SHAREABLE TOPIC

With **Shareable Topics** you can easily get resources out to specific audiences you connect with. Add and curate resources within the topic to your heart's content. Users can easily add your custom topic directly to their Personal Profile - making your topic part of their homepage. You can add, delete and edit your topics and resources and they are immediately updated everywhere.

ONBOARD for teams

- ✓ We get to know your team's purpose, goals & unique situation
- ✓ We take your team through a visual mapping process to identify relationships and resources
- ✓ We prepopulate your Team Profile and Resource Collection for you
- ✓ We teach you to use your Profile and Collection most effectively
- ✓ Custom support plans are available where we help you maintain and grow your team's CommunityScape

Frequently Asked Questions

Why is CommunityScape the best way to organize our online relationships and resources?

We have designed our platform with the express purpose of being the best way to organize relationships and resources across complex organizations and communities. There is no advertising, no data exploitation, no trolls - just a real partner working with you to organize your online world.

What are some ways that teams and organizations use their CommunityScape?

Groups and small organizations generally build their Profile and Resource Collection around their central purpose (e.g. environmental education, showcasing the arts, regional tourism, growing entrepreneurship, science education, etc). Larger organizations might start with a focused project such as a cross team initiative or a cross-organizational project. However you choose to initially focus your CommunityScape, there is lots of room to learn, adapt and grow.

What will the process be like for creating our CommunityScape?

Our aim is to make the process to building and growing your CommunityScape creative and fun. No matter which package you chose, our process offers the opportunity to engage with the deep capacity and richness of your community ecosystem. Each time we work with a new client, we walk away renewed and inspired. We think you will too!

How do we maintain our CommunityScape?

Our platform is designed to make it easy for you to add relationships and resources. Our basic maintenance plan allow us to keep all your tech running smoothly. We also work with our clients and users to continually adapt, improve and add new features. Our maintenance *plus* plan gives you an account representative that is here to help you make your CommunityScape successful. You can contract for additional Community Engagement Specialist time to help you grow your CommunityScape relationship and resource infrastructure.

Will our CommunityScape grow with us?

Everything is connected in CommunityScape. Over time, it is easy to connect Resources, Topics, Profiles and Collections together into a full-bodied infrastructure.

How do we get started?

Visit www.communityscape.life/contact to start a conversation about the best approach for you.

Team Profile & Collection

We build a customized Profile and Collection for your group, team, or organization. Your team populates resources and relationships using our self-guided onboard process.

Team Profile & Collection *Plus*

We build and populate a customized Profile and Collection for your team, group or organization - facilitating your team through our resource mapping and design process.

Shareable Topic

We build you a custom shareable topic. This allows you to manage a set of resources that users can add to their Personal Profile.
