more common myths? Are there connections between the various stories? In this class, you will learn about the gods and goddesses on Mt. Olympus and seen throughout the tales of Percy Jackson. We will explore Greek mythology through hands-on activities and games.

- **Let's Dig It - Archeology**

This hands-on course offers an immersive exploration of ancient civilizations and archaeological techniques. From excavating artifacts to deciphering ancient scripts,

students will uncover the mysteries of the past while honing their critical thinking skills. Join us for an unforgettable adventure where history comes to life!

7th - 8th Grade:

Our 7th & 8th grade session will be from 9-12:15 and students will take both classes.

- **Brain Boosters 101: Unleashing Executive Superpowers**

This dynamic course is designed to empower students with essential executive functioning skills. In this engaging program, young learners will embark on an exciting journey to enhance their abilities in organization, time management, self-control, problem-solving, and goal-setting. Through interactive activities, games, and real-world scenarios, students will develop the tools and strategies needed to navigate challenges with confidence. Join us on this adventure as we nurture the growth of resilient, resourceful, and successful young minds, laying the foundation for a lifetime of academic and personal achievement.

- **Archery**

Students of all skill levels will be aiming at mastering the sport of Archery. Our NASP coaches will guide them through the week, ending in a mini-tournament on Friday to show off their new and improved skill sets.
