

introducing

exactwater

*Applying the physics of water usage
into a revolutionary cost saving device*

Installs In Hours - No Maintenance - Works Around The Clock

120-DAY EFFICIENCY GUARANTEE

exactwater works around the clock with no maintenance.
We set it and savings begin – **GUARANTEED**

Minimizes Air Volume

condense air inside water to stop meter
overcharging \$\$ everyday

Regulates Flow Rate

prevent surging and suction due to utility system
malfunctions and fluctuations
Controllable Water

Conserves Water

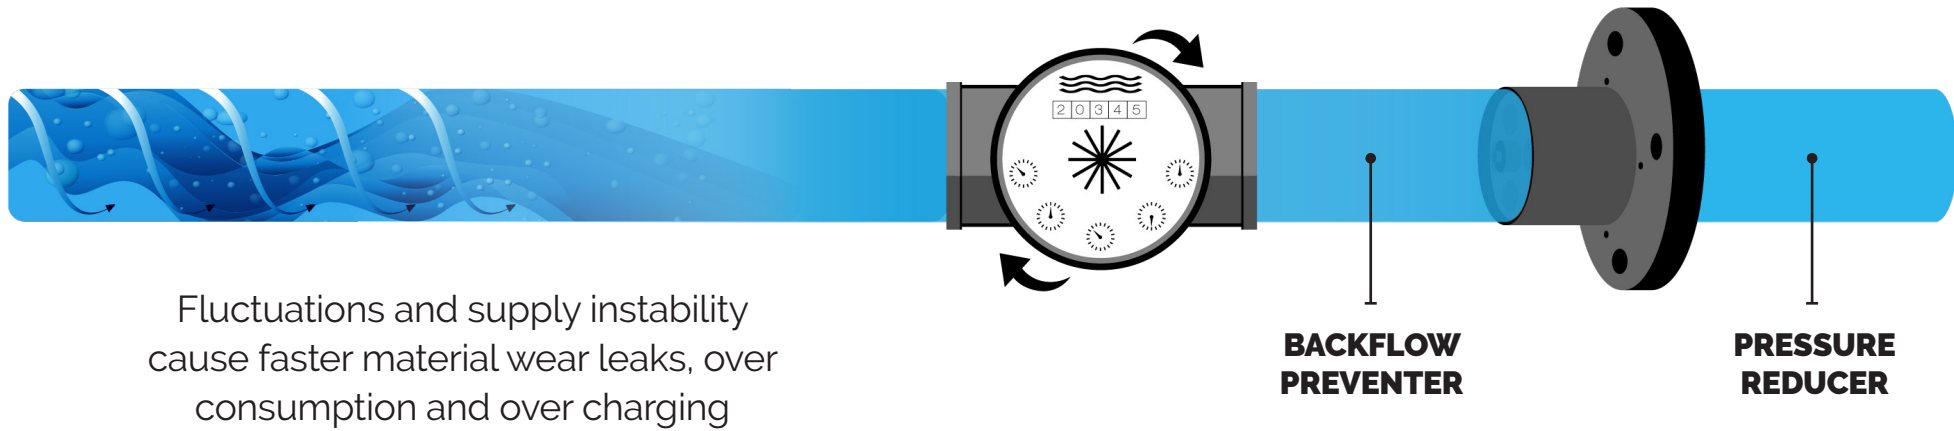

for the first time ever—random and wild water use
becomes controlled by...exactwater

Eliminates Turbulence

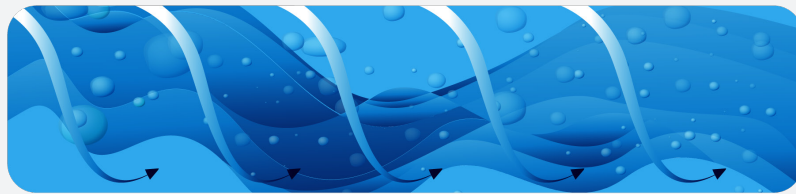

smooth the motions within water columns so
steady flow rate can be achieved

Pressure

easily and precisely set the water pressure
allowed to pass through user's system

Fluctuations and supply instability cause faster material wear leaks, over consumption and over charging

Exactwater effect on water supply

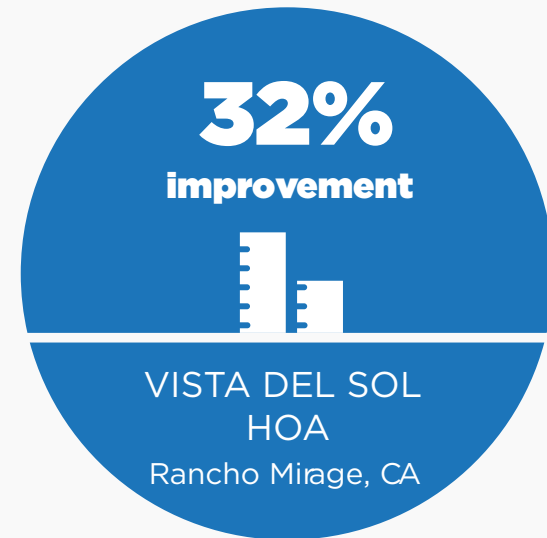

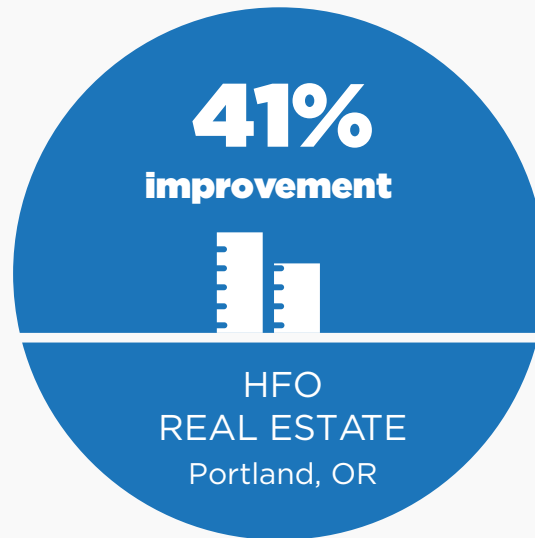

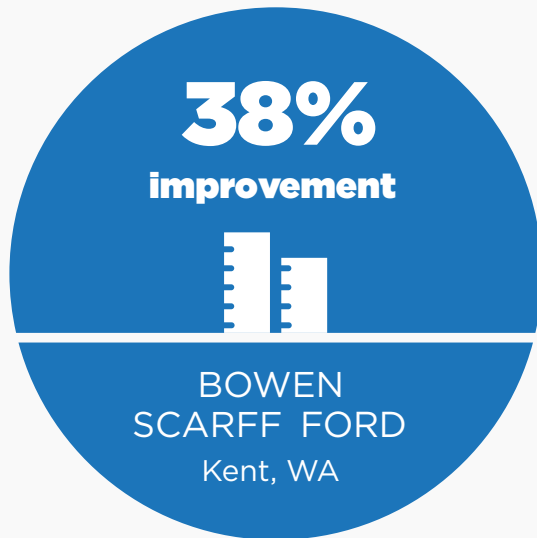

It works 24/7/365 with no maintenance needed. All you have to do is set it and forget it. The only difference you will notice will be in your wallet.

WE GUARANTEE IT

THOUSANDS ALREADY INSTALLED

Immediately see usage and cost drop as much as 30%+ on the entire water system!

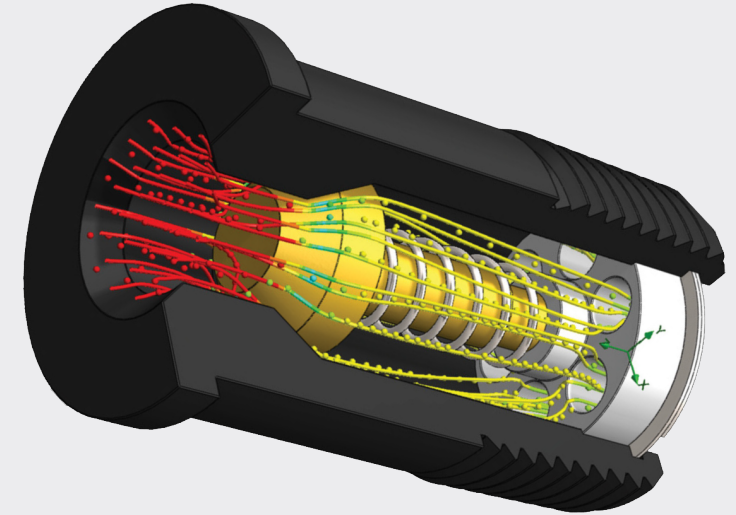

TEXAS A&M SCHOOL OF ENGINEERING – INDEPENDENT TESTING WITH CONTROLS

PUBLISHED RESULTS:

- Downstream and Upstream pressure spikes in system decreased
- Rise in system from flow rate pressure spikes decreased
- Volume of air bubbles in the system reduced
- Water meter volume reading reduced in a set amount of time
- Very tiny change in physical measurement of end point volume
- Successfully validated usage and water meter efficiency improvements

THOUSANDS OF ACTIVE CLIENTS ACROSS THE U.S. IN A VARIETY OF INDUSTRIES AND REVIEWED BY UTILITIES:

- High Rise Multifamily
- High Rise Commercial Mixed-use
- Car Dealerships
- Fast Food Franchises
- HOA Properties
- Landscaping Projects and Professional Landscaping Partnerships
- Linen and Clothing Industrial Cleaning Facilities
- Apartment Complexes
- Retail
- Plumbers' Homes (speaks volumes, right?)
- Residential Properties (large and small)

U.S. Patent | Awarded 2014 | 8,707,981

NS1 372 (Lead Free)**

Food and Drug Administration (FDA)
Approved Safe

KEY INPUTS & ASSUMPTIONS	
Exactwater Project Cost	\$10,055
Baseline Water Usage Cost Per Year	\$55,080
Annual Water Cost Inflation	3%
Exactwater Reduction - Average	20%
Exactwater Reduction - High	40%

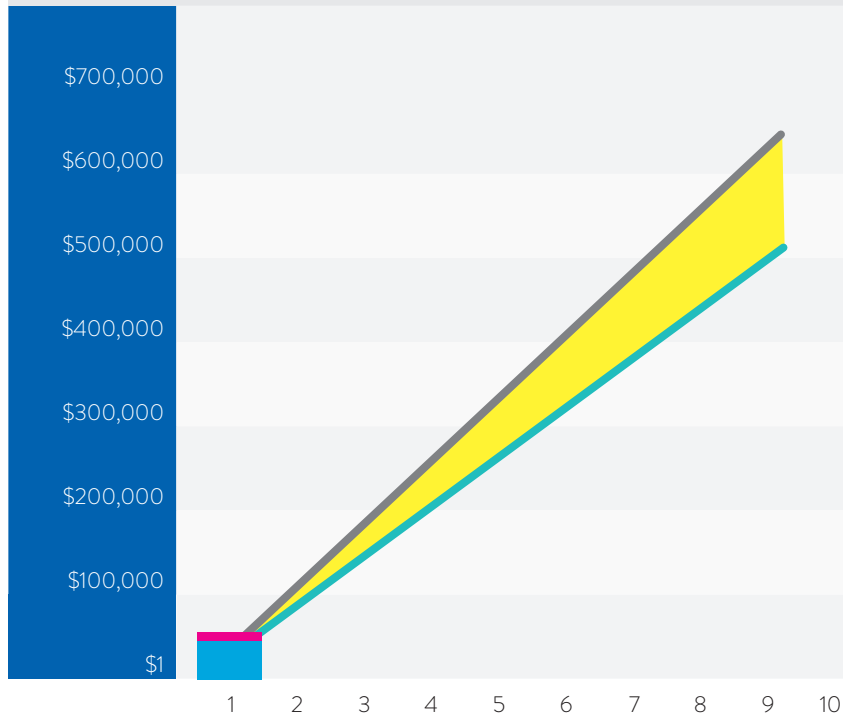

COST SAVINGS	
Cost Savings - Average Annual Range	\$12,629
Cost Savings 10 Yr - Average Range	\$126,286
Payback - Average Months	10.95
Cost Savings - High Annual Range	\$25,257
Cost Savings 10 Yr - High Range	\$252,572
Payback - High Months	5.48
