

What is Wyoming HOSA?

Why is it important?

Wyoming HOSA–Future Health Professionals is the state's Career and Technical Student Organization (CTSO) for middle school, high school, and postsecondary students interested in healthcare careers. Our mission is to develop the next generation of healthcare leaders by empowering students through education, leadership, service, and real-world experiences that prepare them for successful careers in healthcare.

What makes Wyoming HOSA unique is that students don't just learn about healthcare—they experience it. Through HOSA, students have opportunities to:

- Compete in more than 100 healthcare and leadership competitive events at the state and international levels.
- Develop leadership skills by serving as chapter, state, and international officers or participating on leadership committees.
- Connect with healthcare professionals through networking, mentoring, job shadowing, internships, and career exploration opportunities.
- Participate in community service projects that improve the health and well-being of their communities.
- Attend leadership conferences, educational symposiums, and the International Leadership Conference alongside thousands of future health professionals from around the world.
- Earn scholarships, awards, recognition, and certifications that strengthen college, scholarship, and employment applications.
- Build essential workplace skills such as communication, teamwork, professionalism, problem-solving, critical thinking, and public speaking.
- Explore a wide variety of healthcare careers through hands-on learning experiences and interactions with professionals across the healthcare industry.

For Wyoming, HOSA is more than a student organization—it's an investment in our future healthcare workforce. By connecting students with educators, healthcare employers, colleges, and community partners, we're creating a strong pipeline of skilled, compassionate professionals who are prepared to meet Wyoming's growing healthcare needs.

Whether a student dreams of becoming a nurse, physician, EMT, therapist, veterinarian, researcher, dentist, pharmacist, public health professional, or another healthcare provider, Wyoming HOSA provides the experiences, connections, and leadership development that help turn those dreams into reality.

When you invest in Wyoming HOSA, you're not just supporting students—you are investing in Wyoming's future healthcare workforce.
